Press Statement

Bank Indonesia
In connection with the growing issue of banks not participating in clearing today (Thursday, 13 November 2008), it is hereby emphasized that today there is only 1 (one) bank, namely PT Bank Century Tbk which did not participate in clearing due to a problem technical.

However, the bank’s transactions through the Real Time Gross Settlement (RTGS) system are still running normally. Thus, the non-participation of the bank concerned in clearing will not disrupt the smooth operation of the payment system and the banking system as a whole.

It is estimated that these technical problems can be resolved soon and PT Bank Century Tbk can resume normal clearing tomorrow.

Furthermore, it is hoped that the wider community will remain wise in responding to news whose sources are unclear.

Jakarta, 13 November 2008
