REPORT
OF
The Hospital of St. Raphael
NEW HAVEN, CONNECTICUT
DECEMBER 31st, 1926
NINETEENTH YEAR
SCHOOL OF NURSING
REPORT
OF
THE HOSPITAL OF ST. RAPHAEL
NEW HAVEN, CONNECTICUT
DECEMBER 31, 1926
NINETEENTH YEAR
SCHOOL OF NURSING
The year 1926 was a very active period for Saint Raphael's. Calls for care in every department exceeded all previous records. An outline of the work accomplished will be found in the following pages, thus giving to interested friends and benefactors an idea of the service the hospital renders to the sick and the injured in the City of New Haven and its outlying districts.

The number of patients treated was four thousand six hundred and sixty-eight. More than half the total required surgical attention, so that our operating pavilion force was obliged not infrequently to work overtime. Since Saint Raphael's is conducted on a general hospital plan, it is prepared to minister to the needs of medical, surgical, gynecological and obstetrical patients; there is also a department for children with a specialist in pediatrics in daily attendance. Service in the maternity department has increased considerably, since expectant mothers have become better acquainted with the advantages that a well equipped hospital affords. Births for the past twelve months number four hundred and fifty-two.

Notwithstanding increased cost of maintenance, it has been our privilege and our pleasure to care gratuitously for a large number of needy applicants. Over five hundred totally destitute, and thirty-two hundred part-pay patients were our guests whose care entailed a deficit to the hospital of $98,846.82. This bestowal of charity is made possible by donations from friends, State Appropriations and an allotment from the local Community Chest. The special benefactions received were eight thousand dollars from the Frank P. Pfeighar Trust and a bequest of one thousand dollars from the late Henry C. Bretzfelder.

Various needed improvements and renewals within the hospital have been made. For the benefit of post-operative and fracture patients, especially constructed bedsteads have been provided. The adjustable frames with which these beds are fitted, afford much relief to the sick and are of great help to the nurses in making their
charges comfortable. Owing to corrosions in the hot and cold water conduits, the entire building has been equipped with Anaconda brass pipes, thus insuring a copious supply of water in all departments. Labor saving electrical machines have been set up in the culinary quarters and painting of wards, diet kitchens and wall-washing of the Santa Rita wing, have been in progress during the winter months. A large dining room has been furnished for the hospital helpers in the long unused sterilizing section; the vacated dining room, in rear of kitchen store rooms, being held in reserve for a refrigerating plant to be installed when funds are available. The chapel, unpainted since its erection, was much in need of attention. Friends were told of the need and they promptly and cheerfully donated a sum sufficient to meet the cost of painting and decorating it.

A visit to the operating department reveals many new and valuable features in its furnishings. A handsome scialytic chandelier light has been placed in the main operating room; this light is absolutely shadowless and is of incalculable benefit to our surgeons; a portable lamp of the same manufacture accompanies it. An observation stand of steel construction is conveniently placed for the accommodation of medical students and others who avail themselves of the privilege of attending the clinics. An improved type of electric cautery, several dozen of specially constructed clamps, an instrument table, an ether table, all of the finest materials and workmanship are the gift of Doctor William F. Verdi, our eminent Surgeon-in-Chief.

Our most urgent needs are a cafeteria for the nurses and modern laboratory equipment. A utility building to house boilers, laundry, ambulances and living quarters for employees. An outright gift or subscriptions for these requirements are earnestly solicited and we pray the Lord to speed the day when these shall be assured things.

The hospital has lost by death two of its noted practitioners. Doctor H. Merriman Steele was the first called. While Doctor Steele was a comparatively new addition to the Staff, he manifested from the time of his election an admirable spirit of cooperation and the Board of Trustees as well as his colleagues in the medical profession, keenly deplore his loss. The announcement on April twenty-sixth of the death of Doctor James H. Flynn cast a pall of regret
on all connected with Saint Raphael's. Doctor Flynn was a charter member of "THE CATHOLIC HOSPITAL ASSOCIATION OF NEW HAVEN," formed in 1906 for the purpose of establishing a hospital under Catholic auspices in the City of his birth. The Hospital of Saint Raphael is the outcome of the Association's endeavors, and from the dawn of its inception until the Angel of Death summoned him to his eternal reward, Doctor Flynn's interest in the institution's progress never faltered. Even when his health began to fail and brother physicians prescribed rest, he refused to relinquish his labor of love, for it is the generally accepted opinion that after home ties, Saint Raphael's came next in his affections. A man of unquestioned integrity, a loyal husband and devoted father, Doctor Flynn has left to his family the priceless heritage of an unblemished name and while Saint Raphael's endures, his memory shall be held in gratitude and in prayerful remembrance.

Sincere appreciation is cordially given the gentlemen of the Board of Trustees who, headed by our Right Reverend Bishop Nilan, befriended us with judicious advice and kindly personal interest in the hospital's advancement; our Reverend Chaplain, Father Dignam, spiritual physician to the hospital's large clientele, as well as to the School for Nursing and to the household; our efficient staff for unfailing response to calls for service, especially the care and kindness in behalf of the sick poor. Special gratitude is due Doctor L. M. Gompertz for long continued service in selecting and directing our corps of house officers. Doctor Gompertz's executive ability as Chairman of the Committee on Internes, is of untold benefit to the hospital as well as to the young doctors who pass the probationary year with us. Our Ladies' Auxiliary have given hearty cooperation in all that pertains to the welfare of the hospital and in planning and carrying out successfully benefits and pleasures for both hospital and nurses.

A heartfelt thanksgiving is gladly given to all who have assisted in making the closing year the most progressive in our history. We bespeak a continuance of the benefactions and the good will that has accompanied them, since Saint Raphael's opened its doors for the relief of suffering humanity.

SISTER IMMACULATA,
For The Sisters of Charity.
REPORT OF THE MEDICAL BOARD TO THE SUPERINTENDENT

The Medical Board has the honor of submitting the following report of its activities for the year 1926:

The tabulated list of diagnosis and operations that have heretofore been printed in previous reports will be discontinued. Those desiring such statistics can obtain them from the person in charge of the record room upon request.

The different services have shown progressive increase in numbers and it is only due to the lack of accommodation that more patients have not been treated. Numerous patients have been refused admittance because of the lack of bed facilities. The past year has been handicapped more than ever because of this. Many physicians to whom the management would be glad to give the courtesy of the hospital have been refused accommodations on this account. The wards, both private and general and the private rooms have been filled to capacity constantly throughout the year 1926. It has been necessary in many instances to have patients removed to their homes before convalescence was complete in order to make room for patients whose hospitalization was important.

The number of surgical cases admitted during the year 1926 was 3,055, 928 more cases than the previous year. There were 2,111 operations during the year of 1926 as compared with 2007 cases during the year 1925. The medical service has increased from 214 in 1925 to 248 cases in 1926. The number could have been easily trebled if there had been room.

The department of Otolaryngology and Ophthalmology has increased from 524 cases of tonsils and adenoids in 1925 to 661 in 1926. There were 37 major operations on the nose in 1926 and an increase of 15 over the previous year. There were 28 mastoid operations in 1926, 5 of which, were radical. Included in these were three cases of Thrombosis of the lateral sinus. Adequate operating rooms for these departments is urgently required. The present quarters are much too inadequate to properly handle the work.

The Medical Board wishes to bring to the attention of the management the urgent need of enlarging the hospital by the erection of more buildings to accommodate the ever-increasing demand of patients for admittance to the institution. In order that the hospital fulfill its purpose in this community it is hoped that the management will see the necessity in giving the public the space which it demands. The stressing of this fact cannot be adequately emphasized.

The grateful appreciation of Sister Immaculata's wonderful kindness and cooperation to make the hospital efficient and comfortable cannot be sufficiently praised. Her gentle watchful eye with her many inestimable qualities gives the hospital an omnipresent atmosphere of dignity and order.

Respectfully submitted,

THE MEDICAL BOARD,

John F. Luby, M.D., President,
Francis E. Foley, M.D., Secretary.

DONATIONS

Needlework Guild, six dozen new garments. ...................................
Mrs. Cha. T. Flynn, one dozen crib blankets.
Mrs. M. Maloney, statue of St. Theresa, pedestal.
Mrs. W. E. Malley, barrel of crab apples, peaches.
A Friend, two fruit cakes, two chocolate cakes.
A Friend, invalid's chair, sick room requisites.
Miss S. Hillard, three baskets fresh fruit, flowers.
Miss Davis, package of clothing, stationery, confections.
Miss Getting, prize pumpkin, fresh vegetables, favors.
Mrs. J. E. Hubinger, fresh fruit, conserves, table delicacies.
Mrs. A. Wagner, six infant's gowns, embroidered centerpiece.
Miss J. E. Reynolds, vintage light candleabra, fifty ruby lamps.
Mishkan Israel Harvest Festival, three baskets of fresh fruit.
Friends, one hundred choice prizes for benefits and card parties.
Dr. J. B. Sullivan, dressing room cabinet, examination table, instruments.
Mrs. J. K. Funderford, two dozen lobsters, fresh fruit, cut flowers, candy.
Dr. and Mrs. A. Capelletti, crate oyster, crate green peppers, Brussels' sprouts.
A Friend, home made bread, cake, pies, preserves, fresh fruit, confections.
Graduate Nurses, tray favors, confectioins, nuts, box hens, napkins for festivities.
Lauralton Hall, two dozen loaves home made bread, four dozen biscuits.
Mishkan Israel Sisterhood, making up four hundred towels, two hundred napkins.
The Misses Wooster, fresh flowers, potted plants, linens, confectionary.
Hospital Auxiliary, an afternoon each week cutting and making linen supplies.
Dr. W. F. Verdi, scalding chandelier light, portable lamp, observation stand, ether table, instrument table, electric cautery, local anesthesia syringes, two dozen specially constructed clamps.
ANNUAL REPORT OF

Easteride

Dr. and Mrs. F. H. Reilly, two dozen boxed ice cream, floral basket.
Dr. W. C. McGinine, eight quarts frozen pudding, oranges, grapefruit.
Dr. F. F. Foley, one dozen fresh eggs, one quart cream, fresh vegetables.
Mrs. W. M. Woosler, two dozen Bermuda lilacs.
The Misses Woosler, cut flowers, confec tions, potted lilacs, tulips.
In memory of Mrs. Hartshorne, two dozen callas, lilacs, ferns.
Joseph and Theresa Foley, two dozen white roses.
Dr. and Mrs. F. F. Foley, floral basket, ferns, cut flowers.
Eastern Dairy Company, two gallons Neapolitan ice cream.
Dr. and Mrs. E. M. Walsh, mixed pickles, olives, crate celery.
Dr. and Mrs. J. H. Flynn, cut flowers, potted plants.
Dr. and Mrs. C. T. Flynn, ferns, lilacs, roses.
Dr. and Mrs. J. J. Cohane, cut flowers, floral basket.
Mr. and Mrs. W. J. Walsh, lilacs, roses, ferns.
Mrs. G. X. McLanahan, cut flowers, potted plants, decorated eggs.
A donation of cut flowers and potted plants was donated by Mrs. E. C.
Brennan, Mrs. M. P. McGuire, Miss O'Brien, Miss Gaffney, Miss Boucher,
Miss Martin, Miss Smith, Miss Regan, Miss O'Hara, Miss Keim and other
friends whose names did not accompany their gifts.

Thanksgiving

Federal Packing, six prime turkeys.
Schobenberger Brothers, six prime turkeys.
A Friend, six spring chickens, celery, confec tions.
Dr. and Mrs. F. H. Reilly, four quarts frozen pudding, fruit.
Dr. W. C. McGinine, eight quarts ice cream, crate oranges.
A Friend, mince meat, celery, cranberries, nuts.
Newark Produce Co. string beans, spinach, candied liver.
A Friend, mince pies, pumpkin pies, cranberry jelly, dates.
M. L. G. crate lettuce, crate spinach, grapefruit, oranges, figs.

Christmaside

Mabler Brothers, turkey dinner for entire hospital.
A Friend, brace chickens, mince meat, crate celery.
The Hon. and Mrs. D. E. Fitzgerald, crate table apples.
Mr. and Mrs. W. E. Malley, two legs white grapes.
Dr. and Mrs. E. T. Falsey, fruit eshes.
E. M. Walsh, crate grapefruit, crate oranges.
Dr. W. L. Rankin, crate oranges, confec tions.
Dr. E. Lenox Thomson, a large fresh salmon.
Dr. and Mrs. F. H. Reilly, four quarts frozen pudding, fruit, confec tions.
Dr. W. C. McGinine, frozen pudding, crate grapefruit, crate oranges.
A Friend, candy, cranberries, celery, lettuce, oranges, Brussels sprouts.
A Friend, mince meat, cranberry jelly, canned fruit and vegetables.
Mrs. St. Lawrence, tree for children's ward, toys, dollies, decorations.
The S. H. Moore Co. six trees, wreaths, laurel roping.
Mrs. Wein, framed etching, potted plant.
M. Horchows, holly, mistletoe, evergreen roping.
Dr. and Mrs. A. Capitelato, holly, evergreen wreaths and roping.
The Misses Woosler, floral basket, fruit, confectionery, table favors.
Frank J. Smith, floral basket, cut flowers.
A Friend, mechanical toys, books, games.
Girl Scouts, picture and story books, cards.

THE HOSPITAL OF ST. RAPHAEL

Sunshine Society, books, games, dressed dolls.
Mrs. H. H. Biggar, a "remembrance" for clothing, gifts for needy patients.
Ladies Auxiliary, handkerchiefs, ties, cigars, underwear, candy, fruit, filled
stockings for children's ward, individual gifts for nurses and dinner-
for forty-two needy families.
Five pound boxes of chocolate confections were donated by Mrs. delRosso.
Mrs. McLanahan, The Misses Woosler, Miss Boucher, Miss Coffey, Miss
Gaffney, L. Spier, P. J. Kelly.
Several evergreen trees, holly wreaths and a large quantity of laurel
roping, as well as cut flowers and potted plants were donated by friends whose
names did not accompany their gifts.

SPECIAL TO THE SCHOOL FOR NURSING

Mr. and Mrs. Harry Walker, a five tube radio in handsome cabinet.
Colgate & Company, toilet preparations.
Johnson, Johnson, talcum powder, lotions, extracts.
Macmillan Co., advanced copies of new editions.
C. P. Putnam Co., Medical dictionary, Hints on Nursing.
A Friend, one year's subscription to "Hospital Progress."
A Friend, "Catholic News" and "Ave Maria" for one year.
Staff Doctors, corsage bouquets for graduating class.
Ladies Auxiliary, Christmas tree and gifts, prizes for Whist.
of ornamental plants for festive occasions.
Contributors to the Athletic Fund: Rev. A. B. Dignam, Rev. J. H. Carroll,
Rev. J. McAuliffe, Rev. W. O'Brien, Rev. W. P. Laffin, Mrs. Chapin,
Doctor Townsend, Doctor M. S. Shea, Mr. Collins, F. G. Grady.

GIFTS TO THE LIBRARY

A Friend, four historical novels.
A Friend, twelve copies "Ave Maria".
A former patient, one dozen illustrated magazines.
The Misses Woosler, twenty-five volumes recent fiction.
A visitor, fifty volumes miscellaneous works.
"Messenger of the Sacred Heart", ten volumes lectures and travels.
Our library now contains approximately seven hundred volumes of choice
literature and has a librarian in daily attendance, and is a source of much
pleasure and entertainment to the convalescent patients.
ANNUAL REPORT OF

RULES AND REGULATIONS

AMBULANCE

The ambulance is under the control of the Superintendent and application for its use should be made directly to the hospital. An ambulance surgeon accompanies all calls for the conveyance of patients to the hospital.

ADMISSION OF PATIENTS

Application for the admission of patients should be accompanied by a certificate from a reputable physician and should be addressed to the Sister-in-charge.

The charge per week for accommodation in the general wards is $17.50; private wards, $19.00; semi-private rooms, $21.00, which includes medical and surgical attendance together with medicine, nursing and laundry.

It is recommended that medical cases, unless urgent, be sent to the hospital not later than 5:00 P. M.

All cases of sudden injury are received day or night.

Private corridors are devoted to private room service where patients may enjoy the comforts of home and have the attendance of their own physician, if preferred.

Private room charges are from $30.00 to $60.00 per week. The fees of visiting physicians and surgeons are independent of hospital charges and must be arranged in advance.

The hospital does not furnish meals or lodgings for friends of patients.

The hospital does not launder personal clothing.

REGULATIONS FOR PATIENTS

Patients who are well enough will rise in time for breakfast, after which they will vacate the wards, as far as possible, so that they may be aired and put in order.

Patients must be in their respective wards and places during the rounds of physicians.

Patients must not sit on beds, talk loud or make any unnecessary noise in the wards or corridors. Silence should be observed during the visits of physicians.

Patients must not enter the laundry, kitchen or other private apartment unless by permission.

No patient is to leave the premises without permission of the nurse in charge of his ward.

THE HOSPITAL OF ST. RAPHAEL

Any patient who leaves the hospital before being discharged by the physician in attendance, must sign a paper to that effect and assume all responsibility for the act.

Patients must leave in the office, for safe keeping, any money or valuables they may have; in case of failure to do so, the hospital will not be responsible for any loss that may occur.

No smoking allowed in wards or corridors.

All lights must be lowered at 9:00 P. M.

All complaints should be made to the Superintendent.

RULES FOR VISITORS

The friends of the sick are allowed to visit them on Tuesdays, Wednesdays, Thursdays and Saturdays from 3:00 to 4:00 and from 7:00 to 8:00 P. M.

Sunday and legal holiday hours are from 2:00 to 4:00 and from 7:00 to 8:00 P. M.

Not more than two visitors will be admitted at once to see any patient. No children allowed.

No article of food or drink may be carried into the wards; all such must be left with the nurse in charge and if approved by the physician, will be given to the patient named.

Visitors must observe perfect order while in the hospital; must confine their visits to their immediate friends and leave the building promptly at the expiration of visiting hours.

Visiting hours to private corridors are from 10:00 A. M. to 9:00 P. M. Visitors will be admitted during these hours with proper discretion.

K. V. CAREY R. N., Laboratory Technician.
THE PATHOLOGICAL LABORATORY

The work of the Department of Pathology has shown an increase during the past year. There have been 904 specimens examined, while in 1925 there were 873 reports made, giving an increase of 31 examinations. The type of work has varied tremendously, with appendicitis as the predominating diagnosis.

In enumerating some of the more rare conditions there should be mentioned a case of multiple myeloma with involvement of the skull and pelvic bones, in a child of twelve years. The mammary gland tumors showed interesting variations and out of the twenty-seven cases of carcinoma there were instances of the different types of duct tumors and a few tumors of acinar origin. There was one very interesting case of Paget's disease which was associated with a relatively early duct carcinoma. Twenty-four cases of benign lesions of the gland were diagnosed.

Among the diseases of the alimentary canal were twelve instances of carcinoma of the large intestine, most of which were situated in the rectum. Another interesting tumor of the lower abdominal cavity was a large retroperitoneal lipoma which showed areas of carcinomatous change.

There were 145 gynecological specimens, with four cases belonging to the group which is most under discussion at the present time, namely, the cases of ectopic endometrial tissue. Two of the cases occurred in fibromyomatous tumors and two cases within the ovary.

To summarize, there were 904 specimens examined, eighty-eight of which proved to be malignant tumors, giving a percentage 9.6. Of the remaining 816, 412 were cases of appendicitis, 75 diseases of the gallbladder, and 130 the more common conditions of the ovary and uterus. The other 199 showed a wide variation and the most interesting have been mentioned.

- Daily average patients: 179
- Deaths: 277
Announcement

The Hospital is prepared to give a two and one half year's Course of training to young women desirous of becoming professional nurses. Affiliation with the Visiting Nurse Association and with a Hospital for Contagious Diseases, afford students, who so elect, practical work in these branches of the service.

Application to obtain this course should be made to the superintendent of the Hospital. Candidates between twenty and thirty years of age are preferred. Unblemished character, sound health, unimpaired faculties, good education and a readiness to conform to the rules of discipline, are required.

At the close of the preliminary term of three months, probationers, if deemed fit for the work, are admitted to membership in the school. An allowance for necessary expenses incidental to training is given, but this is in no way regarded as remuneration for services rendered, as the profession acquired is deemed an ample equivalent.

Pupils reside in the hospital and serve as assistants in the various departments and are expected to perform any duty assigned by the Superintendent.

A vacation of two weeks will be allowed each year. All students are cared for gratuitously when ill, and receive the professional services of the Physician of the School. Time lost through illness or for any other cause, must be made up.

When the full term of thirty months is completed, students who have passed the examinations and whose deportment has been satisfactory, will receive the badge and diploma of the School. The diploma and badge of any graduate of the School may be revoked for cause, by the Committee of The School for Nursing.

### The School of Nursing

Our School for Nursing continues to attract many competent young women whose ambition is to become professional nurses. Always there is a lengthy waiting list, and the Spring and Autumn opening classes plentifully supplied with approved entrants.

This year’s graduating class numbered seventeen, bringing the total of the School’s registered nurses near to the two hundred mark. Fifty-eight applicants for admission to the School were made; thirty-two were accepted on probation; thirty-seven were admitted to membership; there were ten dismissals and resignations. The School now has sixty-eight students on its roll, twenty-four of these forming the Class of 1927.

The elective courses on Public Health Nursing and Nursing in contagious Diseases are eagerly sought after by our students. The Public Health course is received here in town under the auspices of the local Board of Health; by special arrangement, the course in Contagious Disease Nursing is obtained in the Isolation Hospital in the City of Hartford.

Graduation exercises were held in the Hospital Chapel on the afternoon of June second. The Class Colors, blue and gold, predominated in the scenes which was transformed into a bowser for the occasion. Stately palms and a background of ferns served to accentuate the glow of gleaming tapers and brilliant blossoms. The programme of vocal and instrumental music, rendered by the nurses’ choir, was inspiring and devotional. Miss Caryer at the organ and Miss Sullivan with violin obligato, added greatly to the impressiveness of the numbers. Several of the Reverend Clergy from local parishes were present in the sanctuary. Our own Father Digigian awarded the diplomas and was Master of Ceremonies during the Benediction of the Blessed Sacrament with which the exercises were brought to a close.

The Rev. John J. Keane of New Britain, Conn., delivered a masterly address. Father Keane told of the days before the coming of Christ when fathers stranded their newborn babes to avoid supporting them; of the old and infirm being put to death by their sons and daughters; of deformed children left to perish and many other barbarous customs sanctioned by law. Then when Jesus came, a new light broke over the world. His word upon the Mount averted innumerable woes from the human race and altered the destinies of all mankind. Since this great change, the deformed child is cared for all the more tenderly because it has been afflicted, and the maimed and the sick and the aged are nursed with all the affection of brotherhood. Its good and gentle Jesus as He appeared here on earth; beneath it are the words, ‘Let me put before you a picture of the ‘He went about doing good.’ Let that Jesus be your inspiration; like Him do you go about doing good to all, but especially to His poor.’

Since the completion of THE SELINA MARIE LEWIS’ MEMORIAL HOME our students have gratefully enjoyed the comforts and conveniences of the palatial building. After strenuous hours on duty they are privileged to retire to the privacy of their rooms or to the rest parlors, sun parlors, or the large recreation hall. The sun parlor on the second floor has been fitted up as a radio room. A superb instrument of the most modern type has been installed, and here the nurses congregate to enjoy lectures, concerts and other forms of entertainment which the invention affords. The radio is a gift to the School from our good friends, Mr. and Mrs. Harry Walker.

Through the kind interest of our Reverend Chaplain, a basket ball team has been organized and the gymnasium on the ground floor of the Memorial is frequently the scene of practice and competition in this exhilarating game. Several contests have already been held with outside teams, and while our girls have not carried off all the honors, their Coach is confident that with practice, they will soon lay claim to no small share of the victors’ spoils. A number of interested friends have given contributions towards the athletic fund. Their names are listed in the donation section of this report.

Careful attention to the health of the nurses is given by Dr. Luby who is the School Physician, and Doctor Verdi who takes care of any surgical attention that becomes necessary. The vigilance of these skillful practitioners has been instrumental in warding off any serious effects following illnesses contracted by the students during the year. A clean bill of health for so large a group of young women in daily attendance on the sick is a blessing for which the authorities of the School are duly grateful.

Doctor Francis H. Reilly as Chairman of the Committee on Nursing, is indefatigable in his exertions for carrying out the lecture course which forms an important part in a nurses’ education. Interesting and helpful ways and means have been devised by him in bringing this branch of the schedule to a high standard and in securing the most approved methods of rendering the lectures interesting and highly efficient.

The Hospital Alumnae record with keen regret the deaths of their associate, Mary Agnes Mackey of the Class of 1922. Miss Mackey who failed to rally after an operation for acute appendicitis, was our first student from Nova Scotia. All who were privileged to know her, esteemed her as a woman of sterling qualities of mind and heart. She was a model student and capable, dependable nurse and her passing is deeply deplored, not only by her associate, but by a wide circle of friends whom she attracted by her admirable disposition.

Since her admission is hereby extended to our Reverend Chaplain, the Hospital Staff, the Ladies auxiliary and to all who by kindly word and helpful deed have claims on our gratitude.

JOSEPHINE M. COFFEY,
Supervisor of Nursing.

ANNUAL REPORT OF

HOW TO HELP THE HOSPITAL

FREE BEDS

Terms of Endowment of Beds

A gift of ten thousand dollars endows a free room in perpetuity for such a number of weeks each year, as the income of the endowment will provide for.

A gift of five thousand dollars shall entitle the donor during lifetime, to nominate a patient to a free bed for such a number of weeks each year, as the income of the endowment provides for.

A gift of one thousand dollars shall entitle the donor to nominate a patient to a free bed for five years, for such a number of weeks each year, as the income from the endowment provides for.

A gift of two hundred and fifty dollars, shall entitle the donor to nominate a patient to a free bed for one year, for such a number of weeks as the income of the endowment provides for.

DONATIONS

Donations of money, fruit, vegetables, provisions, linen supplies, clothing, flowers, reading matter, etc., are always acceptable.

The hospital's most urgent needs are: equipment for nurses' cafeteria, pathological laboratory, refrigerating plant and a utility building to house boilers, laundry, ambulances and afford accommodations for employees. Subscriptions, or outright gifts for these purposes, are earnestly solicited.

FORM OF BEQUEST

I give and bequeath to The Hospital of Saint Raphael in the City of New Haven, incorporated by the Legislature of the State of Connecticut in the year 1907, the sum of.................................................................to be applied to use of said hospital under the direction of the Managers thereof.

FORM OF DEVISE

I give and devise to The Hospital of Saint Raphael in the City of New Haven, all that, etc., (describe the property) to be had and holden by the said Hospital of Saint Raphael in the City of New Haven in the State of Connecticut, and their successors and assigns, for the use and benefit of said hospital.
