GENERAL STATEMENT.

Academical Department.

TERMS OF ADMISSION.

Candidates for admission to the Freshman Class are examined in the following books and subjects,—

Cicero—seven Orations.

Virgil—the Bucolics, Georgics, and the first six books of the Æneid.

Sallust—Catilinarian and Jugurthine Wars.

Latin Grammar—Andrews and Stoddard, or Zumpt.

Latin Prosody.

Arnold's Latin Prose Composition, to the Passive voice, (first XII Chapters).

Greek Reader—Jacobs, Colton, or Felton. Xenophon—Anabasis, first three books. Greek Grammar—Hadley, Sophocles, Crosby, or Kühner.

Thomson's Higher Arithmetic.
Day's Algebra (Revised Edition), to Quadratic Equations.
Playfair's Euclid, first two books.
English Grammar.
Geography.

TIME AND CONDITIONS OF EXAMINATION.

The regular examination for admission to College takes place on Monday and Tuesday preceding Commencement, beginning at 9 o'clock A. M. on Monday and at 8 o'clock A. M. on Tuesday. The candidates assemble at Graduates' Hall. Another examination will be held at the same place, on Tuesday and Wednesday, September 15th and 16th, 1863, beginning at 9 o'clock A. M. on Tuesday, and at 8 o'clock A. M. on Wednesday. Persons may also be examined for an advanced standing in any part of the collegiate terms, but not in vacations, except in urgent cases. No one can be admitted to the Senior Class, after the commencement of the second term.

ADVANCED STANDING.—All candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter.

Age.—No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

Testimonials.—Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismission in good standing.

Bond.—Every person, on being admitted, must give to the Treasurer a bond, executed by his parent or guardian, for two hundred dollars, to pay all charges which may arise under the laws of the College.

MATRICULATION.—The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation on satisfactory evidence of good moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

COURSE OF INSTRUCTION.

THE whole course of instruction occupies four years. In each year there are three terms or sessions.

The members of the several classes meet for recitation and instruction by divisions:—the Senior class consisting of two divisions, the Junior, Sophomore and Freshman classes of two, three or four each, according to their numbers.

Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two.

The following scheme gives a general view of the studies pursued in each term:—

FRESHMAN CLASS.

FIRST TERM.

Greek.—Homer's Odyssey, two books.

Latin.—Livy; Arnold's Latin Prose Composition.

Mathematics.—Day's Algebra; Playfair's Euclid.

SECOND TERM.

Greek.—Homer's Odyssey, continued through four books; Herodotus; Arnold's Greek Prose Composition.

Latin.—Livy; Latin Composition.

Mathematics.—Playfair's Euclid.

History .- Pitz and Arnold's Ancient History.

THIRD TERM.

Greek.—Herodotus; Greek Testament; Greek Composition.

Latin.—The Odes of Horace; Latin Composition.

Mathematics.—Day's Algebra; Stanley's Spherics.

Rhetoric.—Lectures on the Structure of Language, with Recitations. Compositions.

SOPHOMORE CLASS.

FIRST TERM.

Greek.—Alcestis of Euripides; Select Orations of Demosthenes.

Latin.—The Satires, Epistles and Ars Poetica of Horace; Latin Composition.

Mathematics.—Day's Mathematics; Stanley's Tables; Stanley's Spherics.

Rhetoric.—Lectures on Elocution, with Practice. Declarations. Compositions.

SECOND TERM.

Greek.—Prometheus of Æschylus; Antigone of Sophocles.

Latin.—Cicero de Officiis; Latin Composition.

Mathematics.—Day's Mathematics; Loomis's Conic Sections.

Rhetoric.—Declamations. Compositions.

THIRD TERM.

Greek.—Theocritus; Xenophon's Memorabilia.

Latin.-Cicero de Officiis.

Mathematics .- Loomis's Analytical Geometry.

Rhetoric.—Whately's Rhetoric, (with the exception of Part IV, on Elecution). Decismations. Compositions.

JUNIOR CLASS.

FIRST TERM.

Greek.-Plato's Apology of Socrates, Crito, and Gorgias.

Latin.-Cicero pro Cluentio; Latin Composition.

Mathematics.—(See Elective Studies).

Natural Philosophy .- Snell's Olmsted's Natural Philosophy :- Mechanics.

Rhetoric.-Forensic Disputations.

SECOND TERM.

Greek .- Thucydides.

Latin .- Tacitus; Latin Composition.

Mathematics .- (See Elective Studies).

Natural Philosophy.—Hydrostatics, Hydraulics, Pneumatics, Acoustics, Electricity, Magnetism. Lectures.

è

it.

'n

h

施

4

16

Rhetoric .- Forensic Disputations.

THIRD TERM.

Natural Philosophy.—Optics. Lectures.

Chemistry .-

Astronomy. - Olmsted's Astronomy, to the Planets.

Elective Studies.—Modern Languages. Ancient Languages. Crystallography. Logic.—

SENIOR CLASS.

FIRST TERM.

History and Political Philosophy.—Guizot's History of Civilization. Lectures. Political Economy, begun.

Mental Philosophy.-Hamilton's Metaphysics. Lectures.

Rhetoric.—Spalding's History of English Literature. Lectures on Eloquence. Compositions. Forensic Disputations.

Geology .- Dana's Geology .

Meteorology .- Lectures.

Astronomy.—Olmsted's Astronomy, finished. Lectures,

Chemistry. - Silliman's Chemistry. Lectures, with Recitations.

SECOND TERM.

Moral Philosophy.—Stewart's Active and Moral Powers; Butler's Sermons; Whewell's Elements of Morality. Lectures.

History and Political Philosophy.—Political Economy, finished; Lieber's Civil Liberty and Self Government. Lectures.

Constitution of the United States .- Lectures.

Geology.-Dana's Geology, finished.

Theology.—Paley's Natural Theology. Butler's Analogy. Lectures.

Rhetoric.—Spalding's History of English Literature. Recitations and Lectures. Compositions. Forensic Disputations.

Anatomy.-Lectures.

THIRD TERM-until the Examination.

Political Philosophy .- Law of Nations.

Theology.-Paley's Evidences of Christianity. Lectures.

LECTURES TO ACADEMICAL STUDENTS.

FIRST TERM.

SENIOR CLASS.

History.—The President, Monday and Thursday, during the first half of the term, at 3 o'clock, at No. 176 Lyceum.

Meteorology and Astronomy.—Professor Loomis, four days in the week for seven weeks, at the Philosophical Chamber, Cabinet Hall.

Mental Philosophy.—Professor Noah Porter, at 3 o'clock, Monday and Thursday, during the last half of the term, at No. 176 Lyceum.

Chemistry.—Professor SILLIMAN, Jr., three days in the week, during the first twelve weeks of the term, at the Chemical Laboratory, at 4 o'clock.

SECOND TERM.

SENIOR CLASS.

Anatomy.—Professor Knight, daily, for three weeks, from March 1st, at 5 o'clock, at the Medical College.

History and Political Philosophy.—The Parsident, Monday, Tuesday, Thursday and Friday, the first half of the term, at 3 o'clock, at No. 176 Lyceum.

Moral Philosophy.—Professor Noah Porter, Monday, Tuesday, Thursday and Friday, for the last half of the term, at 3 o'clock, at No. 176 Lyceum.

Constitution of the United States.—Professor DUTTON, at 5 o'clock, at No. 176 Lyceum,
—fourteen lectures.

JUNIOR CLASS.

Natural Philosophy.—Professor Loomis, Tuesday and Friday, at 3 r. m., at the Philosophical Chamber, Cabinet Hall.

THIRD TERM.

SENIOR CLASS.

Evidences of Christianity.—Four times a week, for three weeks, at 5 o'clock, at No. 176 Lyceum.

JUNIOR CLASS.

Natural Philosophy.—Professor Loomis, Tuesday and Friday, at the Philosophical Chamber, Cabinet Hall.

EXERCISES IN DECLAMATION AND COMPOSITION.

30

Tin be

6

祖祖

世典

Eng!

100

THE REAL PROPERTY.

The Senior and Junior Classes have exercises in forensic disputation twice a week.

The Senior Class have exercises in English composition twice a week.

The Sophomore Class, during the whole year, and the Freshman Class, during the third term, have exercises in English composition once a week.

The Sophomore Class have regular exercises in Elocution, during the whole year, and once a week have an exercise in Declamation in the Chapel, before the Professor of Rhetoric and the members of the Class.

ELECTIVE STUDIES.

Those students, who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose the Differential and Integral Calculus, during the first two terms of Junior Year, in place of the Greek or the Latin studies of those terms.

During the third term of Junior Year, in addition to the required studies of the term, the members of the class receive at their option instruction in the French or German Languages, in select Greek or Latin, or in Mineralogy.

Students who are desirous of pursuing Hebrew, may obtain gratuitous instruction in that language from the Instructor in Hebrew.

VOCAL MUSIC.

Instruction in Vocal Music will be given during the year, and the exercises will be open to all the classes.

GYMNASIUM.

The Gymnasium is designed to provide all the students with opportunities for exercise. For the privileges of the same, including instruction, the sum of four dollars a year will be charged to each academical student.

EXAMINATIONS.

Public examinations of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years.

spote

e a ve

прия

i, dan

The biennial examinations are conducted wholly in writing, and are continued each for a period of between two and three weeks.

TERMS AND VACATIONS.

THE PUBLIC COMMENCEMENT is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or, as the case may be, four weeks, are assigned for vacations.

LEAVE OF ABSENCE.—No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

PUBLIC WORSHIP.

Prayers are attended in the College Chapel every morning, with the reading of the Scriptures and singing, and all the students are required to be present.

Public worship is held in the Chapel on the Sabbath, which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only by presenting to the President a written request from the parent or guardian.

EXPENSES.

THE COLLEGE BILLS are made out by the Treasurer three times a year, at the close of each term, and are delivered to the students, who are required to present them to their parents or guardians. The bills are payable at the close of the term, and if not paid by the expiration of two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting. All bank notes bankable in New Haven, New York or Boston, and all Government notes issued for currency are received in payment of term bills.

TREASURER'S BILL.

For	tuition,	-	-	-		-	-	-		\$45.00
66	rent and care of half	room	in C	ollege	e, ave	rage (of fou	r year	78,	20.00
44	expenses of public r	ooms,	ordi	Dary I	epair	s, and	d incie	lental	8,	10.00
- 66	use of Gymnasium,			1		-		700	18	4.00
44	Society tax, -	-								6.00

OTHER CHARGES.—Besides this bill, the student pays \$6.00 for tuition in German or French (as an optional study) during the third term of Junior year, a small sum for the use of books which he may draw from the College Library, and additional charges at graduation, amounting to \$12.00. If a student occupies a whole room, the charge for rent and care is double that stated above.

N

ADVANCED STANDING.—Any person admitted to an advanced standing, unless coming from another College, pays the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

ABSENCE ON LEAVE.—A student who is absent from College on leave on account of sickness, or for other cause, and still retains his place in the class, pays full tuition during such absence.

Board.—Board is obtained at prices varying from \$3.50 to \$5.00 a week. To a majority of the students it is about \$4.50. Board may be obtained in clubs, by those students who wish it at a lower rate than is common in boarding houses. No student is allowed to be a boarder in any hotel or house of public entertainment.

Longings in rown.—Students who wish to take lodgings in town are permitted to do so; but if, in consequence of this, any of the rooms in College assigned to their class are left vacant, they will be

rooms in College are left vacant, the amount of the rent will be assessed upon those who room in town. The expense of room rent in private houses is much greater than in College. The students living out of College are not allowed to room in any house or building, in which a family does not reside.

FURNITURE, BOOKS, &c.—The students provide for themselves bed and bedding, furniture for their rooms, fuel, lights, books, stationery and washing. If books and furniture are sold when the student has no further necessity for them, the expenses incurred by their use will not be great.

The students also tax themselves various amounts in the several classes and literary societies.

FUEL is distributed to those students who apply for it, at cost and charges, and must be paid for at the time of ordering.

NECESSARY EXPENSES.—The following may be considered as a near estimate of the necessary annual expenses, without including apparel, pocket money, traveling, and board in vacations:—

Treasurer's bill (average),					-		\$80		\$80
Board, 40 weeks, -	-		-		-	from	110	to	160
Fuel and lights,	-					64	10	- 44	20
Use of books recited, and	stati	onery,	-	- 12 -	-	- 41	10	44	20
Use of furniture, bed and	bedd	ing,		-	-	"	10	u	20
Washing,		-		-		44	15	44	25
				To	tal.	-	235	to	\$325

General expenses.—With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most, and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses, will expose the student to numerous temptations, and will not contribute either to his respectability or happiness.

College Guardian.—As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of the expenditures, for which services he charges a commission.

8

A sum exceeding twenty-five hundred dollars, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of students who need pecuniary aid, especially those who are preparing for the Christian ministry. About seventy have thus their tuition either wholly or in part remitted.

The HARMER Foundation of Scholarships, established by the late THOMAS HARMER JÓHNS, Esq., of Canandaigua, N. Y., comprises six scholarships, yielding each \$100 per annum, to be given to deserving students of small means.

There are also twelve other scholarships, most of them yielding \$60 per annum, which may be given to such students as shall be selected by the founders or by the Faculty.

Those who need to avail themselves of the use of the Benevolent Library are supplied gratuitously with most of the text-books used in the College course. These should be applied for at the College Library.

SCHOLARSHIPS.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament (Pauline Epistles), the first book of Thucydides, and the first six books of Homer's Iliad, Cicero's Tusculan Questions, Tacitus (except the Annals), and Horace; provided he remains in New Haven as a graduate one, two or three years.

THE CLARK SCHOLARSHIP, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

THE BRISTED SCHOLARSHIP, yielding about ninety-five dollars a year, is awarded, whenever there may be a vacancy, to the student in the Sophomore or Junior Class, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A Scholarship, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course. The student who stands second at this examination receives for one year the income of the HURLBUT Scholarship, \$60.00.

PREMIUMS.

THE DEFOREST PRIZE MEDAL, of the value of one hundred dollars, will be awarded "to that scholar of the Senior Class, who shall write and pronounce an English Oration in the best manner."

THE TOWNSEND PREMIUMS, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

THE SENIOR MATHEMATICAL PRIZES, (the first consisting of a gold medal of the value of ten dollars, with ten dollars in money, the second of ten dollars in money,) are given to two members of the Senior Class for the best solution of problems in both abstract and concrete mathematics.

THE CLARK PREMIUMS will be offered, during the present year, for the solution of problems in Practical Astronomy.

THE COLLEGE PREMIUMS are given in the Sophomore Class for English composition, at the end of the first and second terms, in the Sophomore Class for Declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

DEGREES.

Bachelor of Arts.—The Degree of Bachelor of Arts is conferred on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates for this degree are required to pay their dues to the Treasurer as early as the Monday before Commencement.

Master of Arts.—Every Bachelor of Arts of three years' or longer standing may receive the Degree of Master of Arts on the payment of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to Commencement.

Theological Department.

THE FACULTY of this Department consists of the President of the College, a Professor of Didactic Theology, a Professor of the Pastoral Charge, a Professor of Church History, a Professor of Hebrew, and a Professor of Sacred Literature.

TIME AND CONDITIONS OF ADMISSION.—The time of admission is at the beginning of the collegiate year. It is desirable that those who join this Department should be present at the commencement of the first term. Those admitted to an advanced standing will be expected to be prepared in the studies previously pursued by their respective classes.

The conditions for entrance are hopeful piety, and a liberal education at some College or such other literary acquisitions as may be considered an equivalent preparation for theological studies.

TERMS AND VACATIONS.—The terms and vacations are the same with those in the Academical Department.

COURSE OF INSTRUCTION.—The regular course of instruction occupies three years, and comprises the following subjects:

JUNIOR CLASS.

Hebrew Grammar, and Exercises.

Principles of Sacred Criticism and Hermeneutics.

Critical and Exegetical study of the Hebrew and Greek Scriptures.

Critical and Exegetical Dissertations.

Lectures by the Professor of Didactic Theology on Mental and Moral Philosophy.

MIDDLE CLASS.

Lectures by the Professor of Didactic Theology—
On Natural Theology and Moral Government.
Necessity and Evidences of Revelation.
Systematic Theology.
Recitations and Lectures on General Church History.
Exegetical study of the Scriptures continued.

SENIOR CLASS.

Lectures on the Structure and Composition of Sermons.

Criticism of Sermons and of Plans of Sermons.

Lectures on the Pastoral Charge.

Lectures on the History of Doctrines.

In addition to the regular Course of Instruction, the German and Sanskrit Languages may be studied with Professor Whitney. Instruction in Elecution may also be obtained from the Instructor in that branch in the Academical Department.

RHETORICAL SOCIETY.—There are weekly Debates in the Rhetorical Society, at which one of the Professors presides, and in which the members of all the Classes participate.

LIBRARIES.—The College Library, to which the students have access without charge, has been enriched within the last few years by the purchase of the extensive library of the late Dr. Thilo, Professor of Church History at Halle, Germany, and by large purchases as well in metaphysics as in the various branches of theology. These additions, together with the works in this department previously possessed, constitute a collection second in value to that of no other theological library in the country. The College library is open several hours on every secular day for consultation and for the drawing of books.

The libraries of the College literary Societies, containing 24,000 volumes in general literature, are likewise accessible to theological students. The total number of volumes in the several libraries, which are open to students, is about 70,000.

LICENSES TO PREACH.—Inasmuch as the practice of beginning to preach before the student is well advanced towards the end of his theological course, is attended, as a general rule, with a loss of power, and is productive of more evil than good both to himself and to the churches, the rules of the Department will be conformed to this idea.

Public Worship.—Students, who desire it, are admitted to the privileges of the College Church. Opportunities for benevolent service are afforded in connection with the Mission and Sabbath Schools of the City.

Physical Exercise.—The College Gymnasium is open to the students of this Department at a small charge. The harbor of New Haven affords excellent facilities for boating to those who are inclined to this mode of exercise.

EXPENSES.—A building is provided for the accommodation of students, in which the rooms are free of rent; but each room is subject to a charge of \$5.00 a year for incidental expenses. No other charges are made to the students.

Beneficiary Aid.—Beneficiaries of the American Education Society receive eighty dollars annually. Aid to an equal amount is rendered to a limited number of students from beneficiary funds belonging to the Theological Department. Students who have advanced so far in their course of study as to have obtained a license, have frequent opportunities to preach, with pecuniary compensation.

lei.

in

复

To

选

The students are permitted to attend, free of expense, the Lectures in the Academical Department in the various branches of Physical Science, and, in case they intend to be Missionaries, the Lectures in the Medical Department. Persons who may wish to repair deficiencies in their previous education are provided with an opportunity of doing so, through this arrangement.

Law Department.

THE FACULTY of this Department consists of the President of the College, and two Law Professors, Hon. Henry Dutton, LL. D., and Hon. Thomas B. Osborne, LL. D.

Terms and Vacations.—The year commences on the seventh Monday after Commencement. There is a recess of two weeks, embracing Christmas and New-year's day, and a Spring vacation of three weeks. The summer term commences on the Monday next preceding the first Wednesday in May. Students may enter the School at any time, but it is recommended that they do so as early as practicable after the commencement of the first term.

CLASSES.—The School is divided into classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of the classes, as he finds himself able and inclined to perform the requisite labor.

RECITATIONS, &c.—Two exercises, consisting of Lectures or Recitations, accompanied by oral expositions, are daily given by the Instructors.

The whole course of instruction occupies two years. The following are some of the principal studies of the course:—

Blackstone's Commentaries.
Real Estate.
Personal Property.
Contracts.
Domestic Relations.

Parties to Actions.
Forms of Actions.
Pleading.
Evidence.
Nisi Prius.

ree

able

nds

Bills of Exchange.
Promissory Notes.
Insurance.
Shipping.
Corporations.

Criminal Law. Equity.

Constitution of the United States. Law of Nations. Conflict of Laws.

The students are required to peruse the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

Courses of lectures are delivered by the Instructors, on the most important subjects of Common and Statute Law, and of Equity.

A most Court is held once a week or oftener, which employs the students in drawing pleadings, and investigating and arguing questions of law.

PLEADINGS.—The students are called upon, from time to time, to draw declarations, pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

LEGAL OPINIONS.—They are occasionally required to write disquisitions on some topic of law, and collect the authorities to support their opinions.

LAWS OF PARTICULAR STATES.—The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

LIBRARIES.—The students are furnished with the use of the elementary books, and have access to the College libraries, and to a valuable law library.

EXPENSES.—The terms of tuition, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance, unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

Degree.—The Degree of Bachelor of Laws will be conferred by the President and Fellows, on liberally educated students who have been members of the Department eighteen months, and have complied

with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar. The fee for the diploma is \$5.

Medical Department.

THE FACULTY of the Medical Department consists of the President of the College, a Professor of Surgery, a Professor of Anatomy and Physiology, a Professor of Materia Medica and Therapeutics, a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, and a Professor of Obstetrics.

Instruction is given also in Medical Jurisprudence and in Microscopy.

The annual course of lectures commences on Thursday, (Sept. 17, 1863,) seven weeks after the College Commencement, and continues seventeen weeks.

The Lectures on Chemistry are given at the Chemical Laboratory;

—the Lecture-rooms of the other Professors are in the Medical
College.

A Medical and Surgical Clinique is held every Wednesday, at the Connecticut Hospital, during the Lecture term, at which a variety of cases is presented, for consultation and operations, in presence of the class.

The Medical College building on York street has been carefully planned, so as to afford the most ample and convenient accommodations. The arrangements for Dissections are ample, and subjects are supplied on the most reasonable terms. The Anatomical Museum, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society, the Cabinet of Minerals, and the Libraries of the Medical and Academical Departments, are all open to students.

ACADEMICAL LECTURES.—The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given by Professor Knieht, during the spring term, to the Senior Class in the Academical Department. They also have admission to the various other Lectures in the Academical Department, on paying the fees of the several courses.

of it

EXPENSES.—The Fees, which are required in advance, are \$12.50 for each course, except that on Obstetrics, which is \$6, with a Matriculation fee of \$5—the whole amounting to \$73.50. The tickets of all the Professors, or a part, may be taken in any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another similar Medical Institution, will be admitted to a full course on paying the Matriculation fee. The graduation fee is \$15;—fee for a license, including diploma, \$4.50.

DEGREE.-By the Statutes of the State, the requirements for the Degree of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' study for those who are; attendance upon two full courses of Lectures, either in this Institution, or some other of a similar character; the attainment of twenty-one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candi. date must present a dissertation upon some subject connected with the medical sciences, written in a form prescribed by the Faculty. This Board consists of the Medical Professors of the College, ex officio, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Medical Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The examination is held immediately after the close of the Lectures, when the licenses are granted and degrees conferred.

PRIVATE MEDICAL SCHOOL.

There is a Private Medical School for the purpose of daily recitation. The instructors are Doctors Worthington Hooker, Charles A. Lindsley and Leonard J. Sanford. The year is divided into two terms. The first term corresponds with the course of lectures of the Medical Institution. The second begins in the middle of February and extends to Commencement, having a vacation of a fortnight in the first part of May. Fees for the first term, \$10; for the second, \$40.

Department of Philosophy and the Arts.

In the first section of this Department, entitled the Sheffield Scientific School, the opportunity is afforded of pursuing a General Scientific Course, and special courses in Physics, Chemistry, Natural History, Industrial Mechanics and Engineering. In the second section, special courses are given in History, Philology, Philosophy and Mathematics.

弘

le

100

10

B

A SE

W TH

Dir.

The degrees of Bachelor of Philosophy, Civil Engineer, and Doctor of Philosophy, are conferred in this Department on conditions to be hereafter stated.

FIRST SECTION.

SHEFFIELD SCIENTIFIC SCHOOL.

The Officers of the Scientific School are a Professor of Civil Engineering, a Professor of Natural History, a Professor of General and Applied Chemistry, a Professor ot Industrial Mechanics and Physics, a Professor of Organic Chemistry, a Professor of Modern Languages, a Professor of Metallurgy, a Professor of Analytical and Agricultural Chemistry, an Instructor in Drawing, and an Instructor in Botany and Microscopy. Assistants in Chemistry and Engineering are included in the corps of instructors. Lectures by the President and by the Professors of the Academical, Medical, and Law Departments are also attended by the students of this School.

The following courses of instruction will be hereafter given:

A general course, embracing Mathematics, Physical Science, Modern Languages, Literature, History, Political Economy, and Commercial Law, and extending through three years.

A special course in Chemistry and Natural Science, with Mathematics, French, German, etc., occupying three years.

A special course in Engineering, extending through two years. A higher course in Engineering, occupying an additional year, is also presented in the scheme of study.

The opportunity is afforded of pursuing the study of Natural and Physical Science beyond the limits of the regular courses.

By the liberality of Joseph E. Sheffield, Esq., of New Haven, the School is now provided with a spacious building especially adapted to its purposes, and a large addition to the fund for sustaining its courses of instruction.

The new building of the Scientific School contains, besides the usual recitation and lecture rooms, extensive Analytical and Metallurgical Laboratories, and commodious halls for Agricultural and Technological Museums. The institution is provided, both in its Chemical and Engineering departments, with the most approved apparatus and instruments of research, with numerous diagrams and models, and with extensive mineralogical and metallurgical collections.

TERMS OF ADMISSION.

Applicants for admission to the first year of either course in the Scientific School as candidates for the degree of Bachelor of Philosophy, must be at least sixteen years of age, and must bring satisfactory testimonials of good character. They must also sustain an examination in the following books, or their equivalents:

Arithmetic—Thomson's Higher Arithmetic.
Algebra—Day or Davies.
Geometry—Davies's Legendre.
Plane Trigonometry—Loomis or Davies.
Natural Philosophy—Loomis or Olmsted.
Chemistry—Porter.
English Grammar.
Geography.

Persons desiring to pursue a course including branches taught in Section II. (see page 55) will pass an equivalent examination in branches preparatory to the course they design to pursue.

The same preparation in Latin, which is required for admission to the Freshman Class of the Academical Department is recommended to the student, as facilitating the study of the sciences and of the English, French, and German languages pursued in the Scientific School.

Candidates for advanced standing are examined, in addition to the preparatory studies, in those previously pursued by the class they propose to enter. Any person admitted to an advanced standing, unless

real

Main

Agricultural Chemistry, a Professor of Physical and Political Geography, Instructors in Drawing, Botany and Microscopy, and other assistant teachers.

TERMS OF ADMISSION.

Applicants for admission to the first year of any course in the Scientific School as candidates for the degree of Bachelor of Philosophy, must be at least sixteen years of age, and must bring satisfactory testimonials of good character. They must also sustain an examination in the following books, or their equivalents:

Arithmetic—Thomson's Higher Arithmetic. Algebra—Day or Davies. Geometry—Davies's Legendre. Plane Trigonometry—Loomis or Davies. Natural Philosophy—Loomis or Olmsted. English Grammar. Geography.

An acquaintance with the Latin language is recommended to the student, as facilitating the study of the sciences and of the modern languages pursued in the school.

Candidates for advanced standing are examined, in addition to the preparatory studies, in those previously pursued by the class they propose to enter. Any person admitted to an advanced standing, unless coming from another College, pays the sum of ten dollars as tuition money, for each term which has been completed by the class which he enters. No one can be admitted as a candidate for a degree after the commencement of the last year of the course.

The regular examinations for admission to the Scientific School take place at Sheffield Hall, on the Tuesday preceding Commencement, at 9 o'clock, A. M., and on Wednesday, Sept. 14th, at the same place and hour. Opportunity for private examination may be given at other times.

STUDIES.

By a vote of the Legislature of Connecticut, the proceeds from the sale of lands appropriated to this state by Congress for "the liberal and practical education of the industrial classes" are assigned to the Sheffield Scientific School. It is uncertain at what time any income will be received from this source, and consequently the full adaptation of the school to the requirements of the act of Congress, cannot yet be announced. For the present, the following arrangements are established.

There are four sub-divisions of the school, providing; I, a general course of study in the Mathematics, Natural Sciences, Modern Languages and Literature; II, a special course in Chemistry and Natural

THIRD TERM.

Mathematics-Linear Perspective, and Isometrical Drawing.

Physics-Heat, Electricity, Meteorology. Academical Lectures.

Botany-Lectures and practical exercises in Botany and Vegetable Physiology, with preparation of Herbarium. Gray's Text Book and Manual.

German-Schiller, Goethe.

bost

SECOND YEAR.

FIRST TERM.

Mechanics-Peck's Elements

Geology-Dana's Manual. Academical Lectures.

Logic-Coppée's Elements.

History-Weber's Outlines, with occasional use of Gibbon, Hume, Robertson, etc.

German-Woodbury's Method.

French-Lamartine, Howard's Aids to French Composition.

SECOND TERM.

Astronomy—Norton's Astronomy, with practical problems. Academical Lectures.

Agriculture—Chemistry and General Principles of Agriculture. Lectures.

Anatomy and Physiology-Lectures.

History-Weber's Outlines, etc.

German-Andersen, Fouqué, Schiller.

French-Selections.

THIRD TERM.

Literature-Critical study of classical English authors.

History-History of the United States.

Industrial Mechanics-Lectures on the Steam Engine and other Motors.

Drawing-Free Hand Drawing, Architectural Drawing.

German-Schiller, Goethe.

THIRD YEAR.

FIRST TERM.

History-Guizot's History of Civilization. Lectures.

Mental Philosophy-Hamilton's Metaphysics. Lectures.

English Language-History, Structure and Relations.

Political Economy—Laws of Trade; Forms of Business; Statistics of Agriculture, Commerce and Manufactures.

SECOND TERM.

Moral Philosophy—Stewart's Active and Moral Powers; Butler's Sermons; Whewell's Elements of Morality. Lectures.

Political Philosophy—Political Economy; Lieber's Civil Liberty and Self Government. Lectures.

Constitution of the United States-Lectures.

Theology-Paley's Natural Theology. Butler's Analogy. Lectures.

Physical and Political Geography-Lectures and Recitations.

THIRD TERM.

Political Philosophy-Law of Nations.

Logic-Mill's Logic, Books III and IV. Induction.

Theology-Paley's Evidences of Christianity. Lectures.

Civil Engineering-Lectures on Building Materials.

Commercial Law-Lectures and Recitations in connection with classes in the Law School.

COURSE IN CHEMISTRY AND NATURAL SCIENCE.*

FIRST YEAR.

The studies of the First Year are those of the First Year of the General Course.

SECOND YEAR.

FIRST TERM.

General Chemistry—Miller. Non-Metallic Elements. Academical Lectures.

Geology—Academical Lectures.

Chemical Analysis—Fresenius. Lectures.

Laboratory Practice—Qualitative Analysis.

French and German—(See General Course.)

SECOND TERM.

General Chemistry—Miller. Chemistry of Metals. Lectures.

Laboratory Practice.—Qualitative Analysis, continued. Use of Blowpipe. Examination for poisons. Quantitative analysis, commenced.

French and German—(See General Course.)

THIRD TERM.

Botany—Preparation of Herbarium.

Mineralogy—Dana. Lectures and Practical Exercises.

Organic Chemistry—Miller. Lectures.

Laboratory Practice—Quantitative analysis, continued.

French or German—(See General Course.)

THIRD YEAR.

FIRST TERM.

Metallurgy—Percy. Lectures.
Geology—Dana. Lectures and Recitations.
Physical Geography.—Lectures and Recitations.
Laboratory Practice.—Volumetric and Organic Analysis.
French or German.

SECOND TERM.

Agriculture—Chemistry and General Principles of Agriculture. Lectures.

Microscopy—Lectures and Practical Exercises.

Anatomy and Physiology—Academical Lectures.

Laboratory Practice—Mineral Analysis and Assaying.

French or German.

THIRD TERM.

Industrial Mechanics—Lectures on the Steam Engine and other Motors.

Civil Engineering.—Lectures on Building Materials.

Logic—Mill's System of Logic, Books III and IV. Induction.

Laboratory Practice—Preparation of Thesis.

^{*} This Department is also open to special students in Practical Chemistry, Mineralogy and Metallurgy, who are not candidates for a degree.

COURSE IN ENGINEERING.

FIRST YEAR.

FIRST TERM.

Mathematics—Davies's Analytical Geometry. Davies's Descriptive Geometry. Davies's or Gillespie's Surveying.

Practical Surveying—Adjustment and use of instruments; Field-work; Drawing of plats and charts; Levelling.

Drawing-Geometrical Drawing.

SECOND TERM.

Mathematics—Davies's or Church's Differential Calculus. Davies's Shades and Shadows, and Linear Perspective.

Drawing-Mechanical Drawing. Shading and Tinting.

THIRD TERM.

Mathematics—Differential Calculus, continued. Topographical Surveying, with operations in the field. Spherical Trigonometry.

Drawing—Topographical, Isometrical, and Architectural Drawing.

Astronomy—Academical Lectures.

SECOND YEAR.

FIRST TERM.

Mathematics—Davies's or Church's Integral Calculus. Applications of Differential and Integral Calculus.

Mechanics-Weisbach's Theoretical Mechanics.

Field Engineering—Henck's Field Book for Rail Road Engineers. Location of Roads. Surveys for calculation of excavations and embankments, and for construction of roads.

French or German-(See General Course).

Chemistry-Academical Lectures.

SECOND TERM.

Mechanics-Weisbach's Theoretical Mechanics, continued.

Civil Engineering-Strength of Materials. Haupt's Bridge Construction. Mahan's Civil Engineering.

French or German-(See General Course).

Physics-Academical Lectures.

THIRD TERM.

Mechanics - Weisbach's Mechanics of Machinery and Engineering. Lectures on the Construction, Theory, and Applications of the Steam Engine.

Civil Engineering—Masonry, and Stone Cutting. Graphical Problems in Stone Cutting. Lectures on Building Materials.

Mineralogy and Geology.-Academical Lectures.

HIGHER COURSE IN ENGINEERING.

FIRST TERM.

Mathematics—Navier's Calculus (Vol. II), including Calculus of Variations.

Practical Astronomy—Loomis's Practical Astronomy. Observations with Sextant and
Transit-Circle.

Applied Mathematics-Geodetic Surveying; methods of the U.S. Coast Survey.

SECOND TERM.

Mechanics-Bartlett's Analytical Mechanics.

Practical Astronomy—Loomis's Practical Astronomy, continued. Observations with Zenith Telescope, and Equatorial.

Civil Engineering—Designs for special Rail-Road structures, with specifications, calculations, and drawings.

THIRD TERM.

Mechanics—Bartlett's Analytical Mechanics, continued through Mechanics of Molecules.

Industrial Mechanics—Lectures on the Principles of Mechanism, and on the Steam Engine, Turbines, and other Motors. Reports of examination of Machines and Manufacturing Establishments. Designs for special Machines.

Civil Engineering-Designs for special Structures.

REGULATIONS.

REQUIREMENTS.—Students of the Scientific School are required to board and lodge at such houses as the Faculty may approve. They are expected to conduct themselves in a courteous and gentlemanly manner, both in their intercourse with each other, and with their instructors, and with other members of the several Faculties of the College. Violation of these or other regulations of the Department will render the student liable to dismission from the Institution.

EXPENSES.—The fee for instruction in the Scientific School is one hundred dollars per annum, divided among the several terms as follows: for the first and second terms, each, thirty-five dollars; for the third term, thirty dollars: payable in advance. The student of Analytical Chemistry will be at a charge of fifty-five dollars, per annum, for chemicals, and for use of library and apparatus. He will also supply himself at his own expense with gas, flasks, crucibles, &c., the cost of which should not exceed five to ten dollars per term.

Fee for graduation as Bachelor of Philosophy or Civil Engineer, five dollars; as Doctor of Philosophy, ten dollars.

Examinations.—Examinations are held at the close of each year in the studies of the year.

TERMS AND VACATIONS.—The terms and vacations correspond with those of the Academical Department.

GYMNASIUM.—The sum of three dollars per term is charged to each student who chooses to avail himself of the privileges of the Gymnasium.

SECOND SECTION.

PHILOSOPHY, PHILOLOGY, MATHEMATICS.

Applicants for admission to this section of the Department of Philosophy and the Arts, as candidates for the degree of Bachelor of Philosophy, must sustain an examination in studies preparatory to the course they design to pursue, which shall be equivalent to that required for admission to the Pirst Section.

Bachelors of Arts, Science, and Philosophy, will be admitted to this Section as candidates for the degree of Doctor of Philosophy without examination. Other persons may be admitted as candidates for the same degree, on passing the examination required for the Bachelor's degree, and on payment of an examination-fee of twenty-five dollars.

The studies are optional, and may be selected by the student from the branches named below, or may include branches of science taught in Section First. The course for a degree extends through two years. The requirements for degrees are stated in the next section.

L PHILOSOPHY AND HISTORY.

Political and Social History and International Law, - Pres't Woolsey.

Psychology, Logic, and History of Philosophy, - - Prof. N. PORTER.

History and Criticism of English Literature, - -

II. PHILOLOGY.

Latin and Greek Languages and Literatures, Prof. THACHER and HADLEY.

General Philology, Ethnology, and Oriental Languages, Prof. WHITNEY.

Modern European Languages, - Prof. WHITNEY.

III. MATHEMATICS AND PHYSICS.
Pure and mixed Mathematics,
Astronomy.
Prof. Loomis.

Persons who are not candidates for a degree may be admitted without examination to engage in any studies they are qualified to pursue. Such persons will receive a certificate from the Faculty corresponding to their attainments.

The yearly fee for instruction will not exceed one hundred dollars.

DEGREES IN THE DEPARTMENT OF PHILOSOPHY AND THE ARTS.

Bachelor of Philosophy will be conferred on all members of the department who have completed either the general course, or one of the special courses in the Scientific School, and have passed a satisfactory examination in the course they have pursued. The same degree will be conferred on all members of the department who have spent at least three years in faithful study of selected branches under the direction of the several instructors, and have sustained the final examination. The selection may be made from the studies of either or both sections, but must belong to at least two distinct departments of learning.

CIVIL ENGINEER.—The degree of Civil Engineer is conferred on students of the higher course in Engineering, who have sustained the final examination, and given evidence of their ability to design important constructions and make the requisite drawings and calculations.

Doctor of Philosophy, that they shall faithfully devote at least two years to a course of study selected from branches pursued in the Department of Philosophy and the Arts. The selection may be made from the studies of either or both sections, but must belong to at least two distinct departments of learning.

All persons, who have not previously received a degree furnishing evidence of acquaintance with the Latin and Greek languages, will be required, before presenting themselves for the final examination for the Doctor's degree, to pass a satisfactory examination in these languages, or in such other studies (not included in their advanced course) as shall be accepted as an equivalent by the Faculty.

The degree of Doctor of Philosophy will be conferred on all members of the Department who, having complied with the conditions above stated, shall pass a satisfactory final examination, and present a thesis giving evidence of high attainment in the studies they have pursued.

Mibrary and Cabinet.

THE LIBRARY of Yale College numbers about 41,500 volumes, besides several thousand unbound pamphlets. It is designed for the use of the College officers, Law, Medical, Theological and Philosophical students, Seniors and Juniors. The Library is open daily in term-time from 8 A. M. to 1 P. M.

The Libraries of the Linonian and Brothers Societies number collectively about 24,000 volumes. The Linonian Library is open for consultation Tuesday, Thursday and Saturday, from 9 to 10 A. M. The Library of the Brothers in Unity is open for consultation from 9 to 10 A. M. Monday, Wednesday and Friday. Both the Society libraries are open daily, for the delivery of books, from a quarter before to a quarter after 2 o'clock P. M.
