1948 COMMENCEMENT PROGRAM

The following events of the commencement week at Yale University will be of interest to Yale School of Nursing alumnae:

Sunday, June 20

11 A. M. Baccalaureate Address by the President, Woolsey Hall.

4:30 P. M. Reception by the President of the University and Mrs. Seymour for members of the graduating classes and their families and visiting alumni, Old Campus.

8:30 P. M. Concert by the Glee Club, Woolsey Hall.

Monday, June 21

Reunions of the Y.U.S.N. Classes of 1928, 1933, 1938 and 1943. (Members will be notified directly of time and place. Those from a distance who may be in the vicinity and wish to attend, but who may not have received a return card for reservations, are asked to notify the Alumnae Office so that necessary reservations may be made for them.)

2:30 P. M. Annual Meeting, Brady 107.

6:30 P. M. Commencement Dinner, Seven Gables Towne House. Speaker: Mrs. Sidonie Gruenberg, Director of the Child Study Association of America. It is hoped that as many as can will come in formal attire, although dress is optional.

Tuesday, June 22

9:30 A. M. Assembly of candidates for graduate and professional degrees, faculty, and alumni, Old Campus.

10:30 A. M. Commencement Exercises, Woolsey Hall.

12:30 P. M. Alumni Luncheon, University Dining Hall.

DATA FROM THE DEAN
Spring brings not only daffodils but faculty resignations. Our resultant sorrows are tempered only by the thought that we are being generous (!) and that they will spread their good works and good influence wherever they go.

Martha Jayne '36 is leaving June 1 to become the first Dean of the new School of Nursing at the University of Bridgeport. It begins to look as though Yale has a corner on Deans in Connecticut. We congratulate Martha Jayne and Bridgeport.

Helen Hallfort '39 leaves Pediatrics this summer, but we are glad to report that Pauline Kummer '44 is carrying on in her place. Miss Finkelstein (Nutrition), Miss Abdellah (Nursing Arts), and Margaret Perry '45 (Medicine) have the urge to go to school for further book-learning.

You will all be glad to hear that Jean MacLean '33 is returning to take over the Nursing Arts department. She gets her Master's degree at Chicago this June. Dorothy Bird (B.S. in Nursing Education, Teachers' College, Columbia University, 1948) and Beatrice Stanley (B.S. Teachers' College, Columbia University, 1948) are two new faculty members. Miss Bird is the new Supervisor in the Dispensary and Miss Stanley is Supervisor of Supplies and Equipment in the Nursing Office. Juanita Booth (B.S. University of California 1940) will be Assistant Professor of Medical Nursing beginning July 1. She is at present Assistant Supervisor in the Medical Service, so she comes to her teaching position well oriented to the administrative aspects of her job.

Miss Helen Parker (Operating Room) left May 1 to assist with the teaching program in a school of nursing in Quito, Ecuador, under the Institute of Inter-American Affairs. Replacing her at New Haven Hospital will be Miss Frances Ginsberg (B.S. Boston University 1948), who comes May 17. Miss Ginsberg has had over five years' experience, mainly in the Army Nurse Corps, in operating room work including teaching and supervision.

Dean Goodrich arrived in New Haven to start Y.S.N. in September of 1923. The first students came in February, 1924. Our twenty-fifth birthday therefore is to be celebrated next year. Anne Goodrich Waters '26 is Chairman of the Alumnae Committee to work on plans for the celebration. This anniversary should be a good talking point for the Alumni Council Committee on the Division of Medical Affairs. This Committee (similar groups have been appointed for other divisions of the University) under the chairmanship of Mr. Reginald G. Coombe of New York City is set up to take an interest in the Schools of Nursing and Medicine. The Committee members come from various parts of the country and we plan to have them meet any of our alumnae in their vicinity. It is up to us to see to it that the interest of its members bears interest in helping to meet the needs of our School.

I hope many of you will read the Review of 1947 of The Rockefeller Foundation written by its president, Raymond B. Fosdick. He has a chapter on Nursing Education and says in part: 'Everywhere around the world the emphasis is shifting from sickness to health, from therapy to prevention, from the physical to the mental and emotional; and the outpatient departments of hospitals, together with the public health agencies, are taking on wider significance, as the expanding needs of society underscore the growing importance of preventive medicine. In this vast development the nurse has a place of strategic importance, and the time has come—indeed, it is long past due—to discard the compromises and half measures which...
have too often marked the course of nurse training, and to base the profession on educational principles broad enough to sustain the new promises of the future.”

Sometimes we may forget what a truly pioneer job it was to establish such a school as Y.S.N. For the next 25 years we must continue to mold our educational methods “to sustain the new promises of the future.”

PUBLIC HEALTH NURSING

There has been some confusion in regard to the public health accreditation of Y.S.N. In the fall of 1915 representatives from N.L.N.E. and N.O.P.H.N. visited this School. Following this visit, joint accreditation was granted by these two Organizations to the basic program in nursing at the Yale University School of Nursing. According to this action, graduates of our School “are ready without further preparation for staff level positions in public health agencies offering direct supervision. These committees believe that these graduates, upon completion of a satisfactory experience in public health nursing in which potentialities for greater or special responsibilities can be demonstrated, should be able to qualify for advanced preparation in public health nursing leading to a Master’s degree.” This action is retroactive to September, 1944. This means that all graduates since that date who are in public health nursing or planning to enter this field may inform their employers that their basic preparation in nursing has been approved by the N.O.P.H.N. and the N.L.N.E. There are, however, no “certificates” issued by the Yale School of Nursing, contrary to the belief of several alumnae who have written in for them.

BITS

Remember Mrs. Chase? How would you like to travel to China with her as a “companion”? Drusilla Poole ’47 did just that. She has arrived in China and we have heard from her after just one week of work at the nursing school at Yale-in-

China. She was accompanied by Mrs. Chase and because the latter was too large for a trunk, she traveled in style in a casket, of all things! The nursing school had never before had an adult Chase doll. Drusilla wrote that she is to make a nursing survey which would include work of the students on the ward, their charting and make some evaluation of their experience and nursing care given to patients. She is to make a summary of the whole nursing situation and try to give concrete suggestions to the nursing service of the hospital. Drusilla sounds very enthusiastic and happy in her new job. More power to her!

A benefit bridge for Yale-in-China Hospital was held Friday evening, April 23, in the Sterling Hall of Medicine Club-room by the New Haven Regional Group of alumnae, with Claire Leonard Sanderson (Mrs. Gerard) ’42 as Chairman. There were about twenty tables and the total proceeds (including donations) of the event netted about $200.00 to the Yale-in-China Hospital fund.

Jean Barrett, now Professor of Nursing Education and Director of the Department of Nursing Education at Syracuse University, Syracuse, N. Y., was hostess to several Yale alumnae in that vicinity the evening of May 8, 1948. Guests included: Esther Budd ’31, Iva Torrens ’34, Helen Denn Stringer ’34, Ellinor Ralph Bickford ’36, and Lois Brown Stokes ’42.

BITS

Of the eight nurses pictured in the May 6, 1948, issue of the New York Times in connection with the New York City cancer committee's drive for funds, three were Y.S.N. alumnae: Hope Pitou '41, Nora Stuart '46, and Anne Gleysteen Kramer (Mrs. E. E.) '46.

Eighteen wards at New Haven Hospital are now equipped with Addressograph machines. Each newly-admitted patient comes to the ward with an addressograph plate, on which his name, unit number, birth date, etc., are inscribed. These plates are kept in a file box on the ward and are used when forms and requisitions are made out to eliminate much hand writing and errors in copying unit numbers. The plates go home with the patient to return with him each time he comes to clinic or for readmission.

Forty-eight members (of the original fifty-five) of the Class of 1950 started work on the wards March 1.

The May 9, 1948, New Haven Sunday Register carried on its "career" page an admirable account of an interview with Dean Elizabeth S. Bixler on the subject of nursing.

Miss Elizabeth Rice is leaving the Social Service Department of New Haven Hospital to become Professor in the Department of Public Health at Harvard University July 1, 1948.

Alumnae Day, February 21, 1948, went off exceedingly well with representatives present from all but two classes. Luncheon was served to about eighty people. The morning and afternoon programs were well given and enthusiastically received.
