AMBULATORY SERVICES... Resource For Community Medical Care

One vital aspect of health care, upon which a...n's work in 1963 to patients for which the hospital received no direct costs. Cognizant of the many changing characteristics of ambulatory care, Grace-New Haven, as a full service voluntary, community hospital, accepts its responsibility to meet the medical needs of patients by providing a full spectrum of diagnostic and treatment services through its outpatient clinics and emergency service, where the helping hand of the physician is capably supported by nurses, dietitians, technologists, and other skilled and supporting personnel. As members of the hospital team in its purpose, and privilege, to provide clinic and emergency service patients with high quality professional care.

ROBERT E. RAMSAW

Summary Of Income And Expense
CONDENSED OPERATING STATEMENT
Year Ending September 30, 1963

This is what we spent to operate the hospital ... $12,480,296
Income from care of patients $11,705,130
Income from Free Bed Funds 124,480
Received from the United Fund 52,350

OPERATING LOSS $11,881,960
Income from Endowments, Grants and Other Sources $598,336
NET LOSS ON 1963 OPERATIONS 372,238

NOTE: This past year was the first time since 1960 that the Hospital's expenses exceeded income. The net loss was attributable generally to increased operating expenses, including wage and salary adjustments, and specifically to the unresolved problem of providing close to $1,000,000 in free care to in-patients and out-patients — services for which the Hospital received no direct compensation.
