TIME AND CONDITIONS OF EXAMINATION.

THE REGULAR EXAMINATION for admission to College takes place on Monday and Tuesday preceding Commencement, beginning at 9 o'clock A. M. on Monday and at 8 o'clock A. M. on Tuesday. The candidates assemble at Graduates Hall. Another examination will be held at the same place, on Tuesday and Wednesday, September 13th and 14th, beginning at 9 o'clock A. M. on Tuesday, and at 8 o'clock A. M. on Wednesday. Persons may be examined for an advanced standing in any other part of the collegiate terms, but not in vacations, except in very special cases. No one can be admitted to the Senior Class, after the commencement of the second term.

ADVANCED STANDING.—All candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter.

AGE.—No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

TESTIMONIALS.—Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismissal in good standing.

BOND.—Every person, on being admitted, must give to the Treasurer a bond, executed by his parent or guardian, for two hundred dollars, to pay all charges which may arise under the laws of the College.

MATRICULATION.—The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation on satisfactory evidence of an unblemished moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

ELECTIVE STUDIES.

Those students, who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose Analytical Geometry in place of the regular Mathematics, in the third term of Sophomore Year, and the Differential and Integral Calculus, during the first two terms of Junior Year, in place of the Greek or the Latin studies of those terms.

During the third term of Junior Year, in addition to the required studies of the term, the members of the class receive at their option instruction in the French or German Languages, in select Greek or Latin, or in Mineralogy.

Students, who are desirous of pursuing Hebrew, may obtain gratuitous instruction in that language from the Professor of Sacred Literature.

VOCAL MUSIC.

INSTRUCTION is given in vocal music, twice a week during the year. The exercises in this department are open to all the classes.

The entire course extends through two years, and has especial reference to sacred music.

EXAMINATIONS.

PUBLIC EXAMINATIONS of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years.

The biennial examinations are conducted wholly in writing, and are continued each for a period of between two and three weeks.

TERMS AND VACATIONS.

THE PUBLIC COMMENCEMENT is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or as the case may be, four weeks, are assigned for vacations.

LEAVE OF ABSENCE.—No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

PUBLIC WORSHIP.

PRAYERS are attended in the College Chapel every morning and evening, with the reading of the Scriptures; when one of the Faculty officiates, and all the students are required to be present.

PUBLIC WORSHIP is held in the Chapel on the Sabbath, which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only by presenting to the President a written request from the parent or guardian.

EXPENSES.

THE COLLEGE BILLS are made out by the Treasurer three times a year, at the close of each term, and are delivered to the students, who are required to present them to their parents or guardians. The bills are payable at the close of the term, and if not paid by the expiration of two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

TREASURER'S BILL.

The annual charges in the Treasurer's bill are,

For tuition, - - - - -	\$45 00
" rent and care of half room in College, average of four years, - - - - -	17 44
" expenses of public rooms, - - - - -	3 00
" ordinary repairs, general damages, and incidentals, about, - - - - -	3 56
	<hr/>
	\$69 00

OTHER CHARGES.—Besides this bill, the student pays for tuition in optional studies during part of Junior year, a small sum for the use of books which he may draw from the College Library, and additional charges at graduation, amounting to \$12 00. If a student occupies a whole room, the charge for rent and care is double that stated above.

ADVANCED STANDING.—Any person admitted to an advanced standing, unless coming from another College, pays the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

NOTES of the several incorporated banks in this State, and such other notes as are taken by the banks in the city of New Haven, are received in payment of the bills. Drafts on Boston or New York may be transmitted direct to the Treasurer.

BOARD.—Board is obtained at prices varying from \$2 50 to \$3 50 a week. To a majority of the students it is about \$3 00. Board may be obtained in clubs, by those students who wish it at a lower rate than is common in boarding houses. No student is allowed to be a boarder in any hotel or house of public entertainment.

LODGINGS IN TOWN.—Students who wish to take lodgings in town are permitted to do so. But if, in consequence of this, any of the rooms in College are left vacant, the amount of the rent will be assessed upon those who room in town. The expense of room rent in private

houses is much greater than in College. The students living out of College are not allowed to room in any house or building, in which a family does not reside.

FURNITURE, BOOKS, &c.—The students provide for themselves bed and bedding, furniture for their rooms, fuel, lights, books, stationery and washing. There are also, in the several classes and literary societies, taxes of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

FUEL is distributed to those students who apply for it, at cost and charges, and *must be paid for at the time of ordering.*

NECESSARY EXPENSES.—The following may be considered as a near estimate of the *necessary* annual expenses, without including apparel, pocket money, traveling, and board in vacations:—

Treasurer's bill (average), - - - - -	\$72	\$72
Board, 40 weeks, - - - - -	from 100	to 140
Fuel and lights, - - - - -	" 12	" 20
Use of books recited, and stationery, - - - - -	" 5	" 15
Use of furniture, bed and bedding, - - - - -	" 5	" 20
Washing, - - - - -	" 12	" 21
Taxes in the Societies, &c. - - - - -	" 9	" 12
Total,	\$215	to \$300

GENERAL EXPENSES.—With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most, and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses, will expose the student to numerous temptations, and will not contribute either to his respectability or happiness.

COLLEGE GUARDIAN.—As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of the expenditures, for which services he charges a commission.

BENEFICIARY FUNDS.

A SUM exceeding twenty-four hundred dollars, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of indigent students, especially those who are preparing for the ministry of the Gospel. More than fifty have their tuition either wholly or in part remitted. There are also thirteen scholarships, each yielding somewhat more than enough to pay the tuition, which may be given to such students as shall be selected by the founders or by the Faculty.

TEXT-BOOKS.—Indigent students are also supplied with most of the text-books used in the College course, without expense, by loan from the Benevolent and Educational Libraries.

RECITATION ROOMS.—Students in the Freshman Class who occupy the recitation rooms, save their room rent and fuel in winter, and receive a small compensation in summer.

SCHOLARSHIPS.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament (Pauline Epistles), the first book of Thucydides, and the first six books of Homer's Iliad, Cicero's Tusculan Questions, Tacitus, (except the Annals,) and Horace; provided he remains in New Haven as a graduate one, two or three years.

THE CLARK SCHOLARSHIP, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

THE BRISTED SCHOLARSHIP, yielding about ninety-five dollars a year, is awarded whenever there may be a vacancy, to the student in the Sophomore or Junior Class, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course.

PREMIUMS.

THE DEFOREST PRIZE MEDAL, of the value of one hundred dollars, will be awarded "to that scholar of the Senior Class, who shall write and pronounce an English Oration in the best manner."

THE TOWNSEND PREMIUMS, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

THE SENIOR MATHEMATICAL PRIZES, (the first consisting of a gold medal of the value of ten dollars, with ten dollars in money, the second of ten dollars in money,) are given to two members of the Senior Class for the best solution of problems in both abstract and concrete mathematics.

THE BERKELEY PREMIUMS for Latin composition are offered to the Junior, Sophomore, and Freshman Classes near the beginning of the third term.

THE CLARK PREMIUMS will be offered, during the present year, for excellence in the department of the higher Mathematics of Junior year; and for the solution of problems in Practical Astronomy.

THE COLLEGE PREMIUMS are given in the Sophomore Class for English composition, at the end of the first and second terms, in the Sophomore Class for Declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

DEGREES.

BACHELOR OF ARTS.—The Degree of Bachelor of Arts is conferred on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates for this degree are required to pay their dues to the Treasurer as early as the Monday before Commencement.

EXPENSES.—The Fees, which are required in advance, are \$12,50 for each course, except that on Obstetrics, which is \$6, with a Matriculation fee of \$5—the whole amounting to \$73,50. The tickets of all the Professors, or a part, may be taken in any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another incorporated Medical Institution, will be admitted to a full course on paying the Matriculation fee. The graduation fee is \$15;—fee for a license, including diploma, \$4,50.

DEGREE.—By the Statutes of the State, the requirements for the Degree of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' study for those who are; attendance upon two full courses of Lectures, either in this Institution, or some other of a similar character; the attainment of twenty-one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the Medical Sciences, written in a form prescribed by the Faculty. This Board consists of the Medical Professors of the College, *ex officio*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Medical Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The examination is held immediately after the close of the Lectures, when the licenses are granted and degrees conferred.

PRIVATE MEDICAL SCHOOL.

THERE is a Private Medical School for the purpose of daily recitation. The instructors are Doctors H. Bronson, W. Hooker, P. A. Jewett and L. J. Sanford. The year is divided into two terms. The first term

corresponds with the course of lectures of the Medical Institution. The second begins in the middle of February and extends to Commencement, having a vacation of a fortnight in the first part of May. Fees for the first term, \$10; for the second, \$40.

Department of Philosophy and the Arts.

THE DESIGN of this Department is to furnish resident graduates and others, with the opportunity of devoting themselves to special branches of study, either not otherwise provided for, or not pursued as far as individual students may desire.

THE BRANCHES intended to be embraced in this department are such in general as are not included under Theology, Law and Medicine; or more particularly, Mathematical Science, Physical Science and its application to the Arts, Metaphysics, Philology, Literature and History.

INSTRUCTION in this department may be given by Professors not belonging to the other departments, by the Academical professors, and by such others as the President and Fellows may approve.

FACULTY.—The Instructors for the year, with the President, compose the Faculty of the department.

PREPARATORY STUDIES.—It is necessary that all students in philology and mathematical science, should come thoroughly prepared in the elements of those studies.

FOR THE TERMS OF ENTRANCE upon the several courses in the department, application may be made to the several instructors.

LECTURES AND INSTRUCTION.

Professor GIBBS, on General Philology.

Professor OLMSTED, on Natural Philosophy and Astronomy, the Academical courses of Lectures. Also if desired, private lessons in experimental physics and mathematical astronomy.

Professor NOAH PORTER, on Psychology, Logic, and the History of Philosophy.

Professor THACHER—*Lucretius* and Latin Composition; instruction twice a week.

Professor HADLEY—*Pindar* and *Theocritus*; instruction twice a week.

Professor WHITNEY will instruct in the Sanskrit language, and in the History, Antiquities, and Literature of India and other Oriental countries; also, in the comparative philology of the Indo-European languages, and the general principles of linguistic study. He will also give instruction to such as may desire it in the modern European languages.

Professor NEWTON.—Such branches of the Higher Mathematics as may be agreed upon with the student.

DEGREE.—The Degree of Bachelor of Philosophy will be conferred by the President and Fellows, upon students in the Department of Philosophy and the Arts, after being connected with the Department for two years, and passing a satisfactory examination in two departments of science, and the French or German language. The fee for a diploma is \$5.

In the case of students connected with the divisions of Chemistry or Engineering, the two departments of science on which this examination for a degree is held, must both be pursued in the same division of the school.

YALE SCIENTIFIC SCHOOL.

UNDER the Department of Philosophy and the Arts, the Yale Scientific School is organized to give systematic instruction in Natural Science, Chemistry, Agriculture and Engineering.

NATURAL SCIENCE, CHEMISTRY AND AGRICULTURE.

THIS division of the School is under the immediate supervision of Professors JAMES D. DANA, BENJAMIN SILLIMAN, JR., JOHN A. PORTER, GEORGE J. BRUSH, and SAMUEL W. JOHNSON, assisted in Analytical Chemistry by Mr. EDWARD H. TWINING.

LECTURES.

FIRST TERM.

General Chemistry—(50 lectures)—Professor SILLIMAN, JR.

Geology—(40 lectures and recitations)—Professor DANA.

Chemistry of the non-metallic elements—(30 lectures)—Professor JOHNSON.

SECOND TERM.

Chemistry of Building Materials—(12 lectures)—Professor SILLIMAN, JR.

Chemistry, and General Principles of Agriculture—(30 lectures)—Professor JOHNSON.

PRACTICAL CHEMISTRY.—The *Analytical Laboratory*, in charge of Professors Johnson and Brush, is fully equipped with means of practi-

cal instruction in all branches of Analytical and Experimental Chemistry, and is open daily from 9 A. M. to 6 P. M. throughout the academic year. Students work through a course of Qualitative and Quantitative Analysis, and are afterwards guided in the study of any special department of Experimental Chemistry, or in original investigations. Previous study of chemistry is highly desirable, but not essential to admission. Special courses in *Qualitative Analysis* will be given each term.

The whole course occupies two years. Students are received to a full or partial course at their option.

The terms and vacations are the same as in the Academical Department.

EXPENSES.—Matriculation fee, \$3. For Laboratory instruction, and supplies of ordinary reagents and materials, fires, apparatus, and use of Chemical Library, \$51 per term. Cost of apparatus and materials to be supplied by the student, \$5 to \$10 per term. Lectures—to Laboratory students, free; to others, \$3 to \$10 each course. All fees to be paid in advance.
