Triennial Catalogue and Obituary Record.

The last edition of the Triennial Catalogue of the Graduates of the College was published in July, 1868.

Obituary notices of deceased graduates of the College are published annually.

All persons, who can supply information appropriate to the future editions of the Triennial Catalogue or Obituary Record, are urgently requested to communicate the same to the Professor of Latin, or the Librarian of the College.

GENERAL STATEMENT.

Academical Department.

TERMS OF ADMISSION.

Candidates for admission to the Freshman Class are examined in the following books and subjects:—

Latin Grammar—including Prosody.
 Sallust—Jugurthine War; or four books of Cæsar.
 Cicero—seven Orations.
 Virgil—the Bucolics, Georgics, and first six books of the Æneid.
 Arnold's Latin Prose Composition, to the Passive voice (first XII chapters).

Greek Grammar—including Prosody.
 Xenophon—Anabasis, first three books.
 Greek Reader—Jacobs, Colton, or Felton.
 In place of the Greek Reader, the candidate is at liberty to offer the last four books of Xenophon's Anabasis, or four books of Homer's Iliad.

Higher Arithmetic—including the metric system of weights and measures.
 Day's Algebra—to Quadratic Equations.
 Playfair's Euclid—first two books.
 The first, third, and fourth books of Davies's Legendre's Elements of Geometry, or of Loomis's Elements of Geometry, may be offered as a substitute for Playfair's Euclid.

English Grammar and Geography; a thorough knowledge of which will be required.

TIME AND CONDITIONS OF EXAMINATION.

THE EXAMINATION FOR ADMISSION takes place at Graduates' Hall on Saturday, Monday, and Tuesday (July 16th, 18th, and 19th, 1870), beginning at 9 A. M. on Saturday and Monday, and at 8 A. M. on Tuesday. Another examination will be held at the same place, eight weeks later, on Tuesday and Wednesday (September 13th and 14th, 1870), beginning at 9 A. M. Persons applying to be examined in the vacations must first pay to the Treasurer a fee of ten dollars.

ADVANCED STANDING.—All candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those already pursued by the Class which they propose to enter. For the particular books in Greek, or Latin, or French,* studied by the Class, equivalent amounts may be offered from other books in the same language.

No one can be admitted to the Senior Class, after the commencement of the second term.

AGE.—No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a corresponding increase of age.

TESTIMONIALS.—Satisfactory testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismission in good standing.

BOND.—Every person, on being admitted, must give to the Treasurer a bond, executed by his parent or guardian, for two hundred dollars, to secure the payment of all charges arising under the laws of the College.

MATRICULATION.—The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation on satisfactory evidence of good moral character. Before this, they are students on probation. The laws of the College provide for the final separation from the institution, of those who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

* For those who wish to enter the Sophomore Class, an elementary knowledge of French is indispensable, that language being pursued as an advanced study in the first Sophomore term.

COURSE OF INSTRUCTION.

THE COURSE OF INSTRUCTION occupies four years. In each year there are three terms or sessions.

The members of the several Classes meet for recitation and instruction by divisions:—the Senior Class consisting of two divisions, the Junior, Sophomore, and Freshman Classes, of three or four each, according to the size of the Classes.

Each of the four Classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two.

The following scheme gives a general view of the studies:

FRESHMAN CLASS.**FIRST TERM.**

Greek.—Homer's Odyssey, begun.

Latin.—Livy, begun.

Mathematics.—Day's Algebra; Playfair's Euclid, begun.

SECOND TERM.

Greek.—Homer's Odyssey, continued through four books; Herodotus, begun; Arnold's Greek Composition, begun.

Latin.—Livy, continued through a hundred pages; Arnold's Latin Composition.

Mathematics.—Playfair's Euclid, (with the Supplement) finished.

History.—Liddell's Rome.

THIRD TERM.

Greek.—Herodotus, continued through half of the first book; Arnold's Greek Composition, finished.

Latin.—Odes of Horace, three books; Arnold's Latin Composition (to page 150).

French.—French Inflection; Fénelon's Télémaque, one book.

Mathematics.—Day's Algebra, finished; Loomis's Conic Sections.

Rhetoric.—Lectures on the Structure of Language. Compositions.

SOPHOMORE CLASS.**FIRST TERM.**

Greek.—Select Orations of Demosthenes (four orations).

Latin.—Satires and Epistles of Horace.

French.—French Syntax; Fénelon's Télémaque, continued through six books.

Mathematics.—Loomis's Trigonometry; Stanley's Spherical Geometry.

Rhetoric.—Lectures on Elocution, with practice. Declamations. Compositions.

SECOND TERM.

Greek.—Prometheus of Æschylus; Xenophon's Memorabilia, one book.

Latin.—Cicero de Senectute; Latin Composition.

Mathematics.—Davies's Analytical Geometry.

Rhetoric.—Declamations. Compositions.

THIRD TERM.

Greek.—Antigone of Sophocles.

Latin.—Satires of Juvenal.

Mathematics.—

Rhetoric.—Whately's Rhetoric (except Part IV, on Elocution), or Day's Art of Discourse. Declamations. Compositions.

JUNIOR CLASS.

FIRST TERM.

Greek.—Plato's Gorgias, or two books of Arrian's Anabasis.

Mathematics.—(See Elective Studies, page 38.)

Natural Philosophy.—Snell's Olmsted's Natural Philosophy:—Mechanics.

Rhetoric.—History of English Literature. Forensic Disputations. Lectures.

SECOND TERM.

Latin.—Tacitus; Latin Composition.

German.—German Grammar and Reader.

Mathematics.—(See Elective Studies, page 38.)

Natural Philosophy.—Snell's Olmsted, finished. Lectures.

Rhetoric.—Forensic Disputations.

THIRD TERM.

Greek.—Demosthenes on the Crown, or half a book of Thucydides. Lectures.

Astronomy.—Loomis's Astronomy, to Chapter XII.

Logic.—Atwater's Manual of Logic.

Theoretical Chemistry.—Silliman and Barker's Chemistry; Cooke's Chemical Philosophy.

SENIOR CLASS.

FIRST TERM.

Political Philosophy.—Political Economy. Lectures on Natural Right. Lieber's Civil Liberty, begun.

Mental Philosophy.—Porter's Human Intellect. Lectures.

Astronomy.—Loomis's Astronomy, finished.

Meteorology.—Loomis's Meteorology.

Experimental Chemistry.—Lectures, with Recitations.

Rhetoric.—Compositions. Forensic Disputations.

Modern European History.—From 1517 to Peace of Westphalia.

Latin.—Cicero pro Cluentio.

German.—(See Elective Studies, page 38.)

SECOND TERM.

Political Philosophy.—Lieber's Civil Liberty, finished; International Law.

Natural Theology and Evidences of Christianity.—Recitations and Lectures.

Moral Philosophy.—Recitations and Lectures.

Geology.—Dana's Geology.

Rhetoric.—Compositions. Forensic Disputations.

Modern European History.—continued.

Anatomy and Physiology.—Lectures.

THIRD TERM.

Political Philosophy.—International Law, finished.

Constitution of the United States.—Lectures.

Moral Philosophy.—finished.

Roman Law.—Lectures.

LECTURES.

FIRST TERM.

Senior Class.

Political Philosophy.—The PRESIDENT, four days in the week, during the first half of the term, at 5 P. M., at No. 176 LYC.

Mental Philosophy.—Professor PORTER, four days in the week, during the second half of the term, at 5 P. M., at 176 LYC.

Chemistry.—Professor SILLIMAN, four days in the week, during the first six weeks of the term, at the Chemical Laboratory, at 3 P. M.

History.—Professor WHEELER, two days in the week, at 5 P. M., at No. 176 LYC.

SECOND TERM.

Senior Class.

Moral Philosophy.—Professor PORTER, Monday and Thursday, during the term, at 5 P. M., at No. 176 LYC.

Anatomy and Physiology.—Professor SANFORD, daily, for three weeks, from about March 1st, at 3 P. M., at the Medical College.

History.—Professor WHEELER, during the term, at No. 176 LYC.

Junior Class.

Natural Philosophy.—Professor LOOMIS, two days in the week, at 11½ A. M., at the Philosophical Chamber, Cabinet Hall.

THIRD TERM.

Senior Class.

Constitution of the United States.—, at No. 176 LYC.,—fourteen lectures.

Natural Theology and Evidences of Christianity.—Professor PORTER, twelve to sixteen lectures.

Roman Law.—Professor HADLEY, ten to twelve lectures, at No. 176 LYC.

Junior Class.

Greek History.—Professor PACKARD, sixteen lectures.

EXERCISES IN DECLAMATION AND COMPOSITION.

The Senior and Junior Classes have exercises in forensic disputation twice a week.

The Senior Class have exercises in English composition twice a week.

The Sophomore Class, during the whole year, and the Freshman Class, during the third term, have exercises in English composition once a week.

The Sophomore Class have regular exercises in Elocution; and once a week, during a part of the year, have an exercise in Declamation in the Chapel, before the Professor of Rhetoric and the members of the Class.

ELECTIVE STUDIES.

Those students who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose the Differential and Integral Calculus, during the first two terms of Junior year, in place of the Greek or the Latin studies of those terms.

During the first term of Senior year, the members of the class have their option, to continue the study of German,—in place of either Astronomy, or Latin.

Students who are desirous of pursuing Hebrew, may obtain gratuitous instruction from the Professor of Hebrew.

EXAMINATIONS.

Public examinations are held at the close of the first and second terms, on the studies of the term; and, at the close of the year, on all the studies of the year.

The annual examinations are conducted wholly in writing, and are continued (except the Senior examination, which extends through two or three weeks) for a period of eight or nine days.

VOCAL MUSIC.

Gratuitous instruction in Vocal Music is given during the year, the exercises being open to members of all the Departments, subject, however, to a moderate charge for fire and lights.

PUBLIC WORSHIP.

PRAYERS are attended in the Chapel every morning, with the reading of the Scriptures and singing, and all the students are required to be present.

PUBLIC WORSHIP is held in the Chapel on the Sabbath, and all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only on presenting to the President a written request therefor from the parent or guardian.

TERMS AND VACATIONS.

THE PUBLIC COMMENCEMENT is held on the last Thursday but one in July. The first term begins eight weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the last Wednesday in April and continues till Commencement. The intervening periods, which, for the year 1869-70, are eight, two, and two weeks, are assigned for vacations. (*See Calendar.*)

LEAVE OF ABSENCE.—No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions him a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are advised not to allow their sons to remain at the College.

GYMNASIUM.

The Gymnasium is designed to provide all the students with opportunities for exercise. For the privileges of the same, including instruction, the sum of four dollars a year is charged to each Academical student. Those who use the bathing-rooms connected with the Gymnasium pay a small fee for tickets.

READING ROOM.

The Reading Room established by the College in connection with the Linonian and Brothers Societies, and including an ample selection of American and English newspapers and magazines, is free to all the members of those Societies till graduation.

EXPENSES.

THE TREASURER'S BILLS are made out three times a year, and are delivered before the close of each term to the students, who are required to present them to their parents or guardians. The bills are payable at the close of the term: if they are not paid within two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

TREASURER'S BILL.

The annual charges are,		
For tuition,	- - - - -	\$60
“ rent and care of half room in College, average of four years,	- - - - -	20
“ expenses of public rooms, ordinary repairs, and incidentals,	- - - - -	10
“ Gymnasium,	- - - - -	4
“ Linonian or Brothers Society tax,	- - - - -	8
		<u>\$102</u>

OTHER CHARGES.—There are additional charges at graduation, amounting to eighteen dollars. If a student occupies a whole room, the charge for rent and care is double that stated above.

ADVANCED STUDENTS.—Any person admitted to an advanced standing, unless coming from another College, pays the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

ABSENCE ON LEAVE.—A student who is absent from College on leave, on account of sickness, or for any other cause, and still retains his place in his class, pays full tuition during such absence.

BOARD.—Board is obtained at prices varying from \$4.00 to \$7.00 a week. The average price for the summer of 1869 was about \$5.50. Board may be obtained in clubs, by those students who wish it at a lower rate than is common in boarding houses. No student is allowed to be a boarder in any hotel or house of public entertainment.

ROOMS.—Students who wish to take lodgings in town are permitted to do so: but if, in consequence of this, any of the rooms in College assigned to their Class are left vacant, they will be assessed to the amount of the rent of such rooms. The expense of room rent in private houses is much greater than in College. Students living out of College are not allowed to room in any building in which a family does not reside, except by special permission of the Faculty.

FURNITURE, BOOKS, &c.—Students provide for themselves furniture, fuel, lights, and text-books. If books and furniture are sold when the student has no further necessity for them, the expenses incurred by their use will not be great.

COAL is furnished to those students who apply to the Treasurer for it, at such a price as shall indemnify the College for all expenses which may accrue in consequence; it *must be paid for at the time of ordering.*

NECESSARY EXPENSES.—The following may be considered a near estimate of the *necessary* annual expenses, without including apparel, pocket money, traveling, and board in vacations:—

Treasurer's bill (average),	- - - - -	\$102		\$102
Board, 40 weeks,	- - - - -	from 160	to	280
Fuel and lights,	- - - - -	“ 15	“	25
Use of books recited, and stationery,	- - - - -	“ 10	“	20
Use of furniture,	- - - - -	“ 10	“	20
		“ 20	“	40

In order to meet the necessities of the academical department, and to perfect the system of education, the Corporation have recently raised the annual charge for tuition from *sixty* to *ninety* dollars. This will take effect at the beginning of the next academical year. The same number of persons, however, will continue to be benefitted, and to a like degree, by the abatement of tuition and by scholarships. It is expected also that additional help will be provided hereafter for those who are in need of it.

at a distance frequently deposit funds with some one of the Faculty, who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of the expenditures, for which services he charges a commission.

BENEFICIARY FUNDS.

A sum somewhat exceeding twenty-nine hundred dollars, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of students who need pecuniary aid, especially of those preparing for the Christian ministry. About seventy have thus their tuition either wholly or in part remitted. Students needing such aid are requested to inform the Senior officer of the Class to which they belong, soon after entering College.

EXPENSES.

THE TREASURER'S BILLS are made out three times a year, and are delivered before the close of each term to the students, who are required to present them to their parents or guardians. The bills are payable at the close of the term: if they are not paid within two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

	8

his class, pays full tuition during

BOARD.—Board is obtained at prices varying from \$4.00 to \$7.00 a week. The average price for the summer of 1869 was about \$5.50. Board may be obtained in clubs, by those students who wish it at a lower rate than is common in boarding houses. No student is allowed to be a boarder in any hotel or house of public entertainment.

ROOMS.—Students who wish to take lodgings in town are permitted to do so: but if, in consequence of this, any of the rooms in College assigned to their Class are left vacant, they will be assessed to the amount of the rent of such rooms. The expense of room rent in private houses is much greater than in College. Students living out of College are not allowed to room in any building in which a family does not reside, except by special permission of the Faculty.

FURNITURE, BOOKS, &c.—Students provide for themselves furniture, fuel, lights, and text-books. If books and furniture are sold when the student has no further necessity for them, the expenses incurred by their use will not be great.

COAL is furnished to those students who apply to the Treasurer for it, at such a price as shall indemnify the College for all expenses which may accrue in consequence; it *must be paid for at the time of ordering.*

NECESSARY EXPENSES.—The following may be considered a near estimate of the *necessary* annual expenses, without including apparel, pocket money, traveling, and board in vacations:—

Treasurer's bill (average),	\$102	\$102
Board, 40 weeks,	from 160	to 280
Fuel and lights,	“ 15	“ 25
Use of books recited, and stationery,	“ 10	“ 20
Use of furniture,	“ 10	“ 20
Washing,	“ 20	“ 40
Total,	\$317	to \$487

GENERAL EXPENSES.—With regard to apparel, and what is called pocket money, no general estimate can be made. These are articles in which the expenses of individuals differ most, and in which some are unwarrantably extravagant. There is nothing, by which the character and scholarship of the students in this College are more endangered, than by free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses, will expose the student to numerous temptations, and will not contribute either to his respectability or happiness.

COLLEGE GUARDIAN.—As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of the expenditures, for which services he charges a commission.

BENEFICIARY FUNDS.

A sum somewhat exceeding twenty-nine hundred dollars, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of students who need pecuniary aid, especially of those preparing for the Christian ministry. About seventy have thus their tuition either wholly or in part remitted. Students needing such aid are requested to inform the Senior officer of the Class to which they belong, soon after entering College.

THE HARMER FOUNDATION OF SCHOLARSHIPS comprises six scholarships, yielding each one hundred dollars a year, to be given to deserving students of small means.

There are also twelve other Scholarships, most of them yielding sixty dollars a year, which may be given to such students as shall be selected by the founders or by the Faculty.

Students who need to avail themselves of the use of the Benevolent Library are supplied gratuitously with many of the text-books used in the College course.

SCHOLARSHIPS.

THE BERKELEY SCHOLARSHIP.—Its income, about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament (Pauline Epistles), the first book of Thucydides, the first six books of Homer's Iliad, Cicero's Tusculan Questions, Tacitus (except the Annals), and Horace; provided he remain in New Haven as a graduate, one, two, or three years.

THE CLARK SCHOLARSHIP.—Its income, one hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the studies of the College course; provided he remain in New Haven one or two years immediately succeeding his graduation, pursuing a course of study (not professional) under the direction of the Faculty.

THE BRISTED SCHOLARSHIP.—Its income, about one hundred dollars a year, is awarded, whenever there is a vacancy, to the student in the Sophomore or Junior Class, who passes the best examination in the Greek and Latin classics and mathematics. The successful candidate receives the annuity (forfeiting one-third in case of non-residence in New Haven) until he would regularly take his second degree.

FIRST FRESHMAN SCHOLARSHIP.—The income of this, sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate receives the annuity, under certain conditions, during the four years of his College course. The student who stands second at this examination receives for one year the income of the HURLBUT SCHOLARSHIP, and the student who stands third, the income for one year of the THIRD FRESHMAN SCHOLARSHIP. The income of each of the two latter Scholarships is sixty dollars.

A SCHOLARSHIP founded by the late W. W. DeForest, of New York City. Its income, one hundred and twenty dollars a year, is awarded annually to such scholar, graduate, or undergraduate, as the Faculty may elect, giving the preference to one who shall pursue the study of the modern languages.

PREMIUMS.

THE DEFOREST PRIZE MEDAL, of the value of one hundred dollars, is awarded "to that scholar of the Senior Class, who shall write and pronounce an English Oration in the best manner."

THE TOWNSEND PREMIUMS, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

THE SENIOR MATHEMATICAL PRIZES (the first consisting of a gold medal of the value of ten dollars and of ten dollars in money, the second of ten dollars in money) are offered to the Senior Class for the best solutions of problems in both abstract and concrete mathematics.

CLARK PREMIUMS are offered to the Senior Class, for the solution of problems in Practical Astronomy.

COLLEGE PREMIUMS are given in the Sophomore Class for English composition, and for Declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

DEGREES.

BACHELOR OF ARTS.—The Degree of Bachelor of Arts is conferred on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates for this degree are required to pay their dues to the Treasurer as early as the Monday before Commencement.

MASTER OF ARTS.—Every Bachelor of Arts of three years' or longer standing may receive the Degree of Master of Arts on the payment of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President or Treasurer previous to Commencement.

Theological Department.

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Didactic Theology, a Professor of Hebrew Literature and Biblical Theology, a Professor of Homiletics and the Pastoral Charge, a Professor of Ecclesiastical History, and a Professor of Sacred Literature.

COURSE OF INSTRUCTION.—The regular course occupies three years, and is arranged in the following order:—

Junior Year.

Professor DAY will lecture on the Encyclopedia and Literature of Theology, and give instruction in Hebrew Grammar and Philology. Portions of the historical books of the Old Testament in the original will be carefully read and analyzed, and critical and exegetical dissertations be presented by the class on points of special difficulty or importance.

Professor DWIGHT will give instruction in the exegetical study of the Greek New Testament. In addition to the regular recitations and exercises, the course includes a series of lectures on the history of the text, the canon, genuineness of the several books, &c.; and also dissertations of a critical and exegetical character, on various topics connected with this department of instruction, which are presented by the students and discussed in presence of the Class.

Professor PORTER will lecture twice a week upon Metaphysical and Ethical Philosophy, Natural Theology and the evidences of a supernatural revelation, including the inspiration of the Scriptures.

Middle Year.

Dr. BACON will give instruction in Doctrinal Theology. The class will be conducted through a course of readings and discussions designed to make them familiarly and accurately acquainted with the doctrines of the Christian system, and with existing questions and controversies in relation to that system. The aim of the instruction will be, to prepare the students for their expected work, by helping them to furnish themselves with such a knowledge of Christian doctrine as may enable them to become effective preachers of the gospel.

Professor DAY will lecture on Biblical Theology, with special reference to the progressive stages of Divine revelation, and the doctrinal results of the modern critical study of the Scriptures. He will also lecture on portions of the Hebrew Scriptures, especially the poetical and prophetic books.

Professor FISHER will lecture on General Church History, including the following topics: an historical survey of the Old or Preparatory dispensation in its relation to Christianity; the establishment and spread of Christianity (including Missions and Persecutions); Ecclesiastical Polity (including the rise and rule of the Papacy); and the history of Christian Life and Worship.

Professor DWIGHT will continue to give instruction by lectures and recitations, in the critical study of the New Testament, especially the Epistles of Paul.

Senior Year.

Dr. BACON will complete the course of Doctrinal Theology, by a series of lectures on the Church and its Institutions, with special reference to Congregational polity and usages.

Professor HOPPIN will lecture on Sacred Rhetoric and Homiletics, and also on Pastoral Theology, including the office, qualifications, pastoral duties and special work of the ministry; he will also take charge of the practical exercises, in Preaching, and in the criticism of the style and delivery of Sermons.

Professor FISHER will lecture on the history of Christian Doctrine and on Symbolical Theology, and students will be aided in pursuing historical investigations for themselves.

Optional Studies in either year.

Professor DAY will read, free of charge, with those students who desire to become familiar with the theological literature of Germany and have made some progress in the language, some standard work in German on Christian doctrine, with critical remarks, and references to the ablest works on special topics. The grammatical study of the language may be pursued with Professor WHITNEY, who will also give instruction to those who desire it in French and Sanskrit. Exercises in elocution may be obtained from the College instructor in that branch. Instruction in vocal music is given gratuitously to students who desire it.

The following courses of lectures in the Academical Department may be attended, free of charge, provided only that they must not be allowed to interfere with the regular studies of the Seminary: on *Political Philosophy*, by President WOOLSEY; on *Natural Philosophy*, by

Professor LOOMIS; on *Mental and Moral Philosophy*, by Professor PORTER; on *Chemistry*, by Professor SILLIMAN; on *Anatomy and Physiology*, by Professor SANFORD. Students may also be admitted to the various courses of lectures in the Sheffield Scientific School.

EXERCISES IN PUBLIC SPEAKING.—There will be an exercise for all the classes, in the presence of the Faculty, each week, in the reading of the Scriptures and hymns, and in the delivery of sermons, or parts of sermons, or addresses. There will also be a weekly conference, designed to cultivate the power of *extemporaneous speaking*, in which the students will be called on to present their views on some subject selected by the Faculty. The TAYLOR Rhetorical Society, in which weekly debates are held, is conducted by the students, and all the members of the Seminary are invited to join it.

LIBRARIES.—The College Library, to which the students have access without charge, includes an extensive collection of works in metaphysics and in all the various branches of theology, rendering it second in value to that of no other theological library in this country. The Library is open five hours on every secular day for consultation and for the drawing of books.

The libraries of the College literary Societies, containing about 26,000 volumes in general literature, are accessible to theological students.

The total number of volumes in the several libraries, which are open to students, is about 83,000.

PHYSICAL EXERCISE.—The College Gymnasium is open to the students of this Department at a small charge. The harbor of New Haven affords excellent facilities for boating, to those who are inclined to this mode of exercise.

LICENSE TO PREACH.—The regular time for applying for a license is at the close of the second year's study, before which members of the Seminary will not be allowed to preach.

PUBLIC WORSHIP.—Prayers are attended every morning, with reading of the Scriptures and singing. It is optional with the student whether to connect himself with the College Church, or with one of the City churches; but whatever his decision, it is hoped that he will actively engage, so far as may not be inconsistent with the prosecution of his studies, in some form of City Mission, Sabbath School or other benevolent labor, for which constant opportunities are offered.

EXPENSES.—No charge is made for instruction. Rooms are provided, free of rent, in the *Divinity College*, on the College square. Each room is subject to a charge of \$5 a year for incidental expenses. No other

charges of any kind are made to the student. Good board may be obtained at as low a rate as \$4.50 a week: fuel and lights may be estimated at from \$15 to \$25 a year, or about one half this sum, when two persons occupy the same room.

SCHOLARSHIPS AND BENEFICIARY FUNDS.—There are several Scholarships belonging to the Seminary, entitled respectively the James Hillhouse, William Leffingwell, George E. Dunham, Normand Smith, E. E. Salisbury, Thomas R. Trowbridge, Charles Atwater, Richard Borden, Samuel Holmes, Roland Mather, Noah Porter, John DeForest, and David Root. From these and other funds, aid to the amount of \$80 annually is furnished to approved students, whose circumstances require it. This is exclusive of aid rendered by the American Education Society, amounting to \$100 annually. Assistance to a certain extent may also be furnished from other sources. There are frequent opportunities for those who have obtained a license, to preach with pecuniary compensation. In general it may be said, that sufficient aid can be furnished to every young man who gives promise of usefulness in the ministry, to enable him, with his own efforts, to complete a course of theological study. Persons desiring more particular information are invited to confer verbally or by letter with either of the Professors.

COMMENCEMENT OF THE TERM, VACATION, ETC.—The session for 1869-70 commenced on Thursday, Sept. 16th, and continues till the third Thursday in May, when the public Anniversary will be held. The annual examination of the classes, and the meeting of the Alumni, will be held in the same week.

By thus throwing all the vacations into one, as is now done in most of the Theological Schools, the most favorable season of the year is secured for study, while the opportunity is given, in the four months' vacation, to engage in some one of the various forms of benevolent labor, in connection with the mission efforts of the churches, or in the service of one of the benevolent societies, by which the practical experience required in the work of the pastor, as well as pecuniary compensation, may be obtained. Should any of the members of the Seminary, however, prefer to spend the vacation in theological reading, the Professors will counsel them in respect to the choice of books.

CONDITIONS OF ADMISSION.—The conditions for entrance are hopeful piety and a liberal education at some College, or such other literary acquisitions as may be considered an equivalent preparation for theological studies. Students of every Christian denomination, in case they are possessed of these qualifications, are admitted to the Seminary.

It is expected that every student will be promptly on the ground at the commencement of the session. Rooms will be assigned in the order of application, but no room will be reserved for any applicant who neglects to appear, beyond one week after the opening of the term.

DEGREE.—The Degree of Bachelor of Divinity is conferred by the President and Fellows on members of the seminary who have taken at any College the degree of Bachelor of Arts, and who pass the prescribed examination at the end of a three years' course of theological study.

Law Department.

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, the Kent Professor of Constitutional Law, and three Lecturers and Instructors, one having charge of the branches of Elementary and Criminal Law and the Law of Real Estate, another of Commercial Law and the Law of Wills and Administration, and another of Pleading, Evidence, and Equity Jurisprudence.

TERMS AND VACATIONS.—There are two Terms in each year: the Fall Term, beginning on the third Wednesday of September and closing on December 24th; and the Spring Term, beginning February 15th, and closing at Commencement, (the last Thursday but one in July,) with a recess of one week early in May.

COURSE OF INSTRUCTION.—The students are divided into two Classes, Senior and Junior, for each of which a special course of study is provided, but members of either Class may attend the exercises of both, and, so far as they are able, are recommended to do so. On each day of the week, except Wednesdays and Saturdays, both classes recite from standard text-books, the recitations being accompanied with oral explanations or prefaced by a short Lecture. Wednesdays and Saturdays are devoted exclusively to Lectures and to moot courts. In the moot courts the students, acting as counsel in the argument of cases, are required to draw the necessary pleadings in the common law form.

The Senior Class will attend, during the Spring Term, a course of Lectures on the Civil Law, by Prof. JAMES HADLEY, LL.D., and members

of either Class can attend any of the lectures of the Professors in the other Departments of the College, whenever it may be compatible with their other engagements, and, with a few exceptions only, without charge.

A course of study is also provided for those who do not intend to engage in the practice of the Law, but wish to obtain a knowledge of its principles to complete their education, or with reference to engaging in mercantile pursuits.

The principal *text-books* used in the Department, in recitations, are these:

Blackstone's Commentaries.	Washburn on Real Property.
Kent's Commentaries, (1st vol.)	Greenleaf on Evidence.
Parsons on Contracts.	Adams on Equity Jurisprudence.
Gould on Pleading.	

LIBRARIES.—The special library of the Department contains about 2000 volumes, and the students also have access to the general libraries of the College.

DEGREES.—Those who have taken the degree of Bachelor of Arts, Bachelor of Sciences, or Bachelor of Philosophy at any College, before entering the Department, will receive the degree of Bachelor of Laws after an attendance during three Terms. Members of the Bar will receive the same degree, after attending the exercises of the Department for one year, and it will be given to all others, who have been members of the Department during two years. All applicants for this degree are required to pass a satisfactory examination upon the studies pursued by them during their connection with the Department.

EXPENSES.—The fees for tuition and use of library are \$40.00 for the Fall Term, and \$50.00 for the Spring Term, or \$80.00 for the entire annual session: to be paid in advance, or secured by a bond satisfactory to the Treasurer of the College. Diploma fee, \$5.00. Good board and lodging can be obtained in New Haven at prices varying from \$6.50 to \$10.00 a week.

FACILITIES FOR ATTENDING COURT.—The students enjoy peculiar facilities for observing the actual practice of the profession in Court, as the Law School Building adjoins the principal Court house in New Haven, where the Supreme Court of Connecticut holds two Terms annually, and the Superior Court, (the principal *nisi prius* Court of the State), is in session during the greater part of the year. A City Court of both civil and criminal jurisdiction sits daily in the same building, and the New Haven County Court of Common Pleas holds monthly sessions in the State House, which is but a few rods distant. One Term of the U. S. Circuit Court, and two of the U. S. District Court, are also held annually in New Haven.

Medical Department.

THE FACULTY OF THIS DEPARTMENT consists of the President of the College, a Professor of Chemistry, a Professor of Obstetrics and the Diseases of Women and Children, a Professor of Materia Medica and Therapeutics, a Professor of Histology, Pathology, and Microscopy, a Professor of the Theory and Practice of Medicine, a Professor of Surgery, a Professor of General and Special Anatomy and Physiology, and a Professor of Physiological Chemistry and Toxicology.

The regular course of instruction combines, with the ordinary didactic teaching, examinations and reviews of the lectures daily and weekly; while, with a view of supplementing more fully the acknowledged deficiencies of any and all lecture courses, an additional course of instruction, by daily text-book recitations and familiar lectures in all the departments of medical science, is conducted during the summer months; thus prolonging the term of profitable study, for those who desire it, through more than three quarters of the year, forming a Winter Session and a Summer Session.

It is hoped that the measures already adopted, together with others which are in contemplation, will lead to an extension of the term of study, and a classification of students, such that eventually the study of medicine, like that of the other sciences, will be continued daily through the ordinary Academic year.

While each of these separate courses is complete in itself, they each stand in most intimate and important relations to the other; and in no way can the student more easily and naturally acquire a clear, exact, practical, and comprehensive knowledge of medical science in its present advanced position, than by taking both these courses in connection.

For the present, however, the course of public lectures during the Winter Session will be continued as heretofore, seventeen weeks, and the various departments of medicine will be as fully presented as this period will allow; the consideration of those subjects which require a longer time for their complete elucidation, being resumed during the Summer Session; the aim being, thoroughly to instruct the student in the *principles* of medicine as a science, and their practical application as an art, enforced and illustrated by clinical observation, dissections, demonstrations, drawings, models and apparatus.

THE ANNUAL COURSE OF LECTURES commences on the third Thursday of September, and continues for seventeen weeks, when the examination for degrees takes place. An examination for degrees is also held in July, on the Tuesday before Commencement.

The College building is new and commodious; provided with every convenience, and of easy access to the State Hospital.

The spacious and well appointed dissecting rooms are open during the entire session, and amply supplied with anatomical material at a reasonable charge, under the personal direction of the Demonstrator.

The Museum contains a large collection of natural and morbid specimens, as well as of casts, models and plates, and is, together with the collections in Natural History, the Mineralogical Cabinet and Libraries of the Medical and Academical Departments, open to Students.

CLINICAL INSTRUCTION.—Medical and Surgical Cliniques are held regularly, every Wednesday throughout the year at the College, and every Saturday at the State Hospital; presenting a great variety of cases for illustration and operation.

EXPENSES.—The fees for the lectures of the Winter Session, which are required *in advance*, are as follows:—

For Matriculation fee,	\$ 5.00
“ the course in Chemistry,	15.00
“ “ “ Obstetrics and Diseases of Women and Children,	15.00
“ “ “ Materia Medica and Therapeutics,	7.50
“ “ “ Histology, Pathology, and Microscopy,	15.00
“ “ “ Theory and Practice of Medicine,	15.00
“ “ “ Surgery,	15.00
“ “ “ Anatomy and Physiology,	5.00
“ Demonstrator's ticket,	107.50

The whole or a portion of the above courses may be taken, at the option of the student.

The Graduation Fee is \$25.00.

Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and a full course in a similar Medical College, will be admitted to a full course on paying the Matriculation fee. Those who have attended two full courses in any other accredited College, may receive all the tickets, including Matriculation, for \$50.00.

DEGREE.—The candidate for a degree, must deposit with the Dean, two weeks before the examination, a *Thesis* written by himself, upon some medical subject, together with satisfactory certificates from a re-

spectable and regular practitioner of medicine, that he is twenty-one years of age, possesses a good moral character, and has studied medicine for three years under his direction. (If a Bachelor of Arts, only two years of study are required.) He must also have attended two full courses of public lectures, at least one of which must have been in this Institution.

The Committee of Examination consists of the Faculty, and an equal number of the members of the Connecticut Medical Society, appointed by the President and Fellows of the same. The President of the Society is *ex officio* President of the Committee of Examination.

SUMMER SESSION.

The Summer course of instruction commences Wednesday, February 10th, 1870, and continues for five months and a half, with a vacation of one week in May.

Two recitations are held daily and time is also assigned for Laboratory practice, and for demonstrations in Anatomy, for the practical study of which every facility is afforded. Microscopic Anatomy is taught by means of the most improved instruments, and a large collection of the best illustrative specimens.

OTHER LECTURES.—Students are entitled to gratuitous admission to the course of lectures on Anatomy and Physiology given by Professor SANFORD to the Senior Class in the Academical Department; and those desiring to study collateral branches of science may also obtain admission to the lectures of the Professors of Zoölogy, Botany, Philosophy and Astronomy, and of Geology and Mineralogy, in the same department and in the Sheffield Scientific School, and have free access to all the College libraries and collections.

The whole or a portion of the studies may be pursued at the option of the student, and it will be the purpose of the Instructors to consult the needs of individual students, especially of beginners, and, as far as may be, to adapt the course of instruction to them by proper classification.

<i>Expenses.</i> —For the Summer Session,	\$60.00.
Contingent Expenses of Laboratory,	\$10.00.

Department of Philosophy and the Arts.

FIRST SECTION.

SHEFFIELD SCIENTIFIC SCHOOL.

THE SHEFFIELD SCIENTIFIC SCHOOL is organized to give instruction in various branches of physical, natural, and mathematical science, and to some extent in linguistic and historical studies. It bears the name of its chief benefactor, Mr. Joseph E. Sheffield of New Haven, who has given to it a building twice enlarged and improved at his own expense, apparatus and models, a library fund, and an instruction fund of fifty thousand dollars. The school is also the recipient of the Connecticut portion of a Congressional appropriation for the encouragement of scientific education, and as such has been recognized by the State as the "College of Agriculture and the Mechanic Arts" for Connecticut.

STATE VISITORS.—In consequence of the last named donation, the Governor, the Lieutenant Governor, the three Senior Senators, and the Secretary of the State Board of Education, are by law constituted a State Board of Visitors; and, with the Secretary of the School, a Board for the appointment of "State Students." The last named Board is now constituted as follows:—

HIS EXC. MARSHALL JEWELL;
 HIS HONOR FRANCIS WAYLAND;
 HON. GEORGE M. LANDERS;
 HON. ERASMUS D. AVERY;
 HON. JAMES S. TAYLOR;
 REV. BIRDSEY G. NORTHROP;
 PROFESSOR D. C. GILMAN, *Secretary.*

BOARD OF GOVERNMENT AND INSTRUCTION.—The general guidance of the school is entrusted to a "Governing Board," which con-

sists of the President of the College, and of the professors whose names and departments of instruction are as follows:—

WILLIAM A. NORTON, M.A., *Civil Engineering and Mathematics.*
 JAMES D. DANA, LL.D., *Geology and Mineralogy.*
 BENJAMIN SILLIMAN, M.D., *General Chemistry.*
 REV. CHESTER S. LYMAN, M.A., *Industrial Mechanics and Physics.*
 WILLIAM D. WHITNEY, PH.D., LL.D., *Modern Languages.*
 GEORGE J. BRUSH, M.A., *Mineralogy and Metallurgy.*
 DANIEL C. GILMAN, M.A., *Physical and Political Geography.*
 SAMUEL W. JOHNSON, M.A., *Analytical and Agricultural Chemistry.*
 WILLIAM H. BREWER, M.A., *Agriculture.*
 —————
Mining.
 DANIEL C. EATON, M.A., *Botany.*
 OTHNIEL C. MARSH, M.A., *Palaontology.*
 ADDISON E. VERRILL, M.A., *Zoology.*

General BENJAMIN S. ROBERTS, U. S. A., is detailed by the U. S. Government to act as Professor of Military Science. The other instructors are as follows:—

MARK BAILEY, M.A., <i>Elocution.</i>	HENRY S. WILLIAMS, PH.B., <i>Palaontology.</i>
LOUIS BAIL, <i>Drawing.</i>	WILLIAM G. MIXTER, PH.B., } <i>Chemistry.</i>
DANIEL H. WELLS, C.E., <i>Mathematics.</i>	EUGENE S. BRISTOL, PH.B., }
SIDNEY I. SMITH, PH.B., <i>Zoology.</i>	

BUILDING AND APPARATUS.—Sheffield Hall, in which most of the instruction is given, is a large and well arranged building containing recitation and lecture rooms for all the classes, a hall for public assemblies and lectures, laboratories for chemical and metallurgical investigations, a photographic room, an astronomical observatory, museums, a library and reading room, besides studies for some of the professors, where their private technical libraries are kept.

The following is a summary statement of the collections belonging to the School.

1. Laboratories and Apparatus in Chemistry, Metallurgy, Mechanics, Photography, and Zoology.
2. Metallurgical Museum of Ores, Furnace Products, etc.
3. Agricultural Museum of Soils, Fertilizers, useful and injurious Insects, etc.
4. Collections in Zoology.
5. Astronomical Observatory, with an equatorial telescope by Clark and Son of Cambridge, a meridian circle, etc.
6. Sheffield library and reading room, containing books of reference and a selection of German, French, English, and American scientific journals.
7. Models in Architecture, Civil Engineering, and Mechanics, and diagrams adapted to public lectures.

8. Maps and Charts, topographical, hydrographical, geological, etc. The mineralogical cabinet of Professor Brush, the herbariums of Professors Eaton and Brewer, the collection of native birds of Professor Whitney, and the astronomical instruments of Professor Lyman, are all freely accessible to qualified students.

Students in this department are also admitted to the College and Society libraries, the College Reading Room, the Cabinet of Minerals and Fossils, the School of the Fine Arts, and the Gymnasium for physical exercise.

Distribution of the Students into Sections.

Courses of study, extending through three years, are arranged to suit the requirements of various classes of students. During the first year, the attention is chiefly directed to subjects which are important to all scientific students, and, during the last two years, to special departments of study or research. Seven of these special courses or Sections are now organized. At the close of the Freshman year, every member of the school determines which one of them he will follow, and changes from one to another are not allowed except in peculiar circumstances, and by the formal permission of the Governing Board.

SECTIONS.

- | | |
|------------------------------|---|
| 1. Chemistry and Mineralogy. | 5. Agriculture. |
| 2. Civil Engineering. | 6. Natural History and Geology. |
| 3. Mechanics. | 7. Select Course in Science and Literature. |
| 4. Mining and Metallurgy. | |

In all these courses, regular and punctual attendance is required, and recitations and examinations occur at stated and frequent intervals. Students are not permitted to remain connected with the Institution, if they fall below the requirements in scholarship, deportment, or attendance.

Advanced students, especially the graduates of this and other institutions of learning, are admitted to higher and special courses of study. (See p. 62.)

A fuller statement of the design and methods of this Institution may be found in the Annual Report for 1869, which will be sent on application to the Secretary of the School.

The Three-year Courses of Study.

TERMS OF ADMISSION.—Candidates must be not less than sixteen years of age, and must bring satisfactory testimonials of moral character from their former instructors or other responsible persons.

The examination is of a two-fold character, first to ascertain the mathematical attainments of the candidate; and second, to ascertain his general literary culture. It is requisite for admission that the student should be thoroughly prepared in both respects. As an incitement to diligence, a prize of twenty dollars is offered to the person who shall pass the best entrance examination in 1870.

In Mathematics, an acquaintance is required with *Arithmetic*—including the Metric System of Weights and Measures; *Algebra*—as far as the General Theory of Equations; *Geometry*—Davies's Legendre; and *Plane Trigonometry* (including *Analytical*),—Davies, or Loomis.

The English studies on which students are examined are, the *Elements of Grammar*, *United States History*, and *Geography*.

In Latin, an acquaintance with six books of Virgil, or with an equivalent amount in some other author, and a familiarity with the grammar (or so much of it as is given in Allen's "Manual Latin Grammar") will henceforward be required.

The regular examinations for admission take place at Sheffield Hall, on the Tuesday preceding Commencement (Tuesday, July 19, 1870), at 8 A. M., and eight weeks later, on that Wednesday in September (Wednesday, Sept. 14) on which the fall term begins. Opportunity for private examination may, in exceptional cases, be given at other times.

Candidates for advanced standing in the three regular classes are examined, in addition to the preparatory studies, in those already pursued by the class they propose to enter. No one can be admitted as a candidate for a degree after the commencement of the Senior year.

The arrangement of the studies is indicated in the annexed scheme.

FRESHMAN YEAR.

Introductory to all the Courses.

FIRST TERM.

Mathematics—Analytical Geometry. Spherical Trigonometry. *Physics*—Silliman. *Chemistry*—Elliot and Storer's Manual. Laboratory practice. *German*—Otto's Grammar, and Reader. *English Language*—Exercises in Composition.

SECOND TERM.

Mathematics—Church's Descriptive Geometry. Geometrical Drawing. *Physics*—continued. Academical Lectures. *Chemistry*—Elliot and Storer's Manual. Laboratory practice. *German*—continued. Select authors. *English Language*—Rhetoric. Exercises in Composition, and Elocution.

THIRD TERM.

Mathematics—Surveying. *Physics*—continued. *Botany*—Gray's First Lessons. *German*—Selections from classical authors. *Drawing*—Free Hand. Plotting.

I. COURSE IN CHEMISTRY AND MINERALOGY.

JUNIOR YEAR.

FIRST TERM.

General Chemistry—Academical Lectures. *Chemical Analysis*—Fresenius. Recitations and Lectures. Use of Blowpipe. *Laboratory Practice*—Qualitative Analysis. *German*—continued. *French*—begun.

SECOND TERM.

Chemical Philosophy—Wurtz: Recitations and Lectures. *Laboratory Practice*—Qualitative Analysis, continued. Examination for poisons. Quantitative Analysis, begun. *Zoology*—Lectures. *French and German*—continued.

THIRD TERM.

Mineralogy—Dana. Lectures and Practical exercises. *Organic Chemistry*—Lectures. *Zoology*—Lectures and Excursions. *Laboratory Practice*—Quantitative Analysis, continued. *French*—continued.

SENIOR YEAR.

FIRST TERM.

Metallurgy—Percy. Lectures. *Agricultural Chemistry*—Recitations and Lectures. *Geology*—Dana. Lectures and recitations. *Zoology*—Lectures. *Laboratory Practice*—Volumetric and Organic Analysis. *French*—Selections. *Determinative Mineralogy*.

SECOND TERM.

Metallurgy—Lectures. *Agricultural Chemistry*—Lectures. *Geology*—Dana. *Anatomy and Physiology*—Academical Lectures. *Laboratory Practice*—Mineral Analysis and Assaying. *French*—Selections. *Mechanics*—Lectures on the Steam Engine. *Determinative Mineralogy*.

THIRD TERM.

Mechanics—Lectures on the Steam Engine and other Prime Movers. *Civil Engineering*—Lectures on Building Materials. *Laboratory Practice*.

II, III. COURSES IN CIVIL ENGINEERING AND MECHANICS.

JUNIOR YEAR.

A. Civil Engineering.

FIRST TERM.

French—begun. *German*—continued. *Mathematics*—Church's Descriptive Geometry, with applications. Analytical Geometry of Three Dimensions. *Surveying*—Higher Surveying. *Drawing*—Chart. Perspective.

SECOND TERM.

French and German—continued. *Mathematics*—Davies's Shades, Shadows, and Linear Perspective. Church's Differential Calculus. *Astronomy*—Norton's Astronomy, with practical problems.

THIRD TERM.

French—continued. *Mathematics*—Isometrical Projection. Differential and Integral Calculus. Topographical Surveying. *Drawing*—Topographical.

B. Mechanics.

The same as the course in Civil Engineering, with the omission of Higher Surveying, Topographical Surveying, Topographical Drawing, and Astronomy, and the substitution of Mechanics (Peck's Elements), Mechanical Drawing, Metallurgy, and Principles of Mechanism.

SENIOR YEAR.**A. Civil Engineering.**

FIRST TERM.

French—continued. *Field Engineering and Surveying*—Henck's Field Book for Rail Road Engineers. Location of Roads. Geodetic Surveying. *Mechanics*—Peck's Elements. Thermodynamics. *Military Science*—Lectures. *Geology*—Dana. *Drawing*—Architectural, and Mechanical.

SECOND TERM.

French—continued. *Mechanics*—Peck's Elements, continued. Application of Calculus to Mechanics. Principles of Mechanism. Theory of Steam Engine. *Civil Engineering*—Strength of Materials. Bridge Construction. Stability of Arches. Stone Cutting, with graphical problems. *Geology*—Dana, continued. *Drawing*—Mechanical.

THIRD TERM.

Mechanics—Mechanics applied to Engineering. Prime Movers. *Civil Engineering*—Building Materials (Lectures). Designs of Structures. Mahan's Civil Engineering. *Drawing*—Structural.

B. Mechanics.

FIRST TERM.

Mechanics—Analytical Mechanics. Machinery. Thermodynamics. *Drawing*—Architectural, and Mechanical. *Military Science*—Lectures.

SECOND TERM.

Mechanics—Analytical Mechanics, continued.—Strength of Materials. Theory and Construction of Steam Engine. Examinations and Reports of Machines. Mechanical Practice. *Drawing*—Mechanical.

THIRD TERM.

Mechanics—Prime Movers. Mill work. Designs of Machines. *Drawing*—Mechanical.

A higher course in Engineering, leading to the degree of Civil Engineer, is arranged to follow the instructions of the first three years.

IV. COURSE IN MINING AND METALLURGY.**JUNIOR YEAR.**

French—begun. *German*—continued. *Mechanics*—Peck's Elements. Principles of Mechanism. Theory of Steam Engine. *Mathematics*—Hydraulics. *Civil Engineering*—Strength of Materials. Mining and Topographical Surveying. *Zoology*—Lectures. *Geology*—Dana. *Drawing*—Mechanical and Topographical.

SENIOR YEAR.

French—continued. *Mining*—Lectures. *General and Special Metallurgy*—Lectures. *General Chemistry*—Miller. *Chemical Analysis*—Fresenius. Recitations and Lectures. *Laboratory Practice*—Qualitative and Quantitative Analysis. Use of the Blowpipe. Assaying. *Mineralogy*—Lectures and Practical Exercises. *Zoology*—Lectures. *Mechanics*—Application to Engineering. *Military Science*—Lectures. *Drawing*.

V. COURSE IN AGRICULTURE.**JUNIOR YEAR.**

FIRST TERM.

Agricultural Chemistry and Physiology—Recitations and Lectures. *Experimental and Analytical Chemistry*—in their Agricultural applications. Laboratory Practice. *French*—begun. *German*—continued.

SECOND TERM.

Agricultural Chemistry—continued. Lectures. *Experimental Chemistry*—Laboratory practice. *French and German*—continued. *Physical Geography*—Lectures. *Zoology*—Lectures.

THIRD TERM.

Horticulture and Kitchen Gardening—Lectures. *Mineralogy*—Lectures and practical exercises. *Zoology*—Lectures. *Experimental Chemistry*—Laboratory practice. *French*—continued. *Drawing*—Free Hand practice. *Excursions*—Botanical, Zoological, etc.

SENIOR YEAR.

FIRST TERM.

Agriculture—Cultivation of the staple crops of the Northern States. Lectures. *Agricultural Zoology*—Origin and Natural History of Domestic Animals. Insects useful and injurious to Vegetation. Lectures. *Geology*—Dana's Manual. *French*—continued. *Excursions*—Agricultural, Zoological, Geological, etc.

SECOND TERM.

Agriculture—Stock raising and principles of Breeding. Lectures. *Forestry*—Preservation, culture, and use of Forests and Forest Trees. Lectures. *Human Anatomy and Physiology*—Lectures. *French*—continued.

THIRD TERM.

Rural Economy—History of Agriculture and sketches of Husbandry in Foreign Countries. Adaptation of farming to soil, climate, market, and other conditions. Systems of Husbandry. Stock, sheep, grain, and mixed farming. Lectures. *Excursions*—Agricultural, Geological, Zoological, and Botanical.

VI. COURSE IN NATURAL HISTORY AND GEOLOGY.

JUNIOR YEAR.

FIRST TERM.

Zoology—Daily laboratory instruction; Zoological Excursions. *Botany*—Gray's Text Book; Use of the Microscope. *Chemistry*—Academical Lectures. *French*—begun. *German*—continued.

SECOND TERM.

Zoology and Palaeontology—Laboratory Practice. Lectures. *Botany*—Lectures; Gray's Text Book. *Physical Geography*—Lectures and Recitations. *Chemistry*—Laboratory Practice. *French and German*—continued.

THIRD TERM.

Zoology and Palaeontology—Laboratory Practice. Lectures, Excursions (land and marine). *Botany*—Excursions. Practical exercises. Gray's Manual. *Mineralogy*—Dana. Lectures. Practical Exercises. *French*—continued. *Drawing*—Free Hand Practice.

SENIOR YEAR.

FIRST TERM.

Whitney's Language and the Study of Language. *Zoology and Palaeontology*—Laboratory Practice. Lectures. Excursions. *Botany*—Excursions, Herbarium studies. *Geology*—Dana's Manual. Excursions. *French*—Selections.

SECOND TERM.

Zoology and Palaeontology—continued. *Botany*—Herbarium studies, Botanical Literature, Essays in Descriptive Botany. *Geology*—Dana. Lectures. *Anatomy and Physiology*—Academical Lectures. *French*—Selections. *Whitney on Language*—continued.

THIRD TERM.

Zoology, Botany, and Palaeontology—continued, with Excursions. *Photography*—Practical instruction.

Besides the regular courses of lectures on structural and systematic Zoology and Botany, and on special subjects, students are taught to prepare, arrange, and identify collections, to make dissections, to pursue original investigations, and to describe Genera and Species in the language of science. For these purposes large collections in Zoology and Palaeontology belonging to the College are available, as are also the private botanical collections of Professor Eaton.

In this section, either Zoology, Botany, or Geology may be made the principal study, the other two in that case receiving less attention.

VII. SELECT COURSE IN SCIENTIFIC AND LITERARY STUDIES.

JUNIOR YEAR.

FIRST TERM.

Mechanics—Peck's Elements. *History*—Modern History of Europe, Recitations and Lectures. *German*—Selections. *French*—Fasquelle's Course, and Reader.

SECOND TERM.

Astronomy—Norton's Astronomy, with practical problems. *Agricultural Chemistry*—Lectures. *Physical Geography*—Lectures and Recitations. *Zoology*—Lectures. *Botany*—Lectures; Gray's Text Book. *History*—continued. *German*—Selections. *French*—Selections from Classic Authors.

THIRD TERM.

Botany—Gray's Text Book. Excursions and practical instruction. Gray's Manual. *Zoology*—Excursions and Lectures. *Mineralogy*—Dana. *Literature*—Study of classical English authors. *Drawing*—Free Hand, and Architectural. *French*—Selections.

SENIOR YEAR.

LANGUAGE.—Whitney's Language and the Study of Language. *French*—continued. Compositions.

NATURAL SCIENCE.—*Botany and Zoology*, continued. *Agriculture*—Lectures. *Agricultural Chemistry and Physiology*—Lectures. *Geology*—Recitations and Lectures. *Human Anatomy and Physiology*—Lectures. *Astronomy*—Lectures.

PHILOSOPHY AND HISTORY.—Lectures and Recitations in *Military Science, History, Political Philosophy, International Law, Political Economy, Ethics, and Metaphysics*.

LECTURES.—Lectures are annually given in the different sections on the following topics. Persons not members of the School, may be admitted by permission of the lecturer.

- On the Strength of Materials, by Prof. NORTON.
- On Military Science and Tactics, by Gen. ROBERTS.
- On the Principles of Mechanism, and on the Steam Engine, by Prof. LYMAN.
- On Metallurgy, and on Mineralogy, by Prof. BRUSH.
- On Physical and Political Geography, by Prof. GILMAN.
- On Agricultural Chemistry and Physiology, by Prof. JOHNSON.
- On Practical Agriculture, and on Rural Economy and Farm Management, by Prof. BREWER.
- On Botany, by Prof. EATON.
- On Structural and Systematic Zoology, and on Entomology, by Prof. VERRILL.

A course of evening lectures to mechanics is also given.

PRIZES.—In consequence of several generous gifts, Prizes to the amount of one hundred and eighty dollars will be distributed during the current year to meritorious students in the different classes.

TERMS AND VACATIONS.—The terms and vacations correspond with those of the Academical Department. (See Calendar.)

EXPENSES.—The charge for tuition is \$125 per year, payable \$45 at the beginning of the first and of the second term, and \$35 at the beginning of the third term. The special student of Chemistry is at the additional charge of seventy-five dollars per annum for chemicals, and use of

apparatus. He will also supply himself at his own expense with gas, flasks, crucibles, etc., the cost of which should not exceed five or ten dollars per term. An additional charge of five dollars is annually made to each student for the use of the College Reading Room and Gymnasium.

Any person admitted to an advanced standing, unless coming from another College, pays the sum of ten dollars as tuition money for each term which has been completed by the class which he enters.

The fee for graduation as Bachelor of Philosophy, including the charges for Triennial Catalogues, College Dinners, etc., is ten dollars; unless the person taking the degree is also an academical graduate, when it is but five dollars.

STATE SCHOLARSHIPS.—The scholarships established in this school in consequence of the bestowal upon it of the Congressional grant are designed to aid young men who need pecuniary assistance in fitting themselves for agricultural and mechanical pursuits in life. All applicants must be citizens of Connecticut. If there are more applicants than vacancies, a candidate will be preferred who has lost a parent in the military or naval service of the United States, and the appointments will be distributed as far as practicable among the several counties in proportion to their population. The Appointing Board meet on Monday, July 18, 1870. All applications should be made previous to that time. Blank forms of application will be sent, when requested, by Professor D. C. GILMAN, Yale College, Secretary of the Appointing Board.

ADVANCED AND SPECIAL COURSES OF STUDY.

Special advantages are here afforded for graduates of this and other Colleges, and for other gentlemen properly qualified, to pursue their studies in special departments of science, with or without reference to the degree of Doctor of Philosophy. Especially in Chemistry, Mineralogy, Natural History, and Practical Astronomy, the facilities here offered are varied and good. More particular information will be given by any of the Professors, on application personally or by letter.

SECOND SECTION.

PHILOSOPHY, PHILOLOGY, MATHEMATICS.

Applicants for admission to this Section of the Department of Philosophy and the Arts, as candidates for the degree of BACHELOR OF PHILOSOPHY, must sustain an examination in studies preparatory to the course they design to pursue, which shall be equivalent to that required for admission to the First Section.

Bachelors of Arts, Science, and Philosophy, are admitted to this Section as candidates for the degree of DOCTOR OF PHILOSOPHY without examination. Other persons are admitted as candidates for the same degree, on passing the examination required for the Bachelor's degree, and on payment of an examination fee of twenty-five dollars.

The studies are optional, and may be selected by the student from the branches named below, or may include branches of science taught in the First Section. The course for a degree extends through two years. The requirements for degrees are stated below.

The yearly fee for instruction will not exceed one hundred dollars.

I. PHILOSOPHY AND HISTORY.

Political Philosophy, and International Law, . . .	Pres't WOOLSEY.
Psychology, Logic, and History of Philosophy, . . .	Prof. PORTER.
History and Criticism of English Literature, . . .	Prof. NORTHROP.
History,	Prof. WHEELER.

II. PHILOLOGY.

Latin and Greek Languages and Literatures,	} Prof. THACHER, HADLEY, and PACKARD.
General Philology, Ethnology and Oriental Languages,	
Modern European Languages,	Prof. WHITNEY and COE.

III. MATHEMATICS AND PHYSICS.

Pure and mixed Mathematics,	Prof. NEWTON.
Astronomy,	Prof. LOOMIS.

Degrees in the Department of Philosophy and the Arts.

BACHELOR OF PHILOSOPHY.—The degree of Bachelor of Philosophy is conferred on those who have completed one of the courses in the Sheffield Scientific School, and have passed the examination at its close. The same degree is conferred on other members of the department who have spent at least three years in faithful study of selected branches under the direction of the several instructors, and have sustained the final examination. The selection may be made from the studies of either or both Sections, but must belong to at least two distinct departments of learning.

CIVIL ENGINEER.—The degree of Civil Engineer is conferred on students of a higher course in Engineering (occupying one year), who have sustained the final examination, and given evidence of their ability to design important constructions and make the requisite drawings and calculations.

The fee for these degrees is five dollars, (see preceding page).

DOCTOR OF PHILOSOPHY.—For the purpose of encouraging those, who have been admitted to a Bachelor's degree, to continue a course of higher studies under the direction of the Faculty, the Corporation will confer the degree of Doctor of Philosophy, upon the following conditions.

Persons desiring to be admitted to this degree must remain in New Haven at least two academic years after receiving their first degree, during which they must faithfully engage in a course of study selected, with the approval of the Faculty, from branches pursued in this department. The selection may be made from the studies of either or both Sections, but must belong to at least two distinct departments of learning. At the close of the course the candidate must pass a satisfactory examination, and present a thesis giving evidence of high attainment in the studies to which he has attended. All persons, who have not previously received a degree furnishing evidence of acquaintance with Latin and Greek, are required, before presenting themselves for the examination for the Doctor's degree, to pass a satisfactory examination in these languages, or in such other studies (not included in the advanced course) as shall be accepted as an equivalent by the Faculty.

The fee for this degree is ten dollars.

School of the Fine Arts.

THE MANAGING COUNCIL of this department consists of the President of the College *ex officio*, Professor S. FINLEY B. MORSE, extraordinary perpetual member, Professor NOAH PORTER, Mr. DONALD G. MITCHELL, Mr. DANIEL HUNTINGTON, President of the National Academy of Design, and Mr. EDWARD E. SALISBURY, who is the Secretary.

THE FACULTY consists of the President of the College, the Professor of Painting and Dean of the Faculty, J. F. WEIR, N. A., and the Professor of the History and Criticism of Art, D. CADY EATON, M. A.

Instruction is also given by _____ in Painting, and Mr. LOUIS BAIL, in Drawing.

The Course of Instruction is divided into two Terms of four Months each.

The Fall Term begins October 15th, and ends February 28th, having an intermission of two weeks during the Christmas holidays.

The Spring Term begins March 1st, and ends June 30th; at the close of which there will be an Annual Exhibition of Works of Art, in the Galleries of the Art Building; to remain open from the 20th of June until the 20th of September.

The charge for instruction in Drawing is \$40 per Term, payable in advance. Pupils may enter at any time, with proportionate reduction.

For instruction in Painting the charge is \$60 per Term.

Students enter the Drawing School, and on submitting a Drawing that evidences sufficient progress, are advanced to the School of Painting.

There is a lower and a higher Class in Drawing, and a lower and a higher Class in Painting. Students can only be advanced according to the merit of their work.

Lectures are delivered at regular intervals, before the Classes in Painting.

THE COLLECTIONS open to the public—at present from 10 A. M. to 1 P. M. and from 3 to 5 P. M. from April 1st to November 1st, and from 10 A. M. to 1 P. M. during the remaining five months,—chiefly consist of the Trumbull paintings, and others acquired by gift or loan; the special Jarves collection, illustrative of the history of Italian painting, of which an elaborate manual is procurable by visitors, on application to the janitor; and a series of casts which illustrate, partially, the history of the plastic art among the Greeks.

Library and Cabinet.

THE COLLEGE LIBRARY numbers about fifty-one thousand volumes, besides several thousand unbound pamphlets. It is designed for the use of the College officers, resident graduates, Theological, Law, and Medical students, and the Senior and Junior classes of the Academical and Philosophical Departments. Other persons may have the privilege of consulting the Library and drawing books from it, by obtaining the permission of the Library Committee. The Library is open daily in term-time from 10 A. M. to 1 P. M., and from 3 to 5 P. M.; or, during the winter months, from 9½ A. M. to 1 P. M., and from 2½ to 4 P. M.

The Libraries of the Linonian and Brothers Societies number collectively about 27,000 volumes. Both these Libraries are open daily, for the delivery of books, from 1½ to 2 P. M., and from 2 to 3 P. M. for consultation.

The Law, Medical, and Scientific Schools have each a special Library, accessible to the students of those schools.

The Library of the American Oriental Society, numbering about 2,500 printed books and manuscripts, is now kept in the College Library building.

SUMMARY.

College Library (exclusive of pamphlets), about	- - -	51,000 vols.
Linonian Library, - - - - -	- - -	13,500 "
Library of the Brothers in Unity, - - - - -	- - -	13,500 "
Libraries of the Professional Schools, - - - - -	- - -	5,000 "
Total, - - - - -	- - -	83,000 "

THE COLLEGE CABINET embraces an extensive and valuable collection of minerals, systematically arranged; a collection of fossils arranged according to their geological succession, besides large collections not arranged for exhibition; and a valuable Zoological collection, of which only a small part can at present be exhibited, for lack of room.

The exhibition hall is free to students and the public. The key is kept at the Treasurer's Office, 5 Treasury Building.

APPOINTMENTS FOR COMMENCEMENT—CLASS OF 1869.

ORATIONS.

ARTHUR SHIRLEY, Valedictory Oration, *New York City*.
 GARDINER LATHROP, Salutatory Oration, *Columbia, Mo.*
 EDWARD PAYSON WILDER, Philosophical Oration, *Kolapoor, India*.
 BERNADOTTE PERBIN, Philosophical Oration, *New Britain*.

Henry Augustin Beers, <i>Hartford</i> .	Henry Lear, <i>Doylestown, Pa.</i>
Henry Clay Bannard, <i>New Haven</i> .	Theodore Frelinghuysen Welch, <i>Gowanda, N. Y.</i>
{ Edward Heaton, <i>Cincinnati, O.</i>	
{ Thomas Hooker, <i>New Haven</i> .	
{ John Beach Isham, <i>New Haven</i> .	

{ Francke Sherman Williams, <i>West Haven</i> .	John Ten Broeck Hillhouse, <i>N. Y. City</i> .
{ Rufus Byam Richardson, <i>Groton, Mass.</i>	William Hunter Workman, <i>Worcester, Mass.</i>
John Eliason, <i>Chestertown, Md.</i>	Frederick Smith Hayden, <i>Milwaukee, Wisc.</i>
Frank Russell Childs, <i>East Hartford</i> .	Charles Theodor Weitzel, <i>New Haven</i> .
Edward Gustin Coy, <i>Sandusky, O.</i>	James Joy, <i>Detroit, Mich.</i>
Charles William Bardeen, <i>Fitchburg, Mass.</i>	
Charles Edward Gross, <i>Hartford</i> .	

DISSERTATIONS.

Henry Taylor Terry, <i>Hartford</i> .	Henry Clay Missimer, <i>Pottstown, Pa.</i>
Alfred Bartow, <i>LeRoy, N. Y.</i>	Ely Israel Hutchinson, <i>San Francisco, Cal.</i>
{ John Olendorf, <i>Jersey City, N. J.</i>	Edwin Hedges, <i>Bridgehampton, N. Y.</i>
{ John Cowles Grant, <i>Lockport, Ill.</i>	Moses Stuart Phelps, <i>Andover, Mass.</i>

DISPUTES.

{ Alfred Ely Austin, <i>South Norwalk</i> .	Charles Douglas McNaughton, <i>Jackson, Mich.</i>
{ Charles Aurelius Hull, <i>Brooklyn, N. Y.</i>	Aaron Smith Thomas, <i>Wickford, R. I.</i>
{ Frank Austin Scott, <i>Ann Arbor, Mich.</i>	Sylvester Foristall Bucklin, <i>Marlborough, Mass.</i>
{ Winfield Scott Braddock, <i>Philadelphia, Pa.</i>	Mitchell Davison Rhame, <i>Atlantic, N. Y.</i>

EXHIBITION—WEDNESDAY, APRIL 7, 1869.

SCHOLARS OF THE HOUSE.

Class of 1867.	GEORGE H. PERKINS,	Berkeley Scholarship.
Class of 1869.	RUFUS B. RICHARDSON,	Berkeley Scholarship.
Class of 1868.	ROBERT A. HUME,	Clark Scholarship.
Class of 1869.	THOMAS HOOKEE,	Clark Scholarship.
Class of 1871.	WILBERT W. PERRY,	Bristed Scholarship.
Class of 1870.	EDWIN R. STEARNS,	Scholarship founded Aug., 1846.
Class of 1871.	WILBERT W. PERRY,	Scholarship founded Aug., 1847.
Class of 1872.	BENJAMIN HOPPIN,	Scholarship founded Aug., 1849.
Class of 1872.	JOHN H. HINCKS,	Hurlbut Scholarship.
Class of 1872.	DAVID J. H. WILLCOX,	Third Freshman Scholarship.
Class of 1871.	HERBERT E. KINNEY,	Modern Languages Scholarship.

PREMIUMS AWARDED DURING THE PAST YEAR.

CLARK SCHOLARSHIP.
 Class of 1869.—Thomas Hooker.

BERKELEY SCHOLARSHIP.
 Class of 1869.—Rufus B. Richardson.

FRESHMAN SCHOLARSHIP FOUNDED IN AUG., 1849.
 Class of 1872.—Benjamin Hoppin.

MODERN LANGUAGES SCHOLARSHIP.
 Class of 1871.—Herbert E. Kinney.

HURLBUT SCHOLARSHIP.
 [For second rank at the Freshman Scholarship Examination.]
 Class of 1872.—John H. Hincks.

THIRD FRESHMAN SCHOLARSHIP.
 Class of 1872.—David J. H. Willcox.

DE FOREST GOLD MEDAL.
 Class of 1869.—Edward P. Wilder.

TOWNSEND PREMIUMS FOR ENGLISH COMPOSITION.
 Class of 1869.—Henry C. Bannard, Henry V. Freeman, Edward Heaton, Moses Stuart Phelps, George S. Sedgwick.

SENIOR MATHEMATICAL PRIZES.
 Class of 1869.—1st Prize, Charles D. McNaughton.
 2d Prize, Frederick G. Conkling.

BERKELEY PREMIUM.
 For excellence in Latin Composition.
 Class of 1872.—Clement B. White.

CLARK PREMIUMS.
 For solution of problems in Practical Astronomy.
 Class of 1868.—1st Prize, Charles D. McNaughton.
 2d Prize, Charles W. Bardeen.
 3d Prize, Charles H. Bullis.

CLASSICAL PRIZES.

Class of 1870.—1st, Morris F. Tyler—2d, Dwight W. Learned.

FOR EXCELLENCE IN MATHEMATICS.

Class of 1872.—Erastus E. Case.

FOR ENGLISH COMPOSITION.

Class of 1869.—Senior Year.—First and Second Terms.

1st Prizes.	Henry C. Bannard,	2d Prizes.	Charles W. Bardeen,
	Henry A. Beers,		Edward G. Coy,
	Henry V. Freeman,		Henry Lear,
	Edward Heaton,		Bernadotte Perrin,
	John T. B. Hillhouse,		Henry W. Raymond,
	George S. Sedgwick,		Rufus B. Richardson,
	Edward P. Wilder.		Arthur Shirley.

Class of 1871.—Sophomore Year.—Second Term.

1st Prize.	2d Prize.	3d Prize.
{ Herbert E. Kinney,	{ Charles H. Board, *	{ Henry Baldwin,
{ Howard Mansfield,	{ Cornelius E. Cuddeback,	{ Joseph A. Burr,
