## GENERAL STATEMENT.

---

### Academatical Department.

---

#### TERMS OF ADMISSION.

Candidates for admission to the Freshman Class are examined in the following books and subjects,—

Cicero—seven Orations.

Virgil—the *Bucolics*, *Georgics*, and the first six books of the *Æneid*.

Sallust—*Catilinarian* and *Jugurthine Wars*.

Latin Grammar—Andrews and Stoddard, Zumpt, or Harkness.

Latin Prosody.

Arnold's Latin Prose Composition, to the Passive voice, (first XII Chapters).

---

Greek Reader—Jacobs, Colton, or Felton.

Xenophon—*Anabasis*, first three books.

Greek Grammar—Hadley, Sophocles, Crosby, or Kühner.

In place of the Greek Reader, the candidate is at liberty to offer the last four books of Xenophon's *Anabasis*, or four books of Homer's *Iliad*.

---

Higher Arithmetic—Thomson, Greenleaf, Eaton, or Ray.

Day's Algebra (Revised Edition), to Quadratic Equations.

Playfair's Euclid, first two books.

English Grammar.

Geography.

Candidates should be *thoroughly prepared* on the first two books of Playfair's Euclid, in order to proceed profitably with the remaining books.

## TIME AND CONDITIONS OF EXAMINATION.

THE regular examination for admission to College takes place on Monday and Tuesday preceding Commencement, beginning at 9 o'clock A. M. on Monday and at 8 o'clock A. M. on Tuesday. The candidates assemble at Graduates' Hall. Another examination will be held at the same place, on Tuesday and Wednesday, September 10th and 11th, 1867, beginning at 9 o'clock A. M.

ADVANCED STANDING.—All candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter. They may present themselves, either at the regular examinations, or in any part of the collegiate term. No one, however, can be admitted to the Senior Class, after the commencement of the second term.

AGE.—No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

TESTIMONIALS.—Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismissal in good standing.

BOND.—Every person, on being admitted, must give to the Treasurer a bond, executed by his parent or guardian, for two hundred dollars, to pay all charges which may arise under the laws of the College.

MATRICULATION.—The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation on satisfactory evidence of good moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

## COURSE OF INSTRUCTION.

THE whole course of instruction occupies four years. In each year there are three terms or sessions.

The members of the several classes meet for recitation and instruction by divisions:—the Senior class consisting of two divisions, the Junior, Sophomore and Freshman classes, of three or four each, according to their numbers.

Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two.

The following scheme gives a general view of the studies pursued in each term:—

Those students, who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose the Differential and Integral Calculus, during the first two terms of Junior Year, in place of the Greek or the Latin studies of those terms.

During the third term of Junior Year, in addition to the required studies of the term, the members of the class receive, at their option, instruction in the French or German Languages, or in select Greek or Latin.

Students who are desirous of pursuing Hebrew, may obtain gratuitous instruction in that language from the Instructor in Hebrew.

---

**VOCAL MUSIC.**

Gratuitous instruction in Vocal Music is given during the year, and the exercises are open to members of all the Departments, subject however to a moderate charge for incidental expenses.

---

**GYMNASIUM.**

The Gymnasium is designed to provide all the students with opportunities for exercise. For the privileges of the same, including instruction, the sum of four dollars a year is charged to each Academical student.

### EXAMINATIONS.

Public examinations of the classes are held at the close of the first and second terms, on the studies of the term; and, at the close of the year, on all the studies of the year.

The annual examinations are conducted wholly in writing, and are continued (except the Senior examination, which extends through two or three weeks) for a period of eight or nine days.

---

### TERMS AND VACATIONS.

THE PUBLIC COMMENCEMENT is held on the last Thursday but one in July of each year. The first term begins eight weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins, this Collegiate year, on the last Wednesday in April and continues till Commencement. The intervening periods, of eight, two and two weeks, are assigned for vacations.

LEAVE OF ABSENCE.—No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions him a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

---

### PUBLIC WORSHIP.

Prayers are attended in the College Chapel every morning, with the reading of the Scriptures and singing, and all the students are required to be present.

Public worship is held in the Chapel on the Sabbath, and all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only by presenting to the President a written request therefor from the parent or guardian.

## EXPENSES.

THE COLLEGE BILLS are made out by the Treasurer three times a year, and are delivered before the close of each term to the students, who are required to present them to their parents or guardians. The bills are payable at the close of the term: but, if they are not paid by the expiration of two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting. All bank notes bankable in New Haven, New York or Boston, and all Government notes issued for currency are received in payment of term bills.

## TREASURER'S BILL.

The annual charges in the Treasurer's bill are,

|                                                                       |                |
|-----------------------------------------------------------------------|----------------|
| For tuition, - - - - -                                                | \$60.00        |
| “ rent and care of half room in College, average of four years, - - - | 20.00          |
| “ expenses of public rooms, ordinary repairs, and incidentals, - - -  | 10.00          |
| “ use of Gymnasium, - - - - -                                         | 4.00           |
| “ Society tax, - - - - -                                              | 6.00           |
|                                                                       | <hr/> \$100.00 |

OTHER CHARGES.—Besides this bill, the student pays \$6.00 for tuition in German or French (as an optional study) during the third term of Junior year, and additional charges at graduation, amounting to \$12.00. If a student occupies a whole room, the charge for rent and care is double that stated above.

ADVANCED STANDING.—Any person admitted to an advanced standing, unless coming from another College, pays the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

ABSENCE ON LEAVE.—A student who is absent from College on leave on account of sickness, or for other cause, and still retains his place in the class, pays full tuition during such absence.

BOARD.—Board is obtained at prices varying from \$3.75 to \$7.00 a week. The average price for the summer of 1866 was \$5.50. Board may be obtained in clubs, by those students who wish it at a lower rate than is common in boarding houses. No student is allowed to be a boarder in any hotel or house of public entertainment.

LODGINGS IN TOWN.—Students who wish to take lodgings in town are permitted to do so; but if, in consequence of this, any of the rooms in College assigned to their class are left vacant, they will be

assessed to the amount of the rent of such rooms. The expense of room rent in private houses is much greater than in College. Students living out of College are not allowed to room in any house or building, in which a family does not reside.

**FURNITURE, BOOKS, &c.**—The students provide for themselves bed and bedding, furniture for their rooms, fuel, lights, books, stationery and washing. If books and furniture are sold when the student has no further necessity for them, the expenses incurred by their use will not be great.

The students also tax themselves various amounts in the several classes and literary societies.

**FUEL** is distributed to those students who apply for it, at cost and charges, and it *must be paid for at the time of ordering.*

**NECESSARY EXPENSES.**—The following may be considered as a near estimate of the *necessary* annual expenses, without including apparel, pocket money, traveling, and board in vacations:—

|                                       |   |   |   |   |   |          |          |
|---------------------------------------|---|---|---|---|---|----------|----------|
| Treasurer's bill (average),           | - | - | - | - | - | \$100    | \$100    |
| Board, 40 weeks,                      | - | - | - | - | - | from 160 | to 280   |
| Fuel and lights,                      | - | - | - | - | - | " 15     | " 25     |
| Use of books recited, and stationery, | - | - | - | - | - | " 10     | " 20     |
| Use of furniture, bed and bedding,    | - | - | - | - | - | " 10     | " 20     |
| Washing,                              | - | - | - | - | - | " 15     | " 25     |
| Total,                                |   |   |   |   |   | \$310    | to \$470 |

**GENERAL EXPENSES.**—With regard to apparel, and what is called pocket money, no general estimate can be made. These are articles in which the expenses of individuals differ most, and in which some are unwarrantably extravagant. There is nothing, by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses, will expose the student to numerous temptations, and will not contribute either to his respectability or happiness.

**COLLEGE GUARDIAN.**—As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of the expenditures, for which services he charges a commission.

**BENEFICIARY FUNDS.**

A SUM exceeding twenty-eight hundred dollars, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of students who need pecuniary aid, especially those who are preparing for the Christian ministry. About seventy have thus their tuition either wholly or in part remitted.

THE *HARMER Foundation of Scholarships*, established by the late THOMAS HARMER JOHNS, Esq., of Canandaigua, N. Y., comprises six scholarships, yielding each \$100 per annum, to be given to deserving students of small means.

There are also twelve other scholarships, most of them yielding \$60 per annum, which may be given to such students as shall be selected by the founders or by the Faculty.

Those who need to avail themselves of the use of the Benevolent Library are supplied gratuitously with most of the text-books used in the College course. These should be applied for at the College Library.

---

**SCHOLARSHIPS.**

THE *BERKELEY SCHOLARSHIP*, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament (Pauline Epistles), the first book of Thucydides, and the first six books of Homer's *Iliad*, Cicero's *Tusculan Questions*, Tacitus (except the *Annals*), and Horace; provided he remain in New Haven as a graduate one, two or three years.

THE *CLARK SCHOLARSHIP*, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the studies of the College course; provided he remain in New Haven one or two years immediately succeeding his graduation, pursuing a course of study (not professional) under the direction of the Faculty.

THE *BRISTED SCHOLARSHIP*, yielding about ninety-nine dollars a year, is awarded, whenever there may be a vacancy, to the student in the Sophomore or Junior Class, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A *SCHOLARSHIP*, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek

of the year, and in the solution of algebraic problems. The successful candidate enjoys the annuity, under certain conditions, during the four years of his College course. The student who stands second at this examination receives for one year the income of the HURLBUT Scholarship, and the student who stands third, the income for one year of the THIRD Freshman Scholarship. The annual income of each of the two latter Scholarships is, at present, \$73.

---

#### PREMIUMS.

THE DEFOREST PRIZE MEDAL, of the value of one hundred dollars, will be awarded "to that scholar of the Senior Class, who shall write and pronounce an English Oration in the best manner."

THE TOWNSEND PREMIUMS, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

THE SENIOR MATHEMATICAL PRIZES, (the first consisting of a gold medal of the value of ten dollars, with ten dollars in money, the second of ten dollars in money,) are given to two members of the Senior Class for the best solution of problems in both abstract and concrete mathematics.

THE CLARK PREMIUMS will be offered, during the present year, for the solution of problems in Practical Astronomy.

THE COLLEGE PREMIUMS are given in the Sophomore Class for English composition, at the end of the first and second terms, in the Sophomore Class for Declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

---

#### DEGREES.

BACHELOR OF ARTS.—The Degree of Bachelor of Arts is conferred on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates for this degree are required to pay their dues to the Treasurer as early as the Monday before Commencement.

MASTER OF ARTS.—Every Bachelor of Arts of three years' or longer standing may receive the Degree of Master of Arts on the payment of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to Commencement.

## Theological Department.

THE FACULTY of this Department consists of the President of the College, a Professor of Didactic Theology, a Professor of Hebrew Literature and Biblical Theology, a Professor of Homiletics and the Pastoral Charge, a Professor of Church History, and a Professor of Sacred Literature.

COURSE OF INSTRUCTION.—The regular course of instruction occupies three years, and is arranged in the following order:—

### Junior Year.

Professor DAY will lecture on the Encyclopedia and Literature of Theology, and give instruction in Hebrew Grammar and Philology. Portions of the historical books of the Old Testament in the original will be carefully read and analyzed, and critical and exegetical dissertations be presented by the class, on points of special difficulty or importance.

Professor DWIGHT will give instruction in the exegetical study of the Greek New Testament. In addition to the regular recitations and exercises, the course includes a series of Lectures on the history of the text, the canon, genuineness of the several books, &c.; and also dissertations of a critical and exegetical character, on various topics connected with this department of instruction, which are presented by the students and discussed in presence of the Class.

Professor PORTER will lecture twice a week upon Metaphysical and Ethical Philosophy, Natural Theology and the evidences of a supernatural revelation, including the inspiration of the Scriptures.

### Middle Year.

Dr. BACON will give instruction in Doctrinal Theology. The Class will be conducted through a course of Readings and Discussions designed to make them familiarly and accurately acquainted with the doctrines of the Christian system, and with existing questions and controversies in relation to that system. The aim of the instruction will be, to prepare the students for their expected work, by helping them to furnish themselves with such a knowledge of Christian doctrine as may enable them to become effective preachers of the gospel.

Professor DAY will lecture on Biblical Theology, with special reference to the progressive stages of Divine revelation, and the doctrinal

results of the modern critical study of the Scriptures. He will also lecture on portions of the Hebrew Scriptures, especially the poetical and prophetical books.

Professor DWIGHT will continue to give instruction by Lectures and Recitations, in the critical study of the New Testament, especially the Epistles of Paul.

Professor FISHER will lecture on General Church History, including the following topics: a historical survey of the Old or Preparatory dispensation in its relation to Christianity; the establishment and spread of Christianity (including Missions and Persecutions); Ecclesiastical Polity, (including the rise and rule of the Papacy); and the History of Christian Life and Worship.

#### **Senior Year.**

Dr. BACON will complete the course of Doctrinal Theology, by a series of Lectures on the Church and its Institutions, with special reference to the Congregational polity and usages.

Professor HOPPIN will lecture on Sacred Rhetoric and Homiletics, and also on Pastoral Theology, including the office, qualifications, pastoral duties and special work of the ministry; he will also take charge of the practical exercises in Preaching, and in the criticism of the style and delivery of Sermons.

Professor FISHER will lecture upon the History of Christian Doctrine and on Symbolical Theology, and students will be aided in pursuing historical investigations for themselves.

#### **Optional Studies in either year.**

Professor DAY will read, free of charge, with those students who desire to become familiar with the theological literature of Germany and have made some progress in the language, some standard work in German on Christian doctrine, with critical remarks and observations, and references to the ablest works on special topics. The grammatical study of the language may be pursued with Professor WHITNEY, who also will give instruction to students who desire it in French and Sanskrit. Exercises in elocution may be obtained from the regular instructor in that branch, in the Academical Department. Instruction in vocal music is given gratuitously to students who desire it.

The following courses of Lectures in the Academical Department may be attended, free of charge, provided only that they must not be allowed to interfere with the regular studies of the Seminary: on His-

*tory and Political Philosophy*, by President WOOLSEY; on *Geology*, by Professor DANA; on *Mental and Moral Philosophy*, by Professor PORTER; on *Chemistry*, by Professor SILLIMAN; on *Natural Philosophy and Meteorology*, by Professor LOOMIS; on *Anatomy and Physiology*, by Professor SANFORD.

**EXERCISES IN PUBLIC SPEAKING.**—There will be an exercise for all the Classes, in the presence of the Faculty, each week, in the reading of the Scriptures and hymns, and in the delivery of sermons, or parts of sermons, or addresses. There will also be a weekly conference, designed to cultivate the power of *extemporaneous speaking*, in which the students will be called on to present their views on some subject selected by the Faculty. The Rhetorical Society, in which weekly debates are held, is conducted by the students, and all the members of the Seminary are invited to join it.

**LIBRARIES.**—The College Library, to which the students have access without charge, has been enriched within the last few years by the purchase of the extensive library of the late Dr. Thilo, Professor of Church History at Halle, Germany, and by large purchases as well in metaphysics as in the various branches of theology. These additions, together with the works in this department previously possessed, constitute a collection second in value to that of no other theological library in the country. The College library is open five hours on every secular day for consultation and for the drawing of books.

The libraries of the College literary Societies, containing 26,200 volumes in general literature, are likewise accessible to theological students. The total number of volumes in the several libraries, which are open to students, is about 77,500.

**DEGREE.**—The degree of Bachelor of Divinity will be conferred by the President and Fellows upon members of the Seminary who have taken at any College the degree of Bachelor of Arts, and who pass the prescribed examination at the end of a three years' course of theological study.

**PHYSICAL EXERCISE.**—The College Gymnasium is open to the students of this Department at a small charge. The harbor of New Haven affords excellent facilities for boating, to those who are inclined to this mode of exercise.

**LICENSE TO PREACH.**—The regular time for applying for a license is at the close of the second year's study, before which members of the Seminary will not be allowed to preach.

**PUBLIC WORSHIP.**—It is left optional with the student whether to connect himself with the College Church, or with one of the Churches in the City; but whatever may be his decision, it is hoped that he will actively engage, so far as may not be inconsistent with the prosecution of his studies, in some form of City Mission, Sabbath School or other benevolent labor, for which constant opportunities are offered.

**EXPENSES.**—Rooms are provided, free of rent, in the *Divinity College*, on the College square. Each room is subject to a charge of \$5 a year for incidental expenses. No other charges of any kind are made to the student. Good board may be obtained at as low a rate as \$4 a week: fuel and lights may be estimated at from \$15 to \$25 a year, or about one half of this sum, when two persons occupy the same room.

**SCHOLARSHIPS AND BENEFICIARY FUNDS.**—There are several Scholarships and other funds belonging to the Seminary, from which aid to the amount of \$80 annually is furnished to approved students, whose circumstances require it. This is exclusive of aid rendered by the American Education Society, amounting to \$100 annually. Assistance to a certain extent may also be furnished from other sources. There are frequent opportunities for those who have obtained a license, to preach with pecuniary compensation. In general it may be said, that sufficient aid can be furnished to every young man who gives promise of usefulness in the ministry, to enable him, with his own efforts, to complete a course of theological study. Persons desiring more particular information are invited to confer verbally or by letter with either of the Professors.

**COMMENCEMENT OF THE TERM, VACATION, ETC.**—The session for 1866-7 commenced on Thursday, Sept. 13th, and continues till the third Thursday in May, when the public Anniversary will be held. The annual examination of the classes, and the meeting of the Alumni, will be held in the same week.

By thus throwing all the vacations into one, as is now done in most of the Theological Schools, the most favorable season of the year is secured for study, while the opportunity is given, in the four months' vacation, to engage in some one of the various forms of benevolent labor, in connection with the mission efforts of the churches, or in the service of one of the benevolent societies, by which the practical experience required in the work of the pastor, as well as pecuniary compensation, may be obtained. Should any of the members of the Semi-

nary, however, prefer to spend the vacation in theological reading, the Professors will freely counsel them in respect to the choice of books.

**CONDITIONS OF ADMISSION.**—The conditions for entrance are hopeful piety and a liberal education at some College or such other literary acquisitions as may be considered an equivalent preparation for theological studies. Students of every Christian denomination, in case they are possessed of these qualifications, are admitted to the privileges of the Seminary.

It is expected that every student will be promptly on the ground at the commencement of the session. Rooms will be assigned in the order of application, but no room will be reserved for any applicant who neglects to appear, beyond one week after the opening of the term.

---

## Law Department.

---

**THE FACULTY** of this Department consists of the President of the College, and a Law Professor, the Hon. HENRY DUTTON, LL. D.

**TERMS AND VACATIONS.**—The year commences on the eighth Monday after Commencement. There is a recess of two weeks, embracing Christmas and New-year's day, and a Spring vacation of three weeks. The summer term commences on the Monday next preceding the first Wednesday in May. Students may enter the School at any time, but it is recommended that they do so as early as practicable after the commencement of the first term.

**CLASSES.**—The School is divided into classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of the classes, as he finds himself able and inclined to perform the requisite labor.

**EXERCISES.**—There are two exercises daily, about equally divided between recitations, accompanied with oral explanations on one part,—and disquisitions by the students, on important topics of law with collection of authorities, moot Courts, and Lectures on International Law, Constitutional Law, Common Law, and Equity, by the President, the Law Professor and a number of other Professors of Law, and Jurists, on the other part.

The whole course of instruction occupies two years. The following are some of the principal studies of the course :—

Blackstone's Commentaries.

Real Estate.

Personal Property.

Contracts.

Domestic Relations.

Parties to Actions.

Forms of Actions.

Pleading.

Evidence.

Nisi Prius.

Bills of Exchange.

Promissory Notes.

Insurance.

Shipping.

Corporations.

Criminal Law.

Equity.

Constitution of the United States.

Law of Nations.

Conflict of Laws.

The students are required to peruse the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

At the moot Courts, which are held once a week or oftener, the students are required to draw the pleadings, and investigate and argue questions of law.

The Senior Class receive instruction in drawing up legal instruments, pleadings, and other proceedings preparatory to the practice of law, at the private room of the Law Professor.

They are also exercised in drawing contracts and other instruments.

**LAWS OF PARTICULAR STATES.**—The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

**LIBRARIES.**—The students are furnished with the use of the elementary books, and have access to the College libraries, and to a valuable law library.

**EXPENSES.**—The terms of tuition, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance, unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

**DEGREE.**—The Degree of Bachelor of Laws will be conferred by the President and Fellows on liberally educated students, who have been members of the Department eighteen months, and have complied with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar. The fee for the diploma is \$5.

## Medical Department.

---

THE FACULTY of the Medical Department consists of the President of the College, a Professor of Surgery, a Professor of Anatomy and Physiology, a Professor of Materia Medica and Therapeutics, a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, and a Professor of Obstetrics.

Instruction is given also in Microscopy.

The annual course of Lectures commences on the second Thursday in September, eight weeks after the College Commencement, and continues seventeen weeks.

All the Lectures are given at the Medical College, excepting those on Chemistry, which are delivered at the Chemical Laboratory.

A Medical and Surgical Clinique is held every Wednesday, at the College, throughout the year, at which a variety of cases is presented for consultation and operations, in presence of the class. Opportunities for clinical instruction are also afforded at the Connecticut Hospital—during the lecture term.

The Medical College, located on York street, has been carefully planned, so as to afford the most ample and convenient accommodations. The arrangements for Dissections are complete, and subjects are supplied on the most reasonable terms. The Anatomical Museum, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society, the Cabinet of Minerals, and the Libraries of the Medical and Academical Departments, are all open to students.

ACADEMICAL LECTURES.—The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given by Professor Sanford during the spring term to the Senior Class in the Academical Department. They also have admission to the various other Lectures in the Academical Department, on paying the fees of the several courses.

EXPENSES.—The fees, which are required in advance, are \$15.00 for each course, except that on Obstetrics, which is \$7.50, with a Matriculation fee of \$5—the whole amounting to \$67.50. The tickets of all the Professors, or of a part, may be taken in any one season. Those who have attended two full courses of Lectures in this Institu-

tion, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another similar Medical Institution, will be admitted to a full course on paying the Matriculation fee. Those who have attended two full courses in any other accredited College, may receive all the tickets, including matriculation, for \$50.00. The graduation fee is \$25.00;—fee for a license, including diploma, \$16.00.

DEGREE.—By the Statutes of the State, the requirements for the Degree of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' study for those who are; attendance upon two full courses of Lectures, one of which shall be in this Institution, and the other, if attended elsewhere at an Institution where a similar course of public instruction is pursued; the attainment of twenty-one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the medical sciences, written in a form prescribed by the Faculty. This Board consists of the Medical Professors of the College, *ex officio*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Medical Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. An examination is held immediately after the close of the Lectures, when the licenses are granted and degrees conferred. Another is held during Commencement week in Yale College, and the degrees are conferred upon Commencement day.

---

#### YALE MEDICAL SCHOOL.

This institution in connection with the College, for the purpose of giving instruction by text-book recitations and otherwise, supplementary to the regular lecture course, commences its Spring term upon the second Wednesday in February, and continues until the last Wednesday but two in July, with a vacation of two weeks in April or May.

Its Winter Term coincides with the course of lectures in the Medical Institution.

During the Winter term, a single recitation upon each branch will be held weekly in review of the lectures of the preceding week.

During the Spring term the range of topics will be more widely extended, and the mode of instruction more demonstrative and experimental, including in the department of Chemistry, practical analysis and the various manipulations of the laboratory.

The Instructors are the Faculty of the Medical College, and Drs. CHARLES L. IVES, MOSES C. WHITE and GEORGE F. BARKER.

For information respecting fees and other particulars application may be made to the Secretary, MOSES C. WHITE, M. D.

## Department of Philosophy and the Arts.

---

This Department is divided into two Sections, the first of which, known as the SHEFFIELD SCIENTIFIC SCHOOL, provides instruction in various departments of Natural Science, and the second provides advanced courses in Mathematics, Philology, History, and Metaphysics.

---

### FIRST SECTION.

#### SHEFFIELD SCIENTIFIC SCHOOL.

The Sheffield Scientific School furnishes systematic instruction in various branches of Natural Science. The courses of study are so arranged as to secure proficiency in certain specified departments, and also to promote the intellectual discipline and literary culture of the students. By the liberality of JOSEPH E. SHEFFIELD, Esq., of New Haven, a commodious building was provided for the school several years ago, and, within a short time past, at the expense of the same gentleman, this edifice has been greatly enlarged and improved. It includes recitation and lecture rooms for all the departments, a hall for public assemblies and lectures, a room for the drawing classes, laboratories for chemical and metallurgical investigations, a photographic room, two astronomical towers, a museum, a library and reading room, and also studies for some of the professors, where their private technical libraries and collections are kept.

The resources of this institution have been increased by other generous gifts, and, in 1863, by an Act of the State of Connecticut, were enlarged by a fund derived from the sale of public lands granted by Congress for the promotion of scientific education.

The Governing Board of the Scientific School consists of the President of Yale College, a Professor of Civil Engineering and Mathematics, a Professor of Geology and Mineralogy, a Professor of General and Applied Chemistry, a Professor of Industrial Mechanics and Physics, a Professor of Modern Languages, a Professor of Mineralogy and Metallurgy, a Professor of Analytical and Agricultural Chemistry, a Professor of Physical and Political Geography, a Professor of Agriculture, a Professor of Mining, a Professor of Botany, a Professor of Palæontology, and a Professor of Zoölogy. Other Instructors are employed in Military Science, Chemistry, Physics, Mathematics, Drawing, and other branches.

#### TERMS OF ADMISSION.

The pupils of the scientific school are thus classified: *first*, those who are pursuing a systematic and prescribed course of study, extending through three years, and leading to the degree of Bachelor of Philosophy; *second*, those who have already been admitted to the degree of Bachelor of Philosophy, Science, or Arts, and are pursuing an advanced course of study leading to the degree of Doctor of Philosophy, or in some cases to the degree of Civil Engineer; and *third*, special students, who have already made a certain degree of proficiency in some department of science, and are now pursuing special scientific studies under the personal direction of some of the professors.

All applicants for admission must be not less than sixteen years of age, and must bring satisfactory testimonials of good character. Students intending to enter on the higher and special courses of study, must exhibit satisfactory evidence of their fitness to take up the branches they propose to pursue.

Students desiring to go through any one of the prescribed three-year courses of the school, as candidates for the degree of Bachelor of Philosophy, must sustain an examination in the following books, or their equivalents:

*Arithmetic*—Thomson's Higher Arithmetic. *Algebra*—Davies, as far as General Theory of Equations. *Geometry*—Davies's Legendre.\* *Plane Trigonometry*, including Analytical Trigonometry—Loomis or Davies. *The elements of Natural Philosophy*—Loomis or Olmsted. *English Grammar, Geography, and the History of the United States*.

\* Playfair's Euclid is not accepted as an equivalent.

An acquaintance with the Latin language is recommended to the student, as facilitating the study of the sciences and of the modern languages pursued in the school; and, although this is not yet required as a condition of admission, it will probably be so at an early day.

In consequence of the incomplete preparation of many of the candidates, it is proper to say that the examination for admission is strict and full. As the studies just named are not pursued in the school, and are essential to successful progress, no one can be received as a scholar who is not well acquainted with these branches.

Candidates for advanced standing are examined, in addition to the preparatory studies, in those already pursued by the class they propose to enter. Any person admitted to an advanced standing, unless coming from another College, pays the sum of ten dollars as tuition money for each term which has been completed by the class which he enters. No one can be admitted as a candidate for a degree after the commencement of the last year of the course.

The regular examinations for admission to the Scientific School take place at Sheffield Hall, on the Tuesday preceding Commencement (Tuesday, July 17, 1867), at 8 o'clock, A. M., and eight weeks later, on that Wednesday in September (Wednesday, Sept. 11, 1867) on which the fall term begins. Opportunity for private examination may, in exceptional cases, be given at other times.

### REGULAR COURSES OF STUDY.

The regular courses of instruction which lead to the degree of Bachelor of Philosophy occupy a period of three years. During the first, or Freshman year, all the students pursue the same studies. At its close, they are required to select one of the below mentioned courses of study, and they are not allowed to change from one course to another except by special permission. Examinations are held at the end of every term on the studies of the term, and at the close of every year on the studies of the year.

The following separate courses of study are now provided for the Junior and Senior years:

- |                              |                                             |
|------------------------------|---------------------------------------------|
| 1. Chemistry and Mineralogy. | 5. Agriculture.                             |
| 2. Civil Engineering.        | 6. Natural History and Geology.             |
| 3. Mechanics.                | 7. Select Course in Literature and Science. |
| 4. Mining and Metallurgy.    |                                             |

The arrangement of the studies is indicated in the annexed scheme.

## FRESHMAN YEAR.

## INTRODUCTORY TO ALL THE COURSES OF THE SCHOOL.

## FIRST TERM.

*Mathematics*—Davies's Analytical Geometry. Spherical Trigonometry. Surveying  
*Physics*—Silliman's Principles. *English Language*—Rhetoric. Exercises in Composition.  
*Chemistry*—Wells. *German*—Woodbury's Method, and Reader.

## SECOND TERM.

*Mathematics*—Descriptive Geometry, and Geometrical Drawing. *Physics*—Silliman's  
 Principles, continued. Academical Lectures. *English Language*—Rhetoric. Exercises  
 in Composition. Practical exercises in Elocution. *Chemistry*—Wells. *German*—Wood-  
 bury continued. Select authors. *Botany*—Gray's First Lessons.

## THIRD TERM.

*Mathematics*—Principles of Perspective. *Physics*—Silliman's Principles, concluded.  
 Academical Lectures. *Chemistry*—Wells. *Botany*—Excursions and practical exercises  
 in analyzing flowering plants. Gray's Manual. *German*—Selections from classical  
 authors. *Drawing*—Free Hand.

## I. COURSE IN CHEMISTRY AND MINERALOGY.

## JUNIOR YEAR.

## FIRST TERM.

*General Chemistry*—Miller: Non-Metallic Elements. Recitations and Academical  
 Lectures. *Chemical Analysis*—Fresenius. Recitations and Lectures. *Laboratory Prac-  
 tice*—Qualitative analysis. *French and German*—(See Select Course).

## SECOND TERM.

*General Chemistry*—Miller: Chemistry of Metals. Recitations and Lectures. *Labora-  
 tory Practice*—Qualitative Analysis, continued. Use of Blowpipe. Examination for poi-  
 sons. Quantitative analysis, commenced. *Zoology*—Lectures. *French and German*—  
 (See Select Course).

## THIRD TERM.

*Botany*—Lectures on special subjects; Preparation of Herbarium. *Mineralogy*—  
 Dana. Lectures and Practical exercises. *Organic Chemistry*—Miller. Recitations  
 and Lectures. *Laboratory Practice*—Quantitative analysis, continued. *French*—(See  
 Select Course).

## SENIOR YEAR.

## FIRST TERM.

*Metallurgy*—Percy. Lectures. *Geology*—Dana. Lectures and Recitations. *Labora-  
 tory Practice*—Volumetric and Organic Analysis. *French*—Selections.

## SECOND TERM.

*Metallurgy*—Lectures. *Agriculture*—Chemistry and General Principles of Agriculture.  
 Lectures. *Geology*—Dana. *Anatomy and Physiology*—Academical Lectures. *Labora-  
 tory Practice*—Mineral Analysis and Assaying. *French*—Selections. *Mechanics*—Lec-  
 tures on the Steam Engine.

## THIRD TERM.

*Mechanics*—Lectures on the Steam Engine and other Prime Movers. *Civil Engineering*—Lectures on Building Materials. *Laboratory Practice*—Preparation of Thesis.

## II, III. COURSES IN CIVIL ENGINEERING AND MECHANICS.

## JUNIOR YEAR.

A. *Civil Engineering.*

## FIRST TERM.

*French and German*—(See Select Course.) *Mathematics*—Descriptive Geometry (Church's), with applications. Analytical Geometry of Three Dimensions. *Surveying*—Higher Surveying. *Drawing*—Topographical.

## SECOND TERM.

*French*—(See Select Course.) *Mathematics*—Davies's Shades, Shadows, and Linear Perspective. Differential Calculus. *Astronomy*—Norton's Astronomy, with practical problems.

## THIRD TERM.

*French*—(See Select Course.) *Mathematics*—Isometrical Projection. Differential and Integral Calculus. *Topographical Surveying*. *Drawing*—Topographical and Mechanical.

B. *Mechanics.*

The same as the course in Civil Engineering, with the omission of Higher Surveying, Topographical Surveying, Topographical Drawing, and Astronomy, and the substitution of *Mechanics* (Peck's Elements), Mechanical Drawing, Metallurgy, and Principles of Mechanism.

## SENIOR YEAR.

A. *Civil Engineering.*

## FIRST TERM.

*French*—Selections. *Field Engineering, and Surveying*—Henck's Field Book for Rail Road Engineers. Location of Roads. Geodetic Surveying. *Mechanics*—Peck's Elements. Thermodynamics. *Geology*—Dana. *Drawing*—Architectural.

## SECOND TERM.

*Mechanics*—Peck's Elements (continued). Application of Calculus to Mechanics. Principles of Mechanism. Theory of Steam Engine. *Civil Engineering*—Strength of Materials. Bridge Construction. Stability of Arches. Stone Cutting, with graphical problems. *Geology*—Dana (continued).

## THIRD TERM.

*Mechanics*—Mechanics applied to Engineering (Weisbach, Vol. II.). Prime Movers. *Civil Engineering*—Stone Cutting (continued). Building Materials (Lectures). Designs of Structures. Mahan's Civil Engineering. *Drawing*—Structural.

**B. Mechanics.****FIRST TERM.**

Analytical Mechanics. Machinery. Thermodynamics. *Drawing*—Architectural.

**SECOND TERM.**

Analytical Mechanics (continued).—Strength of Materials. Theory and Construction of Steam Engine. Examination and Reports of Machines. Mechanical Practice.

**THIRD TERM.**

Prime Movers. Mill work. Designs of Machines.

**IV. COURSE IN MINING AND METALLURGY.****JUNIOR YEAR.****FIRST TERM,**

*French and German*—(See Select Course). *Mathematics*—Descriptive Geometry (Church's). *Mechanics*—Peck's Elements. *Geology*—Dana. *Drawing*.

**SECOND TERM.**

*French and German*—(See Select Course). *Mathematics*—Davies's Shades, Shadows, and Linear Perspective. *Mechanics*—Peck's Elements (continued). Principles of Mechanism. Theory of Steam Engines. *Civil Engineering*—Strength of Materials. Stability of Arches. Stone Cutting, with graphical problems. *Geology*—Dana (continued).

**THIRD TERM.**

*French*—(See Select Course). *Mathematics*—Isometrical Projection. *Mechanics*—Mechanics applied to Engineering. *Surveying*—Higher and Topographical Surveying. *Drawing*—Topographical.

**SENIOR YEAR.****FIRST TERM.**

*Mining*—Lectures. *General Metallurgy*—Lectures. *General Chemistry*—Miller: Non-Metallic Elements. Recitations and Academical Lectures. *Chemical Analysis*—Fresenius. Recitations and Lectures. *Laboratory Practice*—Qualitative Analysis. *French*—(See Select Course). *Drawing*—Architectural and Mechanical.

**SECOND TERM.**

*Mining*—Lectures. *Special Metallurgy*—Lectures. *General Chemistry*—Miller, Chemistry of Metals. Recitations and Lectures. *Laboratory Practice*—Qualitative Analysis (continued). Use of Blowpipe. Quantitative Analysis (commenced). *Assaying*. *Zoology*—Lectures. *French*—(See Select Course). *Drawing*—(continued).

**V. COURSE IN AGRICULTURE.****JUNIOR YEAR.****FIRST TERM.**

*Agriculture*—Chemistry, Structure, and Physiology of the Plant. Water, Atmosphere, and Soil, in their Relations to Vegetable Production. Improvement of the Soil. Tillage, Draining, Amendments, and Fertilizers. Lectures. *Experimental and Analytical Chem-*

*istry*--in their Agricultural Applications. Daily Laboratory Practice. *Zoology*—Lectures. *French*—commenced. *German*—Woodbury's Method. *Meteorology*.—Academical Lectures.

#### SECOND TERM.

*Agriculture*—Chemistry and Physiology of Domestic Animals. Digestion, Respiration, Assimilation, and Excretion. Composition, preparation, and value of the kinds of Fodder. Milk, Butter, Cheese, Flesh, and Wool, as Agricultural products. Lectures. *Experimental Chemistry*—Laboratory Practice. *French and German*—continued. *Physical Geography*—Lectures. *Zoology*—Lectures.

#### THIRD TERM.

*Horticulture and Kitchen Gardening*—Propagation, training and culture of Fruit Trees, the Vine, small Fruits and Vegetables. Lectures. *Mineralogy*—Lectures and practical exercises. *Experimental Chemistry*—Laboratory Practice. *French or German*—continued. *Drawing*—Free Hand practice. *Excursions*—Botanical, Zoölogical, &c.

### SENIOR YEAR.

#### FIRST TERM.

*Agriculture*—The staple grain, forage, root and fiber crops of the Northern States, their varieties, soils adapted for them. Preparation of soil, seeding, cultivation, harvesting, and preparation for market. Lectures. *Agricultural Zoölogy*—Origin and Natural History of Domestic Animals. Insects useful and injurious to Vegetation. Lectures. *Geology*—Dana's Manual. *French or German*—Selections. *Excursions*—Agricultural, Zoölogical, Geological, &c.

#### SECOND TERM.

*Agriculture*—Raising and Care of Domestic animals, characteristics and adaptation of Breeds. Cattle for Beef and Draught. The Dairy. Sheep for wool and mutton. Horses, Swine. Pasturing, soiling, stall feeding. Tobacco, Hops, &c. Lectures. *Forestry*—Preservation, culture, and uses of Forests and Forest Trees. Lectures. *Human Anatomy and Physiology*—Lectures. *Agricultural Botany*—Weeds and Noxious Plants. Lectures. *French or German*.

#### THIRD TERM.

*Rural Economy*.—History of Agriculture and Sketches of Husbandry in Foreign Countries. Adaptation of farming to soil, climate, market, and other natural and economical conditions. Systems of Husbandry. Stock, sheep, grain, and mixed farming. Lectures. *Excursions*—Agricultural, Geological, Zoölogical, and Botanical. *Examinations* in the studies of the course.

### *Shorter Course in Agriculture.*

For this course the instruction is so arranged that the more important topics, viz: Practical Agriculture, Agricultural Chemistry and Physiology, Agricultural Zoölogy, Physical Geography, Forestry, &c., are discussed during the fall and winter terms of each year (September to April, with vacation of two weeks at the holidays). Those who desire can thus attend, during seven months of the year, such a selection of the most useful exercises from the studies of the Full Course as will occupy their time profitably.

## VI. COURSE IN NATURAL HISTORY AND GEOLOGY.

In this course Geology or Botany may be made the leading study in place of Laboratory Practice in Zoölogy.

## JUNIOR YEAR.

## FIRST TERM.

*Zoölogy*—Daily laboratory instruction; *Zoölogical Excursions*. *Chemistry*—Academical Lectures. *French*—Fasquelle's Course. *German*—Selections.

## SECOND TERM.

*Zoölogy and Palæontology*—Laboratory Practice. Lectures. *Physical Geography*—Lectures and Recitations. *Chemistry*—Laboratory Practice. *French and German*—continued.

## THIRD TERM.

*Zoölogy and Palæontology*—Laboratory Practice. Lectures, Excursions (land and marine). *Botany*—Preparation of Herbarium. Excursions. *Mineralogy*—Dana, Lectures and Practical Exercises. *French*—continued. *Drawing*—Free Hand Practice.

## SENIOR YEAR.

## FIRST TERM.

*Zoölogy and Palæontology*—Laboratory Practice, Lectures, Excursions. *Geology*—Dana's Manual, Excursions. *Meteorology*—Academical Lectures. *French*—Selections.

## SECOND TERM.

*Zoölogy and Palæontology*—continued. *Geology*—Dana, Recitations and Lectures. *Anatomy and Physiology*—Academical Lectures. *French*—Selections.

## THIRD TERM.

*Zoölogy and Palæontology*—continued, with Excursions. *Photography*—Practical Instruction. *Preparation of Thesis*. *Examinations* in the studies of the course.

In addition to the regular courses of lectures on structural and systematic Zoölogy, and on practical Entomology and other special subjects, students are taught to prepare, arrange, and identify various collections, to make dissections and pursue original investigations. For these purposes large collections in Zoölogy and Palæontology belonging to the College Cabinet are available.

## VII. SELECT COURSE IN SCIENTIFIC AND LITERARY STUDIES.

## JUNIOR YEAR.

## FIRST TERM.

*Mechanics*—Peck's Elements. *History*—Weber's Outlines, with occasional use of Gibbon, Hume, Robertson, etc. *German*—Selections. *French*—Fasquelle's Course, De Fivas's Reader.

## SECOND TERM.

*Astronomy*—Norton's *Astronomy*, with practical problems. *Agricultural Chemistry*—Lectures. *Physical Geography*—Lectures and Recitations. *Zoology*—Lectures. *History*—Weber's Outlines, etc. *German*—Selections. *French*—Fasquelle, DeFivas. Selections from Classic Authors.

## THIRD TERM.

*Botany*—Preparation of Herbarium (continued). Lectures on special subjects. *Zoology*—Excursions and Lectures. *Mineralogy*—Dana. *Literature*—Critical study of classical English authors. *Drawing*—Free Hand, and Architectural. *French*—Selections.

## SENIOR YEAR.

**LANGUAGE.**—*French or German*, continued. Lectures on Language and Linguistic Ethnology. Compositions.

**NATURAL SCIENCE.**—*Botany and Zoology*, continued. *Geology*—Recitations and Lectures. *Meteorology*—Lectures. *Human Anatomy and Physiology*—Lectures. *Astronomy*—Lectures.

**PHILOSOPHY AND HISTORY.**—Lectures and Recitations, in *History and Political Philosophy, International Law, Political Economy, Ethics, and Metaphysics*.

Examination for the degree. Preparation of a graduating thesis.

## HIGHER AND PARTIAL COURSES OF STUDY.

In addition to the three-year courses of study already delineated, arrangements are made in all the sections of the school (except the Select Course) for the reception of advanced students who desire to pursue a higher or a partial course of study. Such persons may offer themselves as candidates for the degree of Doctor of Philosophy, in accordance with the regulations of the Corporation (see page 64), or they may pursue plans of study adapted to their individual requirements and attainments, and extending through a longer or shorter time, without reference to an academic degree. Such students must enrol themselves under the guidance of one or more of the Professors, who will be responsible for their instruction. This arrangement is made to meet the wants of graduates of this and other institutions, and of other persons who have already made such attainments as will fit them to profit by special scientific courses.

The Chemical and Metallurgical laboratories afford facilities for prosecuting nearly all departments of chemical research. Students prepared to undertake original investigations will be furnished with the best apparatus, with the use of the private libraries of the Professors, and will receive all practicable aid by way of advice. The private cabinet of the Professor of Mineralogy is also accessible to such as wish to make a speciality of this science. In Geology, Zoology, and

Botany ample facilities are afforded by access to the private collections and libraries of the instructors as well as the collections in the College Cabinet and Sheffield Scientific School, for the prosecution of original researches in each branch of Natural History.

In Astronomy, the facilities for Observatory practice have recently been greatly increased by the purchase of important instruments, and the erection of suitable structures for their accommodation. Students in Practical Astronomy, and those in the Higher Course of Engineering, are trained in the use of the principal instruments employed in regular Observatories, and in Astronomical Geodesy. The instruments already provided are, a Pistor and Martin's Patent Sextant—a three-foot Transit Instrument with twelve inch circle, which is used also as a Zenith Telescope for determining latitude—a five-foot Achromatic Telescope, of four and two-thirds inches aperture, by Alvan Clark & Sons—a ten-foot Equatorial Telescope, of nine inches aperture, by the same makers, with driving clock and position micrometer—also, a forty-inch Meridian Circle, with five-foot telescope, and four reading microscopes—together with a Sidereal Clock, and an eight-day Chronometer.

A Higher course in Civil Engineering has been arranged to occupy one year, leading to the degree of Civil Engineer.

### LECTURES.

Lectures are annually given in the different sections on the following topics. Persons not members of the School may be admitted by permission of the lecturer.

#### FIRST TERM.

- On Metallurgy, by Prof. BRUSH.
- On Mining, by Prof. ROCKWELL.
- On Practical Agriculture, by Prof. BREWER.
- On Agricultural Chemistry and Physiology, by Prof. JOHNSON.
- On the History of Language and Linguistic Ethnology, by Prof. WHITNEY.
- On Entomology, by Prof. VERRILL.

#### SECOND TERM.

- On the Strength of Materials, by Prof. NORTON.
- On Metallurgy (continued), by Prof. BRUSH.
- On Mining (continued), by Prof. ROCKWELL.
- On Practical Agriculture (continued), by Prof. BREWER.
- On Agricultural Chemistry and Physiology (continued), by Prof. JOHNSON.
- On Botany, by Prof. EATON.

On Structural and Systematic Zoölogy, by Prof. VERRILL.

On the History of Language and Linguistic Ethnology (continued), by Prof. WHITNEY.

On Physical Geography, by Prof. GILMAN.

On Military Science and Tactics, by Gen. A. VON STEINWEHR.

On the Principles of Mechanism, by Prof. LYMAN.

#### THIRD TERM.

On Mineralogy, by Prof. BRUSH.

On Rural Economy and Farm Management, by Prof. BREWER.

On Structural and Systematic Zoölogy (continued), by Prof. VERRILL.

On the Steam Engine, by Prof. LYMAN.

A course of practical lectures to mechanics was given by the Professors in the School last winter, and will be repeated at an early day.

**APPARATUS AND LIBRARY.**—The college libraries, numbering collectively more than seventy thousand volumes, and the college collections in geology, mineralogy, and natural history are open to the students of this department. In addition, the school is provided with physical and chemical apparatus, models in engineering, architecture, and mechanics, diagrams and maps, and a large collection of metallurgical specimens and products. To promote the study of astronomy, a refracting telescope manufactured by Messrs. A. Clark & Sons of Cambridge and a meridian circle have been lately presented by Mr. SHEFFIELD. Two private herbaria are accessible to students of Botany.

By the liberality of a few gentlemen interested in the school a good collection of scientific books and journals has already been commenced, and henceforward the library will be annually increased by the income of the Sheffield Library Fund. This collection will be chiefly made up of reference books in the various sciences pursued in the school.

**PRIZES.**—The Berzelius Trust Association has placed in the hands of the officers of the school a sum of money to be awarded for the best essays on scientific themes presented to the Faculty. Two such prizes will be awarded during the coming year, the first \$30 in gold; the second \$20 in gold. By the liberality of a friend of the School, another prize of \$20 in gold will be awarded this year on terms similar to those of the Berzelius Prizes.

Professor SILLIMAN has likewise offered an annual gift of \$100 in gold, to be awarded during the next two years, in prizes for the best chemical researches.

**TERMS AND VACATIONS.**—The terms and vacations correspond with those of the Academical Department.

**GYMNASIUM.**—Each student who chooses to avail himself of the privileges of the Gymnasium is charged for the same six dollars per year, or if he pays by the term, at the rate of seven dollars per year.

## SECOND SECTION.

### PHILOSOPHY, PHILOLOGY, MATHEMATICS.

Applicants for admission to this Section of the Department of Philosophy and the Arts, as candidates for the degree of Bachelor of Philosophy, must sustain an examination in studies preparatory to the course they design to pursue, which shall be equivalent to that required for admission to the First Section.

Bachelors of Arts, Science, and Philosophy, will be admitted to this Section as candidates for the degree of Doctor of Philosophy without examination. Other persons may be admitted as candidates for the same degree, on passing the examination required for the Bachelor's degree, and on payment of an examination-fee of twenty-five dollars.

The studies are optional, and may be selected by the student from the branches named below, or may include branches of science taught in Section First. The course for a degree extends through two years. The requirements for degrees are stated in the next section.

#### I. PHILOSOPHY AND HISTORY.

|                                                     |       |                 |

| Psychology, Logic and History of Philosophy,        | - -   | Prof. PORTER.   |
| History and Criticism of English Literature,        | - - - | Prof. NORTHBOP. |

#### II. PHILOLOGY.

|                                                      |         |                                    |
|------------------------------------------------------|---------|------------------------------------|
| Latin and Greek Languages and Literatures,           | }       | Prof. THACHER, HADLEY and PACKARD. |
| General Philology, Ethnology and Oriental Languages, |         |                                    |
| Modern European Languages,                           | - - - - | Prof. WHITNEY.                     |

#### III. MATHEMATICS AND PHYSICS.

|                             |         |               |

| Pure and mixed Mathematics, | - - - - | Prof. NEWTON. |
| Astronomy,                  | - - - - | Prof. LOOMIS. |

Persons who are not candidates for a degree may be admitted without examination to engage in any studies they are qualified to pursue. Such persons will receive a certificate from the Faculty corresponding to their attainments.

The yearly fee for instruction will not exceed one hundred dollars.

### Degrees in the Department of Philosophy and the Arts.

**BACHELOR OF PHILOSOPHY.**—The degree of Bachelor of Philosophy will be conferred on those who have completed one of the courses in the Scientific School, and have passed the examination at its close. The same degree will be conferred on other members of the department who have spent at least three years in faithful study of selected branches under the direction of the several instructors, and have sustained the final examination. The selection may be made from the studies of either or both Sections, but must belong to at least two distinct departments of learning.

**CIVIL ENGINEER.**—The degree of Civil Engineer is conferred on students of a higher course in Engineering (occupying one year), who have sustained the final examination, and given evidence of their ability to design important constructions and make the requisite drawings and calculations.

**DOCTOR OF PHILOSOPHY.**—For the purpose of encouraging those who have been admitted to a Bachelor's degree to continue a course of higher studies under the direction of the Faculty, the Corporation will confer the degree of Doctor of Philosophy upon the following conditions.

Persons desiring to be admitted to this degree must remain in New Haven at least two academic years after receiving their first degree, during which they must engage faithfully in a course of study selected, with the approval of the Faculty, from branches pursued in the department of Philosophy and the Arts. The selection may be made from the studies of either or both Sections, but must belong to at least two distinct departments of learning. At the close of the course the candidate must pass a satisfactory examination, and present a thesis giving evidence of high attainment in the studies to which he has attended.

All persons, who have not previously received a degree furnishing evidence of acquaintance with the Latin and Greek languages, will be required, before presenting themselves for the final examination for the Doctor's degree, to pass a satisfactory examination in these languages, or in such other studies (not included in their advanced course) as shall be accepted as an equivalent by the Faculty.

## Library and Cabinet.

THE LIBRARY of Yale College numbers about 46,300 volumes, besides several thousand unbound pamphlets. It is designed for the use of the College officers, resident graduates, Law, Medical, Theological and Philosophical students, Seniors and Juniors. Other persons also may have the privilege of consulting the Library and drawing books from it, by obtaining the permission of the Library Committee. The Library is open daily in term-time from 10 A. M. to 1 P. M.; and from 3 P. M. to 5 P. M., or during the winter months from 2½ P. M. to 4½ P. M.

The Libraries of the Linonian and Brothers Societies number collectively about 26,200 volumes. The Linonian Library is open for consultation Tuesday, Thursday and Saturday, from 10½ to 11½ A. M. The Library of the Brothers in Unity is open for consultation from 10½ to 11½ A. M. Monday, Wednesday and Friday. Both the Society libraries are open daily, for the delivery of books, from a quarter before to a quarter after 2 o'clock P. M.

The Law, Medical and Scientific Schools have each a special library, accessible to the students of those schools.

The Library of the American Oriental Society, numbering 2,500 printed books and manuscripts, is now kept in the Library of Yale College.

THE COLLEGE CABINET embraces an extensive and valuable collection of minerals, systematically arranged; a collection of fossils arranged according to their geological succession, besides large collections of fossils not yet arranged for exhibition; and a valuable Zoölogical collection, of which only a small part can, at present, be exhibited for lack of room.

The collections, especially in Zoölogy and Palæontology, have been largely increased within the past year, and important additions are rapidly coming in.

The exhibition hall is free to students and the public. The key may be obtained at the Treasurer's Office, Trumbull Gallery.
