Xenophon—Anabasis, first three books.

Greek Grammar—Hadley, Sophocles, Crosby, or Kühner.

Thomson's Higher Arithmetic.

Day's Algebra (Revised Edition), to Quadratic Equations.

Playfair's Euclid, first two books.

English Grammar.

Geography.

TIME AND CONDITIONS OF EXAMINATION.

THE regular examination for admission to College takes place on Monday and Tuesday preceding Commencement, beginning at 9 o'clock A. M. on Monday and at 8 o'clock A. M. on Tuesday. The candidates assemble at Graduates' Hall. Another examination will be held at the same place, on Tuesday and Wednesday, September 10th and 11th, 1861, beginning at 9 o'clock A. M. on Tuesday, and at 8 o'clock A. M. on Wednesday. Persons may also be examined for an advanced standing in any part of the collegiate terms, but not in vacations, except in urgent cases. No one can be admitted to the Senior Class, after the commencement of the second term.

ADVANCED STANDING.—All candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter.

AGE.—No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

TESTIMONIALS.—Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismissal in good standing.

BOND.—Every person, on being admitted, must give to the Treasurer a bond, executed by his parent or guardian, for two hundred dollars, to pay all charges which may arise under the laws of the College.

MATRICULATION.—The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation on satisfactory evidence of an unblemished moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

COURSE OF INSTRUCTION.

THE whole course of instruction occupies four years. In each year there are three terms or sessions.

The members of the several classes meet for recitation and instruction by divisions:—the Senior class consisting of two divisions, the Junior, Sophomore and Freshman classes of two, three or four each, according to their numbers.

Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two.

The following scheme gives a general view of the studies pursued in each term:—

FRESHMAN CLASS.

FIRST TERM.

JUNIOR CLASS.

Optics—Professor LOOMIS, at Philosophical Chamber, Cabinet Hall.

EXERCISES IN DECLAMATION AND COMPOSITION.

The Senior and Junior Classes have exercises in forensic disputation twice a week.

The Senior Class have exercises in English composition twice a week.

The Sophomore Class, during the whole year, and the Freshman Class, during the third term, have exercises in English composition once a week.

The Sophomore Class have regular exercises in Elocution, during the whole year, and once a week have an exercise in Declamation in the Chapel, before the Professor of Rhetoric and the members of the Class.

ELECTIVE STUDIES.

Those students, who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose Analytical Geometry in place of the regular Mathematics, in the third term of Sophomore Year, and the Differential and Integral Calculus, during the first two terms of Junior Year, in place of the Greek or the Latin studies of those terms.

During the third term of Junior Year, in addition to the required studies of the term, the members of the class receive at their option instruction in the French or German Languages, in select Greek or Latin, or in Mineralogy.

Students who are desirous of pursuing Hebrew, may obtain gratuitous instruction in that language from the Professor of Sacred Literature.

VOCAL MUSIC.

Instruction in vocal music is given twice a week during the year. The exercises in this department are open to all the classes.

The entire course extends through two years, and has especial reference to sacred music.

GYMNASIUM.

The Gymnasium is designed to provide all the students with opportunities for exercise. For the privileges of the same, including instruction, the sum of four dollars a year will be charged to each academical student.

EXAMINATIONS.

Public examinations of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years.

The biennial examinations are conducted wholly in writing, and are continued each for a period of between two and three weeks.

TERMS AND VACATIONS.

THE PUBLIC COMMENCEMENT is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or as the case may be, four weeks, are assigned for vacations.

LEAVE OF ABSENCE.—No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

PUBLIC WORSHIP.

Prayers are attended in the College Chapel every morning, with the reading of the Scriptures and singing, and all the students are required to be present.

Public worship is held in the Chapel on the Sabbath, which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only by presenting to the President a written request from the parent or guardian.

EXPENSES.

THE COLLEGE BILLS are made out by the Treasurer three times a year, at the close of each term, and are delivered to the students, who are required to present them to their parents or guardians. The bills are payable at the close of the term, and if not paid by the expiration of two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting. All bank notes bankable in New Haven, New York or Boston, are received in payment of term bills.

TREASURER'S BILL.

The annual charges in the Treasurer's bill are,

For tuition,	- - - - -	\$45.00
" rent and care of half room in College, average of four years,	- - - - -	17.44
" expenses of public rooms,	- - - - -	3.00
" ordinary repairs, general damages, and incidentals, about,	- - - - -	3.56
" use of Gymnasium,	- - - - -	4.00
" Society tax,	- - - - -	6.00
		<hr/> \$79.00

OTHER CHARGES.—Besides this bill, the student pays \$6.00 for tuition in German or French (as an optional study) during the third term of Junior year, a small sum for the use of books which he may draw from the College Library, and additional charges at graduation, amounting to \$12.00. If a student occupies a whole room, the charge for rent and care is double that stated above.

ADVANCED STANDING.—Any person admitted to an advanced standing, unless coming from another College, pays the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

BOARD.—Board is obtained at prices varying from \$2.75 to \$4.00 a week. To a majority of the students it is about \$3.25. Board may be obtained in clubs, by those students who wish it at a lower rate than is common in boarding houses. No student is allowed to be a boarder in any hotel or house of public entertainment.

LODGINGS IN TOWN.—Students who wish to take lodgings in town are permitted to do so. But if, in consequence of this, any of the rooms in College are left vacant, the amount of the rent will be assessed upon those who room in town. The expense of room rent in private houses is much greater than in College. The students living out of

College are not allowed to room in any house or building, in which a family does not reside.

FURNITURE, BOOKS, &c.—The students provide for themselves bed and bedding, furniture for their rooms, fuel, lights, books, stationery and washing. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

The students also tax themselves various amounts in the several classes and literary societies.

FUEL is distributed to those students who apply for it, at cost and charges, and *must be paid for at the time of ordering.*

NECESSARY EXPENSES.—The following may be considered as a near estimate of the *necessary* annual expenses, without including apparel, pocket money, traveling, and board in vacations:—

Treasurer's bill (average),	-	-	-	-	-	\$79	\$79
Board, 40 weeks,	-	-	-	-	-	from 110	to 160
Fuel and lights,	-	-	-	-	-	" 10	" 20
Use of books recited, and stationery,	-	-	-	-	-	" 10	" 20
Use of furniture, bed and bedding,	-	-	-	-	-	" 10	" 20
Washing,	-	-	-	-	-	" 15	" 25

Total, \$284 to \$324

GENERAL EXPENSES.—With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most, and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses, will expose the student to numerous temptations, and will not contribute either to his respectability or happiness.

COLLEGE GUARDIAN.—As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of the expenditures, for which services he charges a commission.

BENEFICIARY FUNDS.

A SUM exceeding twenty-five hundred dollars, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of students who need pecuniary aid, especially those who are preparing for the Christian ministry. About seventy have thus their tuition either wholly or in part remitted.

The *HARMER Foundation of Scholarships*, established by the late THOMAS HARMER JOHNS, Esq., of Canandaigua, N. Y., comprises six scholarships, yielding each \$100 per annum, to be given to deserving students of small means.

There are also eleven other scholarships, most of them yielding \$60 per annum, which may be given to such students as shall be selected by the founders or by the Faculty.

Those who need to avail themselves of the use of the Benevolent Library are supplied gratuitously with most of the text-books used in the College course. They should be applied for at the College Library.

SCHOLARSHIPS.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament (Pauline Epistles), the first book of Thucydides, and the first six books of Homer's Iliad, Cicero's Tusculan Questions, Tacitus, (except the Annals,) and Horace; provided he remains in New Haven as a graduate one, two or three years.

THE CLARK SCHOLARSHIP, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

THE BRISTED SCHOLARSHIP, yielding about ninety-five dollars a year, is awarded whenever there may be a vacancy, to the student in the Sophomore or Junior Class, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek

of the year, and in the solution of algebraic problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course. The student who stands second at this examination receives for one year the income of the HURLBUT Scholarship, \$60.00.

PREMIUMS.

THE DEFOREST PRIZE MEDAL, of the value of one hundred dollars, will be awarded "to that scholar of the Senior Class, who shall write and pronounce an English Oration in the best manner."

THE TOWNSEND PREMIUMS, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

THE SENIOR MATHEMATICAL PRIZES, (the first consisting of a gold medal of the value of ten dollars, with ten dollars in money, the second of ten dollars in money,) are given to two members of the Senior Class for the best solution of problems in both abstract and concrete mathematics.

THE CLARK PREMIUMS will be offered, during the present year, for the solution of problems in Practical Astronomy.

THE COLLEGE PREMIUMS are given in the Sophomore Class for English composition, at the end of the first and second terms, in the Sophomore Class for Declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

DEGREES.

BACHELOR OF ARTS.—The Degree of Bachelor of Arts is conferred on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates for this degree are required to pay their dues to the Treasurer as early as the Monday before Commencement.

MASTER OF ARTS.—Every Bachelor of Arts of three years' or longer standing may receive the Degree of Master of Arts on the payment of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to Commencement.

Theological Department.

THE FACULTY of this Department consists of the President of the College, a Professor of Didactic Theology, a Professor and Assistant Professor of Sacred Literature, a Professor of the Pastoral Charge, and the Professor of Divinity.

The time of admission is at the beginning of the collegiate year. It is desirable that those who join this Department should be present at the commencement of the first term. Those admitted to an advanced standing will be expected to be prepared in the studies previously pursued by their respective classes.

The conditions for entrance are hopeful piety, and a liberal education at some College, or such other literary acquisition as may be considered an equivalent preparation for theological studies.

The terms and vacations are the same with those in the Academical Department.

The regular course of instruction occupies three years, and comprises the following subjects :

JUNIOR CLASS.

Hebrew Grammar, (Roediger's Gesenius, translated by Conant).

Conant's Hebrew Exercises and Chrestomathy.

Principles of Sacred Criticism and Hermeneutics.

Critical and Exegetical study of the Hebrew and Greek Scriptures.

Critical and Exegetical Dissertations.

Lectures by the Professor of Sacred Literature on some topics introductory to Theology, and in Exegetical Theology.

Lectures by the Professor of Didactic Theology on Mental Philosophy, including the Will.

MIDDLE CLASS.

Lectures by the Professor of Didactic Theology—

On Moral Philosophy.

Moral Government.

Natural Theology.

Necessity and Evidences of Revelation.

Systematic Theology.

Exegetical study of the Scriptures and Dissertations continued.

SENIOR CLASS.

Lectures on the Structure and Composition of Sermons and on Public Prayer.

Criticism of Sermons and of Plans of Sermons.

Exercises in Extemporaneous Speaking and Preaching before the Class.

Lectures on the Pastoral Charge.

Revivals of Religion.

History of Modern Missions.

Expository Preaching.

Elocution, attended by Practice in the Delivery of Sermons.

RHETORICAL SOCIETY.—There are weekly Debates in the Rhetorical Society, at which one of the Professors presides, and in which the members of all the Classes participate.

LIBRARIES.—The students have access to the College Library, and to the libraries of the literary Societies in the College.

EXPENSES.—A building is provided for the accommodation of students, in which the rooms are free of rent; but each occupant is subject to a charge of \$3,50 a year for incidental expenses. No other charges are made to the students.

BENEFICIARY AID.—In addition to the aid afforded by the American Education Society, provision is now made for efficient assistance to those who need it. Such persons also have an opportunity of attending, free of expense, the Lectures in the Academical Department, on Natural Science; and those preparing for missionary service, also the Lectures in the Medical Department.

Law Department.

THE FACULTY of this Department consists of the President of the College, and two Law Professors, Hon. HENRY DUTTON, LL. D., and Hon. THOMAS B. OSBORNE, LL. D.

TERMS AND VACATIONS.—The year commences on the seventh Monday after Commencement. There is a recess of two weeks, embracing Christmas and New-year's day, and a Spring vacation of three weeks. The summer term commences on the Monday next preceding the first Wednesday in May. Students may enter the School at any time, but it is recommended that they do so as early as practicable after the commencement of the first term.

CLASSES.—The School is divided into classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of the classes, as he finds himself able and inclined to perform the requisite labor.

RECITATIONS, &c.—Two exercises, consisting of Lectures or Recitations, accompanied by oral expositions, are daily given by the Instructors.

The whole course of instruction occupies two years. The following are some of the principal studies of the course:—

Blackstone's Commentaries.

Real Estate.

Personal Property.

Contracts.

Domestic Relations.

Parties to Actions.

Forms of Actions.

Pleading.

Evidence.

Nisi Prius.

Bills of Exchange.

Promissory Notes.

Insurance.

Shipping.

Corporations.

Criminal Law.

Equity.

Constitution of the United States.

Law of Nations.

Conflict of Laws.

The students are required to peruse the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

Courses of lectures are delivered by the Instructors, on the most important subjects of Common and Statute Law, and of Equity.

A moot Court is held once a week or oftener, which employs the students in drawing pleadings, and investigating and arguing questions of law.

PLEADINGS.—The students are called upon, from time to time, to draw declarations, pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

LEGAL OPINIONS.—They are occasionally required to write disquisitions on some topic of law, and collect the authorities to support their opinions.

LAWS OF PARTICULAR STATES.—The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

LIBRARIES.—The students are furnished with the use of the elementary books, and have access to the College libraries, and to a valuable law library.

EXPENSES.—The terms of tuition, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance, unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

DEGREE.—The Degree of Bachelor of Laws will be conferred by the President and Fellows, on liberally educated students who have been members of the Department eighteen months, and have complied

with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar. The fee for the diploma is \$5.

Medical Department.

THE FACULTY of the Medical Department consists of the President of the College, a Professor of Surgery, a Professor of Anatomy and Physiology, a Professor of Materia Medica and Therapeutics, a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, and a Professor of Obstetrics.

Instruction is given also in Medical Jurisprudence and in Microscopy.

The annual course of lectures commences on Thursday, (Sept. 13th, 1860,) seven weeks after the College Commencement, and continues four months.

The Lectures on Chemistry are given at the Chemical Laboratory;—the Lecture-rooms of the other Professors are in the Medical College.

A Medical and Surgical Clinique is held every Wednesday, at the Connecticut Hospital, during the Lecture term, at which a variety of cases is presented, for consultation and operations, in presence of the class.

ACADEMICAL LECTURES.—The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given by Professor KNIGHT, during the spring term, to the Senior Class in the Academical Department. They also have admission to the various other Lectures in the Academical Department, on paying the fees of the several courses.

The new Medical College building on York street, has been carefully planned, so as to afford the most ample and convenient accommodations. The arrangements for Dissections are ample, and subjects are supplied on the most reasonable terms. The Anatomical Museum, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society, the Cabinet of Minerals, and the Libraries of the Medical and Academical Departments, are all open to students.

EXPENSES.—The Fees, which are required in advance, are \$12,50 for each course, except that on Obstetrics, which is \$6, with a Matriculation fee of \$5—the whole amounting to \$73,50. The tickets of all the Professors, or a part, may be taken in any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another similar Medical Institution, will be admitted to a full course on paying the Matriculation fee. The graduation fee is \$15;—fee for a license, including diploma, \$4,50.

DEGREE.—By the Statutes of the State, the requirements for the Degree of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' study for those who are; attendance upon two full courses of Lectures, either in this Institution, or some other of a similar character; the attainment of twenty-one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the medical sciences, written in a form prescribed by the Faculty. This Board consists of the Medical Professors of the College, *ex officio*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Medical Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The examination is held immediately after the close of the Lectures, when the licenses are granted and degrees conferred.

PRIVATE MEDICAL SCHOOL.

There is a Private Medical School for the purpose of daily recitation. The instructors are Doctors W. Hooker, P. A. Jewett, C. A. Lindsley and L. J. Sanford. The year is divided into two terms. The first term corresponds with the course of lectures of the Medical Institution. The second begins in the middle of February and extends to Commencement, having a vacation of a fortnight in the first part of May. Fees for the first term, \$10; for the second, \$40.

Department of Philosophy and the Arts.

~~~~~

IN the first section of this Department, entitled the *Yale Scientific School*, the opportunity is afforded of pursuing a GENERAL SCIENTIFIC COURSE, and special courses in PHYSICS, CHEMISTRY, INDUSTRIAL MECHANICS and ENGINEERING. In the second section, special courses are given in HISTORY, PHILOLOGY, PHILOSOPHY and MATHEMATICS.

The degrees of BACHELOR OF PHILOSOPHY, CIVIL ENGINEER, and DOCTOR OF PHILOSOPHY, are conferred in this Department on conditions to be hereafter stated.

### FIRST SECTION.

#### YALE SCIENTIFIC SCHOOL.

~~~~~

The Faculty of the Scientific School consists of the President of the College, a Professor of Civil Engineering, a Professor of Natural History, a Professor of General and Applied Chemistry, a Professor of Industrial Mechanics and Physics, a Professor of Organic Chemistry, a Professor of Modern Languages, a Professor of Metallurgy, and a Professor of Analytical and Agricultural Chemistry. Assistants in Chemistry and Engineering, and a teacher of Drawing are included in the corps of instructors. Lectures by the President and by the Professors of the Academical, Medical, and Law Departments are also attended by the students of this School.

The following courses of instruction will be hereafter given :

A general course, embracing MATHEMATICS, PHYSICAL SCIENCE, MODERN LANGUAGES, LITERATURE, HISTORY, POLITICAL ECONOMY, and COMMERCIAL LAW, and extending through *three years*.

A special course in CHEMISTRY and NATURAL SCIENCE, occupying *two years*.

A special course in ENGINEERING, extending through *two years*.

The special courses may be profitably extended to three years by previous attendance on the first year of the general course.

The opportunity is afforded of pursuing the study of Natural and Physical Science beyond the limits of the regular courses. A higher course in Engineering, extending through one year, is also presented in the scheme of study.

By the liberality of JOSEPH E. SHEFFIELD, Esq., of New Haven, the School is now provided with a spacious building especially adapted to its purposes, and a large addition to the fund for sustaining its courses of instruction.

The new building of the Scientific School contains, besides the usual recitation and lecture rooms, extensive Analytical and Metallurgical Laboratories, and commodious halls for Agricultural and Technological Museums. The institution is provided, both in its Chemical and Engineering departments, with the most approved apparatus and instruments of research, with numerous diagrams and models, and with extensive mineralogical and metallurgical collections.

TERMS OF ADMISSION.

Applicants for admission to the first year of either course in the Scientific School as candidates for the degree of Bachelor of Philosophy, must be at least sixteen years of age, and must bring satisfactory testimonials of good character. They must also sustain an examination in the following books, or their equivalents :

Arithmetic—Thomson's Higher Arithmetic.

Algebra—Day or Davies.

Geometry—Davies's Legendre.

Plane Trigonometry—Loomis or Davies.

Natural Philosophy—Loomis or Olmsted.

Chemistry—Silliman or Porter.

English Grammar.

Geography.

Persons desiring to pursue a course including branches taught in Section II. (see page 53) will pass an equivalent examination in branches preparatory to the course they design to pursue.

The same preparation in Latin, which is required for admission to the Freshman Class of the Academical Department is recommended to the student, as facilitating the study of the sciences and of the English, French, and German languages pursued in the Scientific School.

Candidates for advanced standing are examined, in addition to the preparatory studies, in those previously pursued by the class they propose to enter. Any person admitted to an advanced standing, unless

coming from another College, pays the sum of ten dollars as tuition money, for each term which has been completed by the class which he enters. No one can be admitted as a candidate for a degree after the commencement of the last year of the course.

Bachelors of Arts, Science and Philosophy will be admitted to the Scientific School as candidates for the degree of Doctor of Philosophy without examination. Other persons may be admitted as candidates for the same degree on passing the examination required for the Bachelor's degree, and on payment of an examination-fee of twenty-five dollars.

Bachelors of Science or Philosophy who have obtained either of these degrees in the department of Engineering, in this or in other institutions, will be admitted to the department as candidates for the degree of Civil Engineer without examination. Other persons will be admitted on passing the examination for the Bachelor's degree, and on payment of an examination-fee of twenty-five dollars.

The regular examinations for admission to the Scientific School take place at Sheffield Hall, on Monday and Tuesday preceding Commencement, at 9 o'clock, A. M., and on Tuesday and Wednesday, Sept. 10th and 11th, at the same place and hour. Opportunity for private examination will be given at other times. The conditions of matriculation are the same as in the Academical Department.

Persons who are not candidates for a degree may be admitted without examination, to engage in any studies they are qualified to pursue. Such persons will receive a certificate from the Faculty corresponding to their attainments.

GENERAL COURSE.

The instruction is given in part from text-books, and in part by lectures with subsequent examinations. In Surveying, Chemistry, Mineralogy, Geology, and Botany, practice in the use of instruments with operations in the field, will accompany the theoretical instruction. Exercises in English Composition will be continued throughout the course.

FIRST YEAR.

FIRST TERM.

Mathematics—Davies's Analytical Geometry.* Spherical Trigonometry. Surveying.
English Language—Etymology. Exercises in composition.
Elocution—Lectures on Elocution, with practice. Declamations.

* The student is at liberty to pursue Practical Chemistry in the place of Analytical Geometry.

Chemistry—Lectures on General Chemistry.

French—Fasquelle's Method.

SECOND TERM.

Mathematics—Descriptive Geometry, and Geometrical Drawing.

Physics—Gravitation, Molecular Forces, Pneumatics, Acoustics. Lectures.

Elocution—Practical exercises in Elocution.

French—De Fivas's Reader.

THIRD TERM.

Mathematics—Linear Perspective, and Isometrical Drawing.

Physics—Optics. Heat. Electricity. Lectures.

Mineralogy—Lectures, with practical exercises in the determination of Minerals. Lectures on Building Materials.

Botany—Lectures and practical exercises in Botany and Vegetable Physiology.

French—Souvestre, Molière, Racine.

SECOND YEAR.

FIRST TERM.

Mechanics—Peck's Elements of Mechanics. Lectures.

Physical and Political Geography—Lectures and Recitations.

Logic—Wilson's Elementary Treatise.

History—Weber's Outlines. White's Christian Centuries.

German—Woodbury's Method.

SECOND TERM.

Astronomy—Norton's Astronomy, with practical problems. Lectures.

Rhetoric—Whately's Rhetoric.

Chemistry—Agricultural Chemistry. Lectures and recitations.

Agriculture—Lectures on Agriculture (optional, see p. 51).

German—Andersen, Fouqué, Schiller.

THIRD TERM.

Literature—Critical study of classical English authors.

History—History of the United States.

Geology—Dana's Manual. American and General Geology. Lectures.

Industrial Mechanics—Lectures on the Steam Engine and other Motors.

Drawing—Free Hand Drawing, Architectural Drawing, Designing.

German—Schiller, Goethe.

THIRD YEAR.

FIRST TERM.

History—Guizot's History of Civilization. Lectures.

Mental Philosophy—Hamilton's Metaphysics. Lectures.

Rhetoric—English Classics, continued.

Political Economy—Laws of Trade; Forms of Business; Statistics of Agriculture, Commerce and Manufactures.

SECOND TERM.

Moral Philosophy—Stewart's Active and Moral Powers; Butler's Sermons; Whewell's Elements of Morality. Lectures.

Political Philosophy—Political Economy; Lieber's Civil Liberty and Self Government. Lectures.

Constitution of the United States—Lectures.

Theology—Paley's Natural Theology. Butler's Analogy. Lectures.

Meteorology—Lectures.

Anatomy and Physiology—Lectures.

THIRD TERM.

Political Philosophy—Law of Nations.

Logic—Mill's Logic, Books III and IV. Induction.

Theology—Paley's Evidences of Christianity. Lectures.

Commercial Law—Lectures and Recitations in connection with classes in the Law School.

COURSE IN CHEMISTRY AND NATURAL SCIENCE.*

FIRST YEAR.

FIRST TERM.

General Chemistry—Miller. Non-Metallic Elements. Lectures.

Chemical Analysis—Fresenius. Lectures.

Laboratory Practice—Qualitative Analysis.

French or German—(See General Course.)

SECOND TERM.

Metallurgy—Miller. Chemistry of Metals and Metallurgy. Lectures.

Agricultural Chemistry—Lectures on the Chemistry and General Principles of Agriculture.

Laboratory Practice.—Qualitative Analysis, continued. Examination for poisons. Quantitative analysis, commenced.

French or German—(See General Course.)

THIRD TERM.

Botany—Lectures on Botany and Vegetable Physiology with practical exercises.

Mineralogy—Lectures and Practical Exercises. Lectures on Building Materials.

Organic Chemistry—Miller. Organic Chemistry. Lectures.

Laboratory Practice—Quantitative analysis, continued.

French or German—(See General Course.)

SECOND YEAR.

FIRST TERM.

Physical Geography.—Lectures and Recitations.

Physics.—Electricity. Magnetism. Lectures.

Laboratory Practice.—Volumetric and Organic Analysis.

SECOND TERM.

Physics.—Lectures on Physics, continued.

History of the Inductive Sciences.—Whewell.

Laboratory Practice—Mineral Analysis and Assaying.

THIRD TERM.

Geology—Dana's Manual. American and General Geology. Lectures.

Logic—Mill's System of Logic, Books III and IV. Induction.

Laboratory Practice—Technical Analysis.

* A modification of this course may be permitted by the Faculty in the case of persons desiring to devote themselves more exclusively to special branches.

COURSE IN ENGINEERING.

FIRST YEAR.

FIRST TERM.

Mathematics—Davies's Analytical Geometry. Davies's Descriptive Geometry. Davies's or Gillespie's Surveying.

Practical Surveying—Adjustment and use of instruments; Field-work; Drawing of plats and charts; Levelling.

Drawing—Geometrical Drawing.

SECOND TERM.

Mathematics—Davies's or Church's Differential Calculus. Davies's Shades and Shadows, and Linear Perspective.

Drawing—Mechanical Drawing. Shading and Tinting.

THIRD TERM.

Mathematics—Differential Calculus, continued. Topographical Surveying, with operations in the field. Spherical Trigonometry.

Drawing—Topographical, Isometrical, and Architectural Drawing.

Astronomy—Lectures.

SECOND YEAR.

FIRST TERM.

Mathematics—Davies's or Church's Integral Calculus. Applications of Differential and Integral Calculus.

Mechanics—Weisbach's Theoretical Mechanics.

Field Engineering—Henck's Field Book for Rail Road Engineers. Location of Roads. Surveys for calculation of excavations and embankments, and for construction of roads.

French or German—(See General Course).

Chemistry—Lectures.

SECOND TERM.

Mechanics—Weisbach's Theoretical Mechanics, continued.

Civil Engineering—Strength of Materials. Haupt's Bridge Construction. Mahan's Civil Engineering.

French or German—(See General Course).

Physics—Lectures.

THIRD TERM.

Mechanics—Weisbach's Mechanics of Machinery and Engineering. Lectures on Construction, Theory, and Applications of the Steam Engine.

Civil Engineering—Masonry, and Stone Cutting. Graphical Problems in Stone Cutting. Lectures on Building Materials.

Mineralogy and Geology—Lectures.

HIGHER COURSE IN ENGINEERING.

FIRST TERM.

Mathematics—Navier's Calculus (Vol. II), including Calculus of Variations.

Practical Astronomy—Loomis's Practical Astronomy. Observations with Sextant and Transit-Circle.

Applied Mathematics—Geodetic Surveying; methods of the U. S. Coast Survey.

SECOND TERM.

Mechanics—Bartlett's Analytical Mechanics.

Practical Astronomy—Loomis's Practical Astronomy, continued. Observations with Zenith Telescope, and Equatorial.

Physics—Silliman's First Principles of Physics.

Civil Engineering—Designs for special Rail-Road structures, with specifications, calculations, and drawings.

THIRD TERM.

Mechanics—Bartlett's Analytical Mechanics, continued through Mechanics of Molecules.

Industrial Mechanics—Lectures on the Principles of Mechanism, and on the Steam Engine, Turbines, and other Motors. Reports of examination of Machines and Manufacturing Establishments. Designs for special Machines.

Civil Engineering—Designs for special Structures.

AGRICULTURE.

A course of sixty or more lectures on Agriculture and Horticulture, similar to the course of 1860, will commence on February 5th, 1861, and continue throughout the month. These lectures will be given principally by gentlemen from abroad, distinguished in special branches of practical Agriculture. Especial prominence will be given in this course to Agricultural Chemistry, the Propagation and Management of Vines and Fruit Trees, the Diseases of Domestic Animals, the characteristics of various Breeds and the lessons of English Agriculture. The lectures will be fully illustrated by specimens, diagrams, paintings, and models.

Persons desiring to pursue an extended course of study with more especial reference to Agriculture will take the "General Course" (p. 47,) with such modifications as are suggested by their especial objects. These modifications will consist mainly in the substitution of Practical Agriculture, Analytical Chemistry, Animal Physiology, Veterinary Medicine, Botany and Vegetable Physiology, for certain other studies of the course. Such students will occupy themselves during the summer with the practical operations of the farm under the superintendence of a skillful practical Agriculturist in the vicinity of New Haven.

REGULATIONS.

REQUIREMENTS.—Students of the Scientific School are required to board and lodge at such houses as the Faculty may approve. They are expected to conduct themselves in a courteous and gentlemanly manner, both in their intercourse with each other and with their instructors and with other members of the several Faculties of the College. They are required steadily to attend religious worship at such place as their parents or guardians may direct. Violation of these or other regulations of the Department will render the student liable to dismissal from the Institution.

EXPENSES.—The fee for instruction in the Scientific School is one hundred dollars per annum, divided among the several terms as follows: For the first and second terms, each, thirty-five dollars, payable in advance; for the third term, thirty dollars. The student of Analytical Chemistry will be at a charge of fifty-five dollars, per annum, for chemicals, and for use of library and apparatus. He will also supply himself at his own expense with gas, flasks, crucibles, &c., the cost of which should not exceed five to ten dollars per term.

Ticket to the Agricultural Lectures of February, 1861, ten dollars.

Fee for graduation as Bachelor of Philosophy or Civil Engineer, five dollars; as Doctor of Philosophy, ten dollars.

EXAMINATIONS.—Examinations are held at the close of each year on the studies of the year.

TERMS AND VACATIONS.—The terms and vacations correspond with those of the Academical Department.

GYMNASIUM.—The sum of three dollars per term is charged to each student who chooses to avail himself of the privileges of the Gymnasium.

SECOND SECTION.

PHILOSOPHY, PHILOLOGY, MATHEMATICS.

Applicants for admission to this section of the Department of Philosophy and the Arts, as candidates for the degree of Bachelor of Philosophy, must sustain an examination in studies preparatory to the course they design to pursue, which shall be equivalent to that required for admission to the First Section.

Bachelors of Arts, Science, and Philosophy, will be admitted to this Section as candidates for the degree of Doctor of Philosophy without examination. Other persons may be admitted as candidates for the same degree, on passing the examination required for the Bachelor's degree, and on payment of an examination-fee of twenty-five dollars.

The studies are optional, and may be selected by the student from the branches named below, or may include branches of science taught in Section First. The course for a degree extends through two years. The requirements for degrees are stated in the next section.

I. PHILOSOPHY AND HISTORY.

Political and Social History and International Law,	-	Pres't WOOLSEY.
Psychology, Logic, and History of Philosophy,	-	Prof. N. PORTER.
History and Criticism of English Literature,	-	Prof. LARNED.

II. PHILOLOGY.

General Philology, Ethnology, and Oriental Languages,	Profs. GIBBS and WHITNEY.
Latin and Greek Languages and Literatures,	Profs. TRACER and HADLEY.
Modern European Languages,	- - - Prof. WHITNEY.

III. MATHEMATICS AND PHYSICS.

Pure and mixed Mathematics,	- - - Prof. NEWTON.
Astronomy,	- - - Prof. LOOMIS.

Persons who are not candidates for a degree may be admitted without examination to engage in any studies they are qualified to pursue. Such persons will receive a certificate from the Faculty corresponding to their attainments.

The yearly fee for instruction will not exceed one hundred dollars.

DEGREES IN THE DEPARTMENT OF PHILOSOPHY AND THE ARTS.

BACHELOR OF PHILOSOPHY.—The degree of Bachelor of Philosophy will be conferred on all members of the department who have completed either the general course, or one of the special courses in the Scientific School, and have passed a satisfactory examination in the course they have pursued. The same degree will be conferred on all members of the department who have spent at least two years in faithful study of selected branches under the direction of the several instructors, and have sustained the final examination. The selection may be made from the studies of either or both sections, but must belong to at least two distinct departments of learning.

CIVIL ENGINEER.—The degree of Civil Engineer is conferred on those persons who, having completed the higher course in Engineering, have sustained its final examination, and given evidence of their ability to design important constructions and make the drawings and calculations required in their execution.

DOCTOR OF PHILOSOPHY.—It is required of candidates for the degree of Doctor of Philosophy, that they shall faithfully devote at least two years to a course of study selected from branches pursued in the Department of Philosophy and the Arts. The selection may be made from the studies of either or both sections but must belong to at least two distinct departments of learning.

All persons who have not previously received a degree furnishing evidence of acquaintance with the Latin and Greek languages, will be required before presenting themselves for the final examination for the Doctor's degree, to pass a satisfactory examination in these languages, or in other studies (not included in their advanced course) which shall be accepted as an equivalent by the Faculty.

The degree of Doctor of Philosophy will be conferred on all members of the Department who, having complied with the conditions above stated, shall pass a satisfactory final examination, and present a thesis giving evidence of high attainment in the branches they have pursued.

Library and Cabinet.

THE COLLEGE LIBRARY is designed for the use of the several Faculties of the College, students connected with the Theological, Law, Medical and Philosophical Departments, and the members of the Senior and Junior Classes in the Academical Department.

Each of the professional schools has connected with it a separate library.

The whole number of books in the College Library beside pamphlets is about	38,000
“ “ in the Libraries of the professional schools, -	5,000
“ “ in the Libraries of the Literary Societies, -	24,000
Total, - - - - -	67,000

The Library of the American Oriental Society is now kept in the College Library-Building.

THE MINERALOGICAL AND GEOLOGICAL CABINET, embracing about thirty thousand specimens, is accessible to the students of the several departments.
