Annual Report of the
General Hospital Society
of Connecticut
and the New Haven Dispensary
1943–1944

NEW HAVEN CONNECTICUT
The General Hospital Society of Connecticut

The General Hospital Society of Connecticut, which was chartered by a group of civic leaders in New Haven on May 26, 1826, owns and operates the New Haven Hospital. It is probably the fifth oldest general hospital society in the United States.

Created by and for the community, the Hospital, a voluntary institution, has served the sick and injured for more than a century. Coincidental with the growth of the city the Hospital has expanded from a capacity of 75 beds to 590 beds. It provides hospital care for the men, women, and children of the community without regard to race, religion, or ability to pay.

As a general hospital, affiliated with the Schools of Medicine and Nursing of Yale University, it is equipped to provide the patient with skilled and modern treatment for acute diseases, including contagious, tuberculous, nervous, and mental diseases.

The New Haven Dispensary, chartered in 1872, is affiliated with the New Haven Hospital. Its 35 clinics are located in the Hospital and are organized for the diagnosis and treatment of the sick and needy not requiring bed care.

MR. FREDERICK H. WIGGIN, senior partner of the law firm of Wiggin & Dana and intimately associated with the Hospital for 24 years, was elected President of the General Hospital Society of Connecticut to succeed Harry C. Knight for the year 1944-1945 at the postponed annual meeting held October 26, 1944.

A member of the Executive Committee since 1920 and Vice-President of the Society since 1930, Mr. Wiggin has served on many occasions as acting President during the terms of the two succeeding Presidents and his choice provides a continuity of experience particularly fortunate at a time when both this Hospital and nearly all social institutions are undergoing a careful re-definition.

Mr. Wiggin, like his 15 predecessors in office during the past 119 years, has given his time freely to community service in

Frederick H. Wiggin
other fields. As a past president of the Community Chest and of its member agency, the New Haven Boys Club, he is familiar with the over-all community effort toward improvement of the social picture, while having served as Alderman of the City of New Haven he is also acquainted with the community's official programs.

A native of Litchfield, Connecticut, and an alumnus of Taft School and Phillips Andover Academy, Mr. Wiggin graduated from Yale in 1904 and received his law degree from Yale in 1909. He has practiced his profession in New Haven continuously since that time with the exception of his period of service in the United States Army from which he was discharged from active duty in December, 1918, as a Captain of Field Artillery in the Reserve Corps.

In accordance with his previously expressed intention, Mr. Knight, a member of the Executive Committee since 1930 and President of the Society since 1936, tendered his resignation to take effect as of the date of the Annual Meeting.

Mr. Knight gave generously of his interest and time to the Hospital and his resignation was accepted with regret.

Despite inroads of the armed forces on the surgical staff, 5,787 operations were performed during the year.
We report with sorrow the death during the period of the Report the following members of the General Hospital Society of Connecticut:

**Mrs. Frederick T. Bradley**  
*Vice-President for Life 1914-44*  
*January 3, 1944*

**Mrs. Walter E. Malley**  
*Vice-President for Life 1932-44*  
*February 10, 1944*

**John T. Manson**  
*Vice-President for Life 1908-44*  
*February 21, 1944*

**Thomas W. Farnam**  
*August 3, 1943*

Thomas W. Farnam, a Director of this Hospital since 1906 and Chairman of the Executive Committee since 1929, died on August 3, 1943, after an illness of slightly more than one year. A lifelong resident of New Haven, Mr. Farnam was one of its most constructive and outstanding citizens.

New Haven Hospital was in the front rank of Mr. Farnam’s interests. Representing Yale University as well as the community, he had a large part in the plans for and development of the physical property devoted to its use.

Mr. Farnam combined an able mind with a warm and generous heart and a keen sense of humor. He was a loyal friend to many causes and to many persons. In his death this Institution has lost a wise counselor and the members of the Board have lost an associate ever to be remembered with affection and esteem.

—Excerpt from minutes of the Board of Directors
THE pressures of war conditions forced themselves more acutely and with more rapid change than ever before on the activities of New Haven Hospital during its fiscal year ended June 30, 1944. Complying with government restrictions and faced with acute shortages of personnel in positions vital to its operation, the Hospital necessarily continued to alter its traditional practices in order to maintain essential service.

Under such constantly changing conditions it was a period of practical day-to-day planning. Each day brought new demands for service and altered materially our ability to provide it. This service has been made possible only through resourceful teamwork, personal sacrifice and fortitude on the part of the professional staffs, employees and volunteer workers in the Hospital organization.

Meeting the Military Needs

In cooperation with the Schools of Medicine and of Nursing of Yale University, the Hospital continued to do its part in the training of much-needed militaryprofessional personnel.

At the request of the government, the number of physicians on our House Staff was radically reduced, the percentage of those eligible for military service was kept at a minimum and the period of their training was accelerated from 18 or 24 months to nine months.

As part of the program of the United States Cadet Nurse Corps, the School of Nursing increased its enrollment three-fold, with results which will be beneficial in the near future to both the military and the civilian community.

The Honor Roll of members of our organization serving their country in the armed forces increased to a total of 338.

The William Wirt Winchester Hospital continued to be the station hospital of the Army Air Forces Technical Training Command School at Yale University and has furnished facilities also for the care of many overseas casualties.

Meeting Civilian Needs

As shown by the statistical data accompanying this report,
the number of patient days' service decreased by 2,881. Yet, as
typical of the ever-changing picture, this decrease occurred dur-
ing a year in which the Hospital experienced the highest daily
census of its history and provided service for the victims of an
epidemic of infantile paralysis. As the only isolation hospital in
the district, it received from 29 cities and towns 210 persons with
positive diagnoses of this disease and 30 with questionable con-
ditions. Only ten deaths occurred. Such a potentially overpow-
ering load was met only by means of the outside assistance of 145
part-time nurses borrowed from public and private agencies, 92
medical students and a special group of 40 volunteers who con-
tributed hundreds of hours of service.

Although a high average occupancy of 85.5% was maintained,
the decrease in total patient days resulted primarily from the
necessity of eliminating beds in excess of our normal bed comple-
ment, particularly in private service, and the closing of three
nursing units for a period of six weeks, an arrangement which
many hospitals have had to make for the duration of the war.
This shrinkage of facilities was entirely due to the great shortage
of skilled nursing personnel so imperatively required by the
armed forces.

The number of Dispensary visits, on the other hand, increased
by 5,429, reflecting the influx of workers to the community from
other regions. Also the drafting of fathers into military service
has caused more families to seek Dispensary service on account
of lowered income.

**Personnel**

The average number in the working force of the Hospital was
683. This was a slight increase, resulting chiefly from the em-
ployment of a larger proportion of part-time workers. Turnover
reached a new high of 115%. The rate among part-time workers
was 159%, and 79% occurred during the first six months of em-
ployment. Statistics do not reveal the difficulties of operation
with a large number of new, inexperienced workers, many of
whom are not willing to work on the evening, night and weekend
shifts. Furthermore, the figures fail to show the constant drain
of absenteeism and sickness.

Emphasis was placed on retaining the more experienced
workers whose faithfulness to their task we partially rewarded
by deserved increases in salary. Meanwhile, the chiefs of professional staff, department heads and their immediate assistants have been compelled to bear a staggering burden. Tribute is due also to the pupil nurses of the Yale University School of Nursing who have had to carry the brunt of the increasing responsibilities of the nursing service.

Volunteer Service

Too much cannot be said in appreciation of the whole-hearted cooperation of large numbers of women and men of the community who have joined our Volunteer Services and to those of the Red Cross. In our Volunteer organization 54,308 hours of service were contributed by the women, including a highly appreciated Junior Division, and 14,318 by the men. In addition 14,709 hours were furnished by the various Red Cross groups. An additional division of the Men's Volunteers has been developed to assist the Maintenance Department and is giving an excellent account of itself. While of necessity there have been shifts among the individuals concerned, the enthusiasm of these groups remains high and their service to the community, through the Hospital, becomes increasingly noteworthy.

Financial

By reason of the smaller number of patient days, the income of the Hospital decreased by $23,059.89 from the preceding fiscal year, while the daily average cost per patient increased to a new high of $9.55. Likewise, the increased cost of operating the Dispensary more than overcame a slight increase in income.

The combined deficits of the Hospital and Dispensary amounting to $182,639.10 were the highest in their many years of operation. The cause of these increased deficits is found in higher costs of all kinds, particularly that of wages to personnel, so necessary to maintaining even a minimum force. Approximately 70% of the total operating expense of the Hospital and Dispensary is in compensation to personnel. While wages paid by these units are reasonably good in comparison with other institutions, the Hospital is naturally at a disadvantage in competing with war industry for the limited labor supply. When various requirements can no longer be postponed and adequate personnel is again
available, the annual operating costs are likely to be substantially increased.

During the year plans were developed to refinance for a ten-year period and at a lower rate of interest the funded debt of the Hospital which was incurred 20 years ago to build the Private Pavilion.

An intensive study of the factors affecting the structure of rates to patients was conducted with the result that a new schedule at higher levels became effective on July 1, 1944.

The deficit of $182,639.10 was reduced by contributions from Yale University of its guarantee of $100,000.00 and a later appropriation of $82,639.10, for all of which we record our sincere appreciation. We are indebted also to the Community Chest, the State of Connecticut, the City of New Haven and the Kiwanis Club for their appropriations. We are grateful, likewise, to the many donors who, by gifts of books, periodicals and flowers, have brought cheer to patients.

It is a pleasure to report that the accession of gifts to endowment principal continues to give evidence of the community’s appreciation of the values of the Hospital. During the year such gifts amounted to $211,462.15.

During the year the Board of Directors undertook a careful study of the activities of the Society through the following special committees of the Board: By-Laws, Expansion of Operations, Financial Relations with Yale University, Free Beds, Hospital Auxiliaries, Program, Public Education and Public Relations, and Winchester Funds.

In view of pressing major problems requiring careful decision, a Joint Committee of the Hospital and Yale University was created to the end that specific measures may be taken to clarify and strengthen the relations of the two Institutions.

Undoubtedly the financial aspects of current operation of the Hospital, the Hospital’s responsibility to meet the needs of the community and the requirements of returning veterans demand that an expansion of private and semi-private facilities be made as early as possible.

For their untiring efforts to meet the problems of this period, we express our heartfelt thanks to every member of the Hospital organization; to the Board of Lady Visitors; and to the many Volunteers for their continued interest and effective service.
We pledge our best efforts to meet the obligations of the future and for our continued success we earnestly solicit all possible help and understanding support from the people of the community.

For the Board of Directors
Harry C. Knight
President

For the Executive Staff
James A. Hamilton
Director

Nearly 2,000 employment interviews were conducted during the year to maintain a minimum working force.
In cooperation with the Schools of Medicine and of Nursing of Yale University, the Hospital continued to do its part in the training of much-needed military professional personnel.
Volunteers gave thousands of hours to serving patients, helped out in nearly every department of the Hospital.

Diversional Therapy among both children and adults helped to keep minds healthfully occupied while bodies were mending.

Research on poliomyelitis is only one of the many such life-saving projects carried on by the Yale School of Medicine—many for the armed forces.

The Hospital’s continuing interest in patients after they go home helped this polio patient to keep on with his high-school work with the assistance of four volunteer teachers and a hospital respirator.

Mrs. R. Townshend
Roger W. Tuttle
Dr. Margaret B. Weir

Mrs. Louise F. Wilson

*Previous to the amendment of the constitution of The General Hospital Society in 1919, persons contributing at any one time $1,000 became vice-presidents for life; contributors of $500, life directors; contributors of $50, life members; and contributors of $25, members for ten years. The Act of March 20, 1919, omitted the class of life directors and provided that contributors of $500 should be life members; of $25, annual members. Those enumerated in the list as life directors are, therefore, those who qualified before the amendment of 1919.

To the Board of Directors,
The General Hospital Society of Connecticut,
New Haven, Connecticut.

We have made an examination of the balance sheet of

THE GENERAL HOSPITAL SOCIETY
OF CONNECTICUT
(comprising the New Haven Hospital and the
William Wirt Winchester Memorial Hospital)

as of June 30, 1944 and of the related statements of operating deficit and income and expense for the fiscal year then ended. In connection therewith, we examined or tested accounting records of the Society and other supporting evidence and obtained information and explanations from officers and employees of the Society; we also made a general review of the income and expense accounts for the year, but we did not make a detailed audit of the transactions.

At the request of your Treasurer, The Union & New Haven Trust Company, we did not apply the auditing procedure of confirming the accounts receivable by communication with the debtors and, owing to the amount of time which would be involved, we did not make a detailed review of the patients' accounts receivable. The allowance of $168,128.25 appears to be sufficient to cover eventual losses on collection of the amount of $328,138.37 shown on the attached balance sheet as due from patients at June 30, 1944.

The stocks and bonds, real estate mortgages and real estate shown on the books at June 30, 1944 were in agreement with those shown on certified lists submitted to us by the Custodian, The Union & New Haven Trust Company. At June 30, 1944 the approximate amount of the stocks and bonds based on market quotations was $4,294,000.00 compared with a total book amount of $4,126,928.61.

Our examination of the recorded changes in the accounts for the funds principal was limited to a comparison of the transactions shown on the books with reports of such changes prepared by the Treasurer, The Union & New Haven Trust Company, and submitted to your Board for approval.

It was impracticable for us to obtain direct confirmation and verification of legacies and gifts received during the year ended June 30, 1944. We have not undertaken to ascertain that provisions affecting funds and gifts have been observed.
In our opinion, based upon such examination and subject to the foregoing comments and also to the explanations shown in footnotes to the statements, the accompanying balance sheet and related statements of operating deficit and income and expense fairly present the position of the Society at June 30, 1944, and the results of its operations for the year then ended.

Lybrand, Ross Bros. & Montgomery
Certified Public Accountants.

New York, September 11, 1944.

THE GENERAL HOSPITAL SOCIETY
OF CONNECTICUT

BALANCE SHEET, JUNE 30, 1944

ASSETS

Operating assets:
Cash (Note 2) ........................................ $ 115,592.99
Accounts receivable, patients $ 328,138.37
Less, Allowance for uncollectible accounts 168,128.25
160,010.12
Miscellaneous accounts receivable 23,062.93
Contribution receivable 25,000.00
Inventories of supplies, at cost 121,889.98
Deferred charges:
Unexpired insurance, etc. 3,984.38
Equipment, etc. 2,531.66 6,516.04 $ 452,072.06

NOTES:
1. The assets and funds of the New Haven Dispensary, which amounted to approximately $60,000, are not included in the above balance sheet.
2. In accordance with the adopted policy of the Society, general fund cash and accounts payable have been reduced as of June 30, 1944 by approximately $79,000, representing disbursements after that date for accrued expenses and commitments included in the accounts before closing at June 30, 1944.

3. The amounts shown for buildings and equipment do not include buildings constructed by Yale University and used by the New Haven Hospital, or other items either charged off against capital invested in plant or treated as expense. The Society is contingently liable under certain agreements and upon certain contingencies to acquire such buildings erected by Yale University. No allowance is made for depreciation of buildings and equipment.

**Note:** Gifts of money by will or otherwise, designated Free Bed Funds, are held as part of the permanent endowment funds of the New Haven Hospital. Such a gift will pay the hospital expenses of one or more poor and deserving patients for a length of time proportionate to the amount of income produced by the principal sum of the gift.
